SURPLUS AND INCREASED REVENUE ANTICIPATION

During the three previous school years, the amount of surplus available for use has averaged in excess of \$9.4 million. For 1983-1984, however, the Board failed to anticipate the availability of any surplus. In addition, the Board underestimated miscellaneous revenues. The amount of \$5,000,274.00 in surplus and additional revenues will be available to support the 1983-84 school budget.

A motion to adopt the resolution was made by President Grant, seconded by Councilman Payne.

Councilman Tucker stated he remembers when they were discussing the reductions for the Board of Education, the general consensus of opinion of the Council and the Mayor was working on the reduction based on the bill of the taxpayer. He doesn't know if any one has taken the time to go through this. The Mayor is not mentioned in any of these documents. The net result of the matter is that the Mayor has given advice but at this point in time he does not see fit to add his name to the recommendation. Subsequently, from the standpoint of the Board of Education, it is the Council who in effect have cut the budget. The major gist of what this resolution talks about is the question of the consolidation of the facilities. Most of them know full well even the persons who have taught within the Newark School System, that the classroom size is directly related to the ability of a teacher to teach and directly related to the ability of children to learn. When you say consolidation, what in effect you are saying is closing down schools. As a Council Person at-large, it would be wrong for him to go on record talking about closing any schools within the City of Newark, when they are talking about an average size classroom which has reached a level that all of them believe to be generally acceptable to reach the educational level of children. He does not feel they should in turn basically cut the food program within the school system as the resolution actually dictates and also talk about cutting the salary for the Food Service Workers, all of which are Newark residents. The only point he believes that has any kind of reality based on fact is the ability of the resolution to recommend the excess amount of principals that currently exist. All the other points in this resolution he cannot in good conscience support.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, President Grant.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to table the resolution was made by Councilman Tucker.

There was no second to the motion.

President Grant stated this has nothing to do with the improvement of the property. This is only amending the resolution to furnish the place.

Councilman Tucker said his concern is that they need to build that lab at University High before they talk about taking \$200,000. out of the Capital Budget to furnish a building.

President Grant said what they are doing is taking money out of Green Street and transferring to 828-830 Broad Street for furniture for the Department of Finance. They have already indicated that the Bond Counsel has to draw up the legislation for the laboratory for University High and a special meeting has been called for Wednesday, June 8, 1983 to deal with that.

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez.

Councilman Tucker stated he finds it incomprehensible that they can find \$200,000. for furniture but can't find the money to deal with the education of our children. They are currently being criticized because they took out the money. He said how would it look that they appropriated \$200,000. for furniture but they couldn't deal with a lab.

President Grant said that would be accurate if it were factual. He said maybe Councilman Tucker was out of the room when they mentioned that the legislation for University High has to be prepared by their Bond Counsel. The Bond Counsel is meeting presently for the purpose of drafting that legislation and a special meeting will be called for that item.

Councilman Tucker questioned why can't this resolution be considered at the special meeting of June 8th.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Villani, President Grant.

No: Councilmen Payne, Tucker.

Not Voting: Councilman Rice.

Councilman James requested to change his affirmative vote to the negative.

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez and failed of adoption of the following votes:

President Grant directed the City Clerk to add this resolution to the call of the special meeting of the Municipal Council for Wednesday, June 8, 1983.

MOTIONS.

7-M-a.

A MOTION DIRECTING THE CITY CLERK TO FOLLOW UP WITH THE BUSINESS ADMINISTRATOR AND POLICE DIRECTOR RELATIVE TO THE MUNICIPAL COUNCIL STAFF PARKING LOT NEXT TO 32 GREEN STREET, was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Councilman Martinez stated he desires to put into the record his remarks. Last week he was hospitalized briefly with pneumonia and he was surprised and outraged when he read the newspaper on Thursday morning when he was greeted with the headline that "a one thousand bed minimum security prison was earmarked for site adjacent to the Holiday Inn in Newark on Routes 1 and 9". This was like a slap in the face because although he is the elected official representing 80,000 residents of the East Ward, as the legislator, he was not even contacted by Mayor Gibson and apprised of the plans he was discussing with Governor Kean. He finds the Mayor's failure to consult with him disrespectful and insulting. Further, he finds his failure to gain any input from the East Ward residents or the City of Newark residents at-large regarding their feeling on the proposed prison as a callous disregard for their opinions. Thus, he has taken upon himself to send a survey to every republican and democratic district leader in the East Ward along with every community group asking that they poll their constituents regarding their feelings either pro or con on the prison. In addition, he will ask by Motion today, that two evenings be designated and properly advertised for a public hearing on the matter. Hopefully, he will preside over these sessions. He hoped that his eight colleagues would join him in listening to the opinions of Newark residents on this controversial issue. Commissioner of Corrections, Mr. William Farber and Mr. Gary Stein, Director of Policy and Planning for Governor Kean will also be invited to the public hearings along with Mayor Gibson. The results of this survey, as well as the sentiments expressed by citizens during the public hearing, will be studied and analyzed and whether it's for or opposed to the construction of the prison at the Frontage Road Side. He hopes that the State will recognize and respect the sentiment of Newarkers as well as adhere to the results of the survey and the public hearing. Quite frankly, he does not believe that the City of Newark will be getting the optimum benefit that this property can offer under the agreement with the State. This area contains some prime industrial property and he is sure that the City will derive more income from private developers than it would from \$1.63 million maximum promised by the State.

June 1, 1983

Each and everyone of them, who sits on the Council, has been extremely critical of the Administration that negotiated the City's lease with the Port Authority for Newark Airport and Port Newark almost 40 years ago. The City gets only \$1 million of rent annually from the Port Authority for property assessed in excess of \$500 million. He does not want to see himself 20 years from now as being part of a plan that will be detrimental to the City. He and the other Members of the Council have criticized the media, the airlines and other entities for the negative image they have consistently given Newark, but he has to ask himself honestly "how can they promote the City when the first thing anyone will see when landing at Newark Airport will be a proposed garbage recycling plant, proposed holding tanks where toxic chemicals will be stored waiting to be burned at sea and now to complete the triangle, a 1,000 bed prison." Mayor Gibson says he has been promised by the Governor that most of the jobs will go to Newarkers, but in a letter to Gary Stein, the Mayor notes that all job applicants are required to take a Civil Service exam. That will hardly guarantee the hiring of Newarkers despite legislation giving local residents preference. Moreover, there are State pending laws that require contracts awarded to the lowest responsible bidder despite the Mayor's assurance that Newark firms will be given priority consideration. He is also concerned by plans not to construct walls around the proposed prison and wondered what guarantees will be provided for adequate security not only for the adjacent buildings, like the Holiday Inn and the many persons who utilize this facility, but for the 320,000 residents of Newark and the many thousands who travel the highways near the facility. Lastly, he looks at the Holiday Inn, which just invested over \$1 million to modernize its physical plant with plans to add a health spa and an additional 100 rooms and he can't help but ask "what effect the prison will have on this establishment and other private industry's plans to develop or expand in the industrial meadows." He maintains that the decision to build this prison should not rest solely with one man, Mayor Gibson. The construction of this facility will have lasting effects not only in the East Ward, but all of Newark and he strongly believes that a project of this dimension mandates input from all those whose lives will be touched.

Councilman Martinez said his Motion will be that a special public hearing be held on Thursday, June 30th at 7:00 P.M. and limiting it to 10:00 P.M., which would allow approximately 35 - 40 speakers to be heard and Wednesday, July 27, 1983 at the same time. At the conclusion of the public hearing and upon the conclusion of the gathering of the surveys that will be submitted, at that point in time, if necessary, he will try to seek petitions in the City of Newark to place this item on the November Election for a referendum to be voted by the residents of the City of Newark.

President Grant stated he would add one caution. In light of the Governor coming in and wanting to build there, the State ultimately has the right of eminent domain with or without them and what Councilman Martinez is doing is registering his protests so that the citizens of the East Ward can have an opportunity to be heard.

Councilman James said that President Grant has answered his question. He wanted to pose a question to Councilman Martinez. What purpose would a referendum serve if they considered a right of eminent domain. He is also confused on the Motion because his concern is, is it Councilman Martinez's thinking that the Governor and the Legislatures would, in fact, attempt to build without any meaningful dialogue with Councilman Martinez and this Body. The only thing he is saying in reference to his Motion, he is not registering specific response from the East Ward, but it is somewhat surprising that a project of this magnitude has reached this stage with no input whatsoever by the Newark Municipal Council. He is not even speaking of pro or con. He thinks it is an insult to the integrity of this Body and on the same hand they have people "cry out" that they need communication, need to talk to one another. They have to have "breakfasts" to get things together. They are talking about a significant project in the City of Newark. They will wait until the next crisis situation on some little issue and say "hey, let's meet for breakfast", we have to discuss this thing. He will not be at the next breakfast.

President Grant replied he will have to take exception to that. The Mayor did call a meeting at a breakfast and did discuss it.

Councilman James said he asked about the meeting called by the President dealing with the question of Office of Real Property. He asked individuals if this question was brought up and someone said they made mention of it. He will stand right now and have the Councilmen who told him that, correct him, there was

June 1, 1983

1559

meaningful exchange about the prison. That was told to him by the Council Members that were there and the President's memorandum did not state that. If they are going to meet for Office of Real Property, that ought to be stated. If they are going to meet about the prison, the letter should be written correctly. All of them have other business opportunities. He felt he did not want to attend a meeting for the Office of Real Property. If the letter was stated that a meeting would be held on the prison, he would have attended.

President Grant said the meeting that was held for Office of Real Property was not scheduled for 8:00 A.M. but scheduled for 11:15 A.M. in the Council Conference Room. There is a difference.

Councilman James stated they had a meeting called for 11:30 A.M. for Office of Real Property. He was told by those in attendance the Mayor showed up and indicated he was not ready to make a presentation to the Council for 11:30 A.M. and was withdrawing that action. The purpose of that meeting was not for a prison.

President Grant replied the purpose of the meeting was the Mayor's meeting. They responded to a request from the Mayor to a meeting.

Councilman James said he was already told that was not the consensus of that meeting. He is going to poll some people that were there.

Councilman Tucker said it would be very simple to just add that this is just another example of the total disrespect and disregard that the Mayor and Administration has for the City Council. There have been various discussions about the feasibility of establishing a prison within the City of Newark over a number of years. He remembers there was one discussion about the possibility of revitalizing the old Newark Street Jail. There was another discussion talking about locating a prison somewhere within the Central Ward. Councilman Branch's predecessor, B.F. Johnson was diametrically opposed to that, but there were a series of meetings with Members of the Correction Institutions. He remembers a representative from the prison came to meet with the City Council to discuss the various issues; they had community people who were involved in that process. The net result was finally that people felt they were not in support of the prison being located in either the old jail site which the people had originally felt was for development purposes or the alternative site within the Central Ward. All he is saying is that the discussion of a prison is not new to the City Council but he does take major exception to the fact the Governor came into the City of Newark announcing that he has located a space for a prison, talking about a payment in lieu of \$1.2 million. He has a tendency to look at the assessed evaluation of the land down there and he submits to his colleagues, that the assessed valuation of the land down there eight years ago, was valued at \$25,000. an acre. The assessed valuation presently is in the neighborhood of approximately \$50 million. If you equate the \$50 million and multiply that out to what the total site that is proposed by the Governor, they will find what the Governor is proposing under a payment lieu is nothing but "cheap change". They do not have a copy of the proposal but would like to thank the representatives from the Mayor's Office for giving them copies of communications from the State, which at least established a general discussion and also indicated prior meetings had taken place even before this year with the Mayor and representatives of the Correction facilities. All he is saying in effect is, that if they talk about \$1.2 million which is payment in lieu, they should knowingly understand that that payment is an annual appropriation of the State Legislature. If the City is amenable to accept \$1.2 million, they do not know whether or not the Legislature, within its wisdom, would appropriate that money each and every year. In other words they can appropriate it one year and not the next. He would like to see some other factors taken into consideration. He does not believe that a prison is in the best interest of the City, especially in that neighborhood. That does not negate the fact that the vast majority of prisoners who would probably be incarcerated there, would be from the City of Newark. He is going to second the motion because he believes public hearings need to be held. He remembers meeting with people who have persons in jail who have indicated it is a major hardship for them to go down to Rahway and would like to have a prison located within the city of Newark. All he is saying is that there are many questions that are unresolved and he believes that a public hearing on this matter would in turn really give them direct opinion as to what the opinion of the community is.

Councilman Tucker said that he would like to amend the Motion that the public hearing, which would involve all Members of the Council, be taped so that a transcript of remarks be submitted to the Governor and Members of the Assembly and invite the Members of the Board of Chosen Freeholders and Essex County Delegation, so they can hear what the general consensus of the opinion of the

June 1, 1983

citizenry is. The letters they have indicate discussions with the Mayor. He would like to be in receipt of the plan. He would like to know the relationship of the prison in regard to the economic development of that area. They approved a Five Year Master Plan, appropriating \$100,000. for a consultant to develop. This prison is not in concert with their five year development plan. They need to at least make sure that they find out in what way will the prison, in effect, null and void the original plan in that neighborhood because that was planned for industrial development.

Councilman Tucker said he hoped his colleagues would accept the amendment so that they can have this meeting taped and have the City Clerk's Staff present.

Councilman Branch concurred with remarks made by Councilman Martinez and Councilman Tucker in regard to public hearings. He recalls at the "breakfast meeting" the Mayor informed Councilman Carrino to touch bases with Councilman Martinez who was hospitalized at that time. He said maybe the Governor should have called a meeting with the Council Members. He stressed that communication was very necessary. Some of the Council Members were not able to attend for whatever reason and felt it was a good meeting and gained a great deal. The Governor stated they are going to build a prison come "high hell or high water", whether they like it or not. The brunt of it is like Councilman Martinez stated, they should have had public hearings first. Nobody wants a prison in their back yard but everybody wants to get rid of the prisoners. He is not saying where the prison should be built.

Councilman James said he is amazed at their conversation because they are talking about a "breakfast" that took place after. He questioned when the breakfast took place, before May 11th or after. What he is suggesting the decision was already made. He is not going to ask for any discussion. There is no decision if a decision has been made. You can be advised or reported to. That is not communication. These letters date back to May 11th. Is he suggesting to him, that a dialogue on the prison, or is he telling him that he was made aware of what was contained in these letters, that subsequently appeared in the newspaper.

Councilman Branch replied the Mayor called a meeting for the purpose of talking about the prison at this particular time. When the letter came out that is another thing.

Councilman James opined the meeting was called to explore the question of a prison in Newark or the Report of of Findings in the letter.

Councilman Branch said all he knows is that the Mayor brought them together to give them an up-date on the meeting he had with the Governor.

(To create the title and salary range for Coordinator of Senior Citizen Centers)."

(Creating new title for consolidation of Newark Office on Aging and Newark Golden Age Project; previously funded from Federal money)

(Copy of ordinance and correspondence submitted to each Member of the Council)

Councilman Payne questioned whether a new title is being created or is it just a change in title?

Chief Accountant Fitzsimons replied they are consolidating two federal programs into one title.

Councilman Tucker said the \$20,000. salary is being paid by federal funds. The City is in receipt of a grant for the Golden Age Program that comes under U.C.C. and a contract is going to be forwarded to the Council. His only concern is if that takes place, what is happening. This is for Reverend Porter who is being transferred from U.C.C. payroll to the City payroll which means it would automatically come out of municipal tax dollars. It should be amended to pinpoint that that salary is going to be paid out of Community Development Funds coming from U.C.C.

Chief Accountant Fitzsimons replied the ordinance does not indicate that.

Councilman Tucker said if they approve the ordinance the way it is presently constituted, they have two Coordinators. There are supposed to be four other people with this ordinance and the money is supposed to be reimbursed to the City through U.C.C.

A motion directing the City Clerk to place this ordinance on the June 22, 1983 Calendar of the Municipal Council for first reading and directing the City Clerk to communicate with Director of Health and Welfare Cherot questioning if the proposed salary range represents the total compensation to be paid to the Coordinator of Senior Citizens Centers or if it represents only the City's share with additional compensation being funded through other sources, was made by Councilman Tucker, seconded by President Grant and adopted by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, Tucker, Villani,

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. KENNETH LOUIS, SR. VICE-PRESIDENT, GREATER NEWARK CHAMBER OF COMMERCE, 50 PARK PLACE, NEWARK, NEW JERSEY, addressed the Council with respect to the deferral of the ordinance. He noted the Chamber of Commerce wanted to have a chance to go over the ramifications. He believed the adoption of the ordinance might bring about more crime in the area. He stated individuals would have access to the phone numbers and it might create situations where owners would be going to their businesses on non-emergency basis.

Councilman Rice suggested deferring the ordinance until the Chamber of Commerce has had the chance to look it over.

MR. MURRAY EDSON, 47 LINCOLN PARK, NEWARK, NEW JERSEY, questioned the matter of leaving his address and phone number outside of the building.

Councilman Rice explained it would mean the identification of the owner, who would respond to emergencies relating to internal problems within the buildings.

Mr. Edson wanted to know if he could just submit his name and telephone number to the Police and Fire Departments in case of an emergency.

No one else appearing, a motion to close the hearing and defer action on this ordinance was made by Councilman Rice, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MS. DORIS McRAE, 278 IRVINE TURNER BOULEVARD, NEWARK, NEW JERSEY.
MR. OSCAR MILES, SCUDDER HOMES, PRESIDENT OF TENANTS ORGANIZATION.
MR. AL WRIGHT, 86 NORTH MUNN AVENUE, NEWARK, NEW JERSEY.
MS. CHRISTINE BROWN, 145 SETH BOYDEN TERRACE, NEWARK, NEW JERSEY.
MR. NATHANIEL PETTIFORD, KRETCHMER HOMES, PRESIDENT OF TENANTS ASSOCIATION.
MS. JOSEPHINE KIRKLAND, 839 FRELINGHUYSEN AVENUE, NEWARK, NEW JERSEY.
MS. JOHNNIE MAE MITCHELL, FELIX FULD COURT.
MR. EARNEST SHORT, 839 FRELINGHUYSEN AVENUE, NEWARK, NEW JERSEY.
MR. OSCAR STAFFORD, A RESIDENT OF BAXTER TERRACE.

The above speakers addressed the Municipal Council with respect to their dissatisfaction with the Newark Housing Authority and being in favor of the splitting of the two agencies.

Councilman Carrino stated that no one really knew what the split would accomplish. He said by splitting the agencies the Administration would not have any more excuses for not doing their job.

Councilman James said he hoped the Council could appeal to the Administration with existing cooperation to carry out the changes with the new policies. He stated it was being done for the improvement of the quality of life in public housing.

Councilman Payne hoped the change would see to it that the elevators ran properly, garbage was picked up and the police services were taken care of.

Councilman Tucker indicated the agency has failed to provide inadequate living conditions for the tenants. He stated by creating the agency it was done with the thought of incorporating urban renewal with public housing. Urban Renewal meant more development, but instead these lands have not been developed for many years. He said the split was the first step to insure the tenants would be in receipt of the good quality housing they deserve.

MR. ALAN KING, 47 QUITMAN STREET, NEWARK, NEW JERSEY, a former resident of Scudder Homes felt the blame of the Housing Authority deteriorating should not be placed solely on Mr. Milton Buck. He stated the tenants played a part. He added the structures that were inhabitable for living should be leveled down. He felt money should not be "pumped into" buildings that were not decent.

Councilman Rice stated that changes should not be made until the proper combination was found.

Councilman Tucker asked Mr. King if he was a resident of Scudder Homes.

Mr. King replied that he was a former resident, but his family resided there.

Councilman Tucker claimed the people that were affected by the problem were the people that were most qualified to speak about them. He mentioned that \$37,000,000. was appropriated to the rehabilitation of elevators, broken pipes, etc. and none of this has taken place.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Mr. James stated the people with good track records would be hired.

Councilman Rice added comments which were directed to the body. He stated in regards to the City, they were going no place. He stated that the citizens wanted innovative and progressive changes by decision-makers in the Council and Administration. Mr. James replied in the affirmative. He explained that police permits and departmental approval have to be obtained.

Councilman James said there was a weakness in the area of the closing times of the playgrounds. He felt they should be permitted to remain open until 9:00 or 10:00 p.m. He said the reason for this was that the children would be in one area and be kept out of trouble.

Councilman Branch questioned the security of the playgrounds.

Mr. James stated that the City would provide the staff and maintain the security.

Councilman Tucker queried as to who would be hiring the personnel who would work in the playgrounds.

Mr. James indicated the personnel would be hired by the City and the Board of Education will hire professional supervisors.

MR. JOSEPH CZASZYNSKI, 737 PARKER STREET, NEWARK, NEW JERSEY.

The above speakers addressed the Municipal Council concerning the possible layoffs at Urban Development Resources, Inc.

At the conclusion of the discussion, the City Clerk was directed to invite Mr. Stanley Smith, President, Urban Development Resources, Inc. to attend a Special Conference to be held on Tuesday, June 28, 1983 to discuss the general purpose and reason for the proposed layoff; whether a proper balance of management, staff and clerical positions exists in the proposed layoff; whether any form of discrimination exists in the proposed layoff (i.e., race, sex, residency) and whether employee performance based on a routine system of personnel evaluations was considered in determining the individuals to be dismissed.

6-HC-m.

MS. ROSE BURRELL, 724 SOUTH 12TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to keeping the playstreets open.

6-HC-o.

MR. RICHARD CAMMARIERI, 85 FOREST HILL PARKWAY, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to 30 Walnut Street, Newark. He said he was interested in making tenant management a viable option to Newark. He stated the Council's assistance was needed one more time to defer the auction until the Senate Bill #1312 was passed, which makes tenant management viable in the City of Newark.

He also addressed the Municipal Council with respect to the Emergency Jobs Bill, which has allowed extra Community Development Block Grant monies to come to Newark through the Office of Planning and Grantsmanship. He felt this would have an impact on the residents of Newark, the neighborhoods of Newark, etc. by creating emergency job opportunities. He mentioned a proposal which his group had put together and which was submitted to the Office of Planning and Grantsmanship, which administers the C.D.B.G. money coming into the City. The proposal was in the guidelines of the C.D.B.G. Program and in the Congressional intent of the Emergency Jobs Bill. He said this was done to ask for job slots for member agencies in order to address the urging community need for various neighborhoods. He mentioned that he received a proposal by the Office of Planning and Grantsmanship in which he felt that none of that money was being used for anything that could be called emergency jobs creation. Most of the money was going to be used for add-ons for on-going programs.

Councilman James asked Mr. Cammarieri if he had any trouble going into the community trying to structure dollars to create more jobs.

Mr. Cammarieri replied that there was a process regarding R.F.P., which was sent out by the Office of Planning and Grantsmanship. He indicated not too many people responded at the public hearing which was held to discuss the issue.

6-HC-p.

MR. VICTOR DE LUCA, 38 MAIN STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the Community Development Block Grant monies. He felt the package that was received from Planning and Grantsmanship was a "farce." He said the money is supposed to be used in getting jobs for the people of the neighborhoods who were unemployed.

He also stated he was in complete support of the deferral of 30 Walnut Street.

Councilman James said the Council was told "If we fail to act tonight, fail to go along what is on the paper, we jeopardize the chance of getting the dollars."

Mr. DeLuca said the Council should not make any decision in haste without all of the information.

Councilman Tucker indicated there was an amendment to the act which gave the local municipalities the option. He said that although the bill was called Emergency Jobs Bill it provided the City with the ability to give general direction, which means that jobs do not have to be created. He noted that one issue that the Administration was in agreement with Council was modular housing. He felt the application should be revised prior to the funds coming back into the City. He said the only jobs that he could identify with was 23 police for the Housing Authority Police Force. He said the question was either to obligate the funds or call a Special Meeting to deal with the issue.

MR. DENNIS LOWERY, 89 GOLDSMITH AVENUE, NEWARK, NEW JERSEY.

The above speakers addressed the Municipal Council with respect to the deferral of 30 Walnut Street and Community Development Block Grant monies. (Emergency Jobs Bill)

Councilman James said he kept hearing that a public hearing was held. He asked to be in receipt of a transcript of requests and suggestions which were made at the public hearing by the citizens. He thought it would be interesting to the Council to take a look at what the citizens indicated during the hearing.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to amend the resolution by changing the minimum purchase price from \$11,500. to \$23,000. was made by Councilman Tucker, seconded by Councilman Martinez.

Councilman Martinez mentioned he was in Trenton on Monday and the Senate Bill #1312 was thought to be favorable for approval by the Senatorial Body. He said if the Bill was approved the tenants would be the first under the Statute to work out an agreement with the City for a joint venture.

Councilman Tucker felt the purchase price should go back up to the original price of \$23,000. because in effect, the auction did not take place the first time it was supposed to be held. He said the City should not lose \$12,000.

Councilman James said the passage of the Senate Bill would not establish what would be considered by the Council to be a fair and equitable lease between the tenants and the City. He thought the City should be in receipt of some taxes during the interim period. He stated he would be in support of the delay but would not comment any further if the City was not successful in an equitable lease that would bring revenue to the City by way of taxation or successful in relieving the burden of the property at the taxpayer's expense.

7-R-b-S. RESOLUTION ADOPTING BUDGETS FOR VARIOUS PROGRAMS WITHIN HOUSING AND COMMUNITY DEVELOPMENT ACT (H.C.D.A. IX), NINTH YEAR, IN AMOUNT OF \$14,783,000.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to amend the resolution by transferring \$800,000. from Community Clearance to Contingency Reprogrammable Funds was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:
Yes: Councilmen Martinez, Payne, Rice, Tucker, Villani, President Grant.
Not Voting: Councilman James.

A motion to adopt the resolution, as amended, was made by President Grant, seconded by Councilman Tucker.

Councilman James said he cannot in good conscience intelligently vote on this matter before them since they have received this one or two hours before the meeting with respect to \$13,000,000. He is even confused about a letter he has on his desk calling for a special meeting on Thursday for the same passage on which they are voting now. It simply indicates that if they don't adopt it today they will be back on Thursday. He does not understand the whole "circus" atmosphere that they are dealing with. There were serious questions posed by Councilman Tucker and no definite answers are being given and he doesn't understand how they can treat \$13,000,000. in this application in one hour in a "circus" atmosphere and do any justice. He is not faulting anyone. He is faulting himself. He just can't participate in it. He has heard a million questions, people in this corner, that corner. He doesn't believe that is good government. He is confused on the whole thing. Everybody has ideas, everybody is saying things but there is no follow-up, no meaningful rapport as to weaknesses and strength, what they can and what they cannot do. He feels they ought to be able to deal with this more seriously.

President Grant replied that perhaps the last letter was sent in error. They just went over the entire resolution and the one thing Councilman Tucker is raising, the Clean-Up Program that he is requesting be taken out.

Councilman Tucker said they met and went over this Resolution, project by project. The issue he is concerned with is they are cutting Contract Demolition. He is aware that Contract Demolition is going to be picked up by the State Program. They know that Contract Demolition moves faster, they also know they demolish more buildings and also are generally more knowledgeable, although they don't have the substantiation of the Monitoring Department, that in effect it may be less costly. His concern is that there was no explanation that anybody could come up with dealing with this Community Clearance Program. In this Program they have demolition workers. He thinks Executive Director Jean, of the Mayor's Policy and Development Office indicated their titles have been changed. The changing of the titles still doesn't negate the fact that they are supposedly going to be boarding up abandoned buildings in the City and also they indicated they are going to be cementing some of these buildings. He remembers this Council voted on a contract in which they hired people to cement buildings. They also indicated it was a program that is dealing with public relations called "Clean City - Love Newark Campaign" and there is only \$2,000. in the entire budget talking about promotional activities for the "Love Newark" campaign. The overall budget for this project is \$800,000. It is either a part of demolition or it is not. His only concern was, given the benefit of doubt, amend the resolution by taking it out of the programmatic form and put it in the Contingency Line until such time as they are in receipt of information which substantiates the existence of this project.

The motion to adopt the resolution, as amended, was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Martinez, Payne, Rice, Tucker, Villani, President Grant.
Not Voting: Councilman James.

RESOLUTION RECOGNIZING AND COMMENDING CAROL HARBICH, A LIFETIME RESIDENT OF THE CITY OF NEWARK, FOR HER ACHIEVEMENTS IN THE FIELD OF ENTERTAINMENT AS A LONGTIME MEMBER OF THE WORLD-FAMOUS DANCE TROUPE, THE ROCKETTES OF RADIO CITY MUSIC HALL AND DECLARING JULY 6, 1983 TO BE "CAROL HARBICH DAY" THROUGHOUT THE CITY OF NEWARK.

Councilman Martinez presented Ms. Carol Harbich with a suitably inscribed resolution on behalf of the Municipal Council.

Councilman Martinez read the following resolution.

WHEREAS, the Greater Newark Area has been home to many famous persons in the entertainment world, people such as Sarah Vaughan, Connie Francis, Cissy Houston, Frankie Valli and Melba Moore, each of whom in their own way have contributed greatly to their chosen field of endeavor while bringing credit to the City of Newark; and

WHEREAS, another daughter of Newark who has in her own way made a most significant contribution to the entertainment field is our own Carol Harbich, for 26 years a member of the world-famous dance troupe, the Rockettes of Radio City Music Hall; and

WHEREAS, while Carol has enjoyed an illustrious career of glamour and excitement built on hard work and discipline, she first found national prominence when she, with others, became a leading force in the efforts to keep Radio City open when it was threatened with extinction due to financial problems several years ago; and

WHEREAS, a graduate of Saint Aloysius Elementary School, East Side High School and the Lippel School of Dance, Carol has been dancing since the age of 3, one of the highlights of her career being last year when she played a prominent role in a television movie about the Rockettes entitled, "Legs", which was aired nationally several months ago on one of the major television networks;

July 6, 1983

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and commend Carol Harbich for the joy and happiness she has brought by her talent and dance, to so many people throughout the years, thus reflecting great credit upon her hometown and in her honor the Municipal Council does declare July 6, 1983, to be "Carol Harbich Day" throughout the City of Newark.

BE IT FURTHER RESOLVED that a copy of this resolution suitably inscribed be presented to Carol in commemoration of this most auspicious occasion.

Councilman Martinez presented Ms. Carol Harbich with a suitably inscribed resolution on behalf of the Municipal Council.

Councilman Martinez said many times the good things done by people who reside in and who are a credit to that community go unnoticed. He said Ms. Harbich was recently in a television movie called "Leggs" which was about the famous Rockettes. He noted Ms. Harbich still resides in the East Ward and is a credit to the City of Newark.

Councilman Martinez said this presentation was a personal pleasure since he has known Ms. Harbich since she started in East Side High School. She was a bright student, personable, well mannered, pleasant, devoted to her family and respected in the community and in all the years he has known her, she has not changed. He noted he was very proud when he saw her on television and he noted that Ms. Harbich started her career with the Rockettes on July 5th.

Councilman Martinez then presented Ms. Harbich with a bouquet of roses on behalf of the members of the Henry Martinez Association.

Councilman Martinez also noted that Mayor Gibson has also presented Ms. Harbich with a proclamation and had also declared July 6th as "Carol Harbich Day" in the City of Newark.

Ms. Harbich thanked the Municipal Council for this presentation and said she was very proud to be a resident of Newark and of the Ironbound. She said although she was used to being in front of large audiences, it was always with 35 other girls.

A motion to adopt the resolution was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

President Grant read the following resolution:

WHEREAS, Walter H. Allen joined the news staff of Radio Station WBGO-FM as a reporter in 1979 and became Director of News and Public Affairs in 1982, with full responsibility for all of the station's local news and public service programs, as well as its provision of information about Newark to the National Public Radio Network; and

WHEREAS, Walter H. Allen has interviewed scores of local and national leaders in government, civil rights, politics, business and the arts, and has readily earned their confidence and respect for his professional ability, initiative and impartiality, and his keen insights into forces at work in Newark and other communities; and

WHEREAS, Walter H. Allen has devoted more consistent attention to the City of Newark than any other radio journalist in recent years, and his even-handed reporting has given countless listeners a fuller and more positive understanding of our City than might be derived from other electronic media, and he has become a vital link of communication between Newark's government and its citizens; and

WHEREAS, Walter H. Allen has won awards from the Associated Press Broadcasters and other organizations for his incisive broadcasts on Black music, toxic wastes and other timely topics, and he has also won a large, and growing audience among people who need and want honest accounts of life in our City today;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and commend Walter H. Allen, Director of News and Public Affairs for Radio Station WBGO-FM, for his longtime service to the greater Newark community through the electronic media, and does wish for him many more years of professional success in making all of us better informed about our City.

BE IT FURTHER RESOLVED that a copy of this resolution suitably inscribed be presented to Walter H. Allen in warm appreciation of his noteworthy contributions to his radio station, his profession and his community.

President Grant stated the profession that Mr. Allen has chosen, that of Broadcast Journalism, is representative of a tool that almost controls the lives of people. He is sure, given the history of journalistic amplification, they know how it has aided some in the past and how it has destroyed others. This Council admires the kind of broadcasting Mr. Allen has done, the professionalism attached thereto and the manner in which Mr. Allen meets the public on a constant every day basis.

President Grant presented Mr. Allen with a suitably inscribed resolution on behalf of the Municipal Council.

Mr. Allen said he was overwhelmed with this presentation. He said in his business there are four common principles of neutrality, integrity, fairness and propriety and he tries to live by those principles and for the most part he thinks he does. He said it is a pleasure to be working in Newark. It is a decent City and they have eradicated much of the criticism about it, but that there is more to do and they are all working towards that. He thanked the Members of the Municipal Council for this presentation.

RE: Cost of Fringe Benefits for Uniformed Police Employees

In response to your memo regarding 8f 062283 and 8g 062283 the following outlines the costs to be incurred by the City in 1984:

The 1983-84 agreement between the City of Newark and the Police Superior Officers Association provides for a \$100 annual increase per person in stress/shift pay commencing January 1, 1984. With 110 employees presently receiving this allowance the total increased cost in 1984 would be \$11,000.

The 1983-84 agreement with the Fraternal Order of Police provides for a \$150 per year per person stress/shift pay commencing January 1, 1984. Assuming 75% of all police officers are eligible for this benefit, the total annual cost in 1984 would be

$$75\% \times 870 \times \$150 = \$97,875$$

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY, queried if this ordinance meant the Golden Age Projects would be taken out of the hands of the U.C.C., if Reverend Porter was the Director of the Golden Age Project, and if several of the other ordinances on final reading were creating new positions.

Councilman Tucker responded this ordinance was for the position of the Director. This ordinance authorized that a certain amount of municipal monies were to be matched directly with HUD H.C.D.A. funds and also U.C.C. which are Community Development funds. This indicated that a portion of the Director's salary, \$20,000., would be paid by the City. Councilman Tucker also indicated that all of the ordinances on final did not create new positions.

Councilman Tucker reiterated that this created the position and the City would be paying part of that salary and the other portions would be paid by H.C.D.A. and the Community Development Block Grant funds from the State of New Jersey.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Newark, New Jersey 07102

Dear Mr. D'Ascensio:

RE: 6S & FD 062283

I have reviewed the above-cited Ordinance and have determined that its effects are not in the City's best interests and am, therefore, vetoing the same. My opposition to the Ordinance is based on several factors and they are offered below:

- 1) There has been no substantive criticism of the Authority's achievements in the area of redevelopment; in fact, the Authority's record of accomplishments during the past two decades has been notable, i. e.
- 2) This issue is not redevelopment activities, but services to housing residents. The Council's action is irrelevant to tenant services. From a managerial perspective, it makes little sense to have two separate entities responsible for the implementation of urban development activities; moreover, it is inefficient and counterproductive to bifurcate this essential task between two agencies, only one of which is directly under the City's administration.
- 3) In that regard, the Council's intention to transfer future development activities to the Community Development Administration may be ill-advised. The staff of that agency is operating at an effective level, in my view, and the introduction of new (and relatively sophisticated) responsibilities may have an unfavorable impact on the agency's productivity.

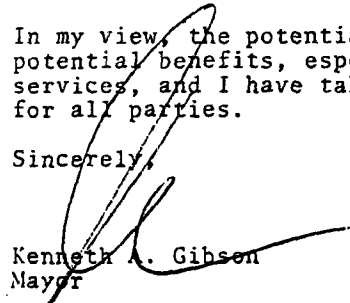

In the final analysis, three basic questions surface with regard to the Ordinance:

- 1) What is the rationale or justification to separate development activities from the Authority?
- 2) Will the change benefit or adversely affect the City?
- 3) Will the change benefit or adversely affect the Authority's tenants?

July 6, 1983

In my view, the potential adverse effects far outweigh the potential benefits, especially as they relate to tenant services, and I have taken the action which I think is best for all parties.

Sincerely,

Kenneth A. Gibson
Mayor

A motion to override the Mayor's veto of this ordinance was made by Councilman Tucker, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

The City Clerk: The Mayor's veto of this ordinance is overridden. This ordinance will be advertised according to law.

HEARINGS OF CITIZENS.

- 6-HC-a. MR. WILLIAM WALLACE, 789 SOUTH 18TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to Reaganomics and other aspects of government.
- 6-HC-b. MS. DENISE SKIDMORE, PRESIDENT, CLINTOWER DEVELOPMENT CORPORATION, 299 CLINTON AVENUE, NEWARK, NEW JERSEY.
- 6-HC-c. MS. NETTIE KELLER, SECRETARY, CLINTOWER DEVELOPMENT CORPORATION, 299 CLINTON AVENUE, NEWARK, NEW JERSEY.

The above speakers addressed the Municipal Council with respect to an article in the Newark Star Ledger on June 27, 1983 which quoted one of the Councilpersons as saying "299 Clinton Avenue" was an abandoned building. They said they were present to dispute that fact. They noted they had many problems and their struggle to keep this building going were great, but in no way had they abandoned it. It was also noted that the amount of \$2 million was not expended by the City on this building.

Councilman Carrino said it is a matter of record that the City of Newark spent \$2 million on Clinton Avenue and at that time it was a gesture of the City to try to save the building. He said his point is the City is not in the business of spending \$2 million to try to renovate them. It would have been better to relocate those tenants into decent, affordable housing. He said the point of the article referred to by the speakers was that the City should try to save as much housing as they possibly can, but if they are in a situation where it is going to cost the taxpayers \$2 million to keep a building operating he questioned if it was reasonable for the City to do this or whether the City should come up with a type of program to put up new housing. He said he would like to go on record that the City of Newark is not in a position to keep buildings open if they should not be opened. He said the City of Newark is not in the Real Estate business. They are in the business to try to provide decent housing for people to live in but not to keep something going that is a drain on the City.

Councilman Branch said he had been contacted by Ms. Skidmore who told him the City had made a commitment to fix the roof, the boiler and the elevators and also to take care of 32 apartments at "299 Clinton Avenue". He said if that was true then they should follow through on that commitment.

Councilman James commended Ms. Skidmore and the tenants of "299 Clinton Avenue" for their struggle in keeping this building going. He said it showed the citizens of Newark can work together and struggle for the common cause. He said with new mortgage money coming into the City and other kinds of incentives being offered to help individuals help themselves, he, along with other Members of the Council, would be available to see what help could be given to help the tenants continue to fight to stay at "299 Clinton Avenue". He noted once these tenants walk away from this building, it will further deteriorate and will become a white elephant on the part of the City. He said whatever the Council can do to assist these tenants, the City has an obligation to do that. He said there are too many abandoned buildings in the City of Newark and he did not want to see "299 Clinton Avenue" become another one.

6-HC-d.

MS. LAURA GRANT, 71 BALDWIN AVENUE, NEWARK, NEW JERSEY addressed the Municipal Council with reference to putting her cab into service. She said she had inherited her brother's cab, which was a 1977 car. When the cab became inoperable she purchased a 1978 car. Before doing so she called the taxicab division and was advised that if she was already in business you can purchase a 1978, but if you are not in business then a 1979 car must be purchased. She visited the Taxicab Division and was told by Mr. Coons to put the cab into shape, bring it back and he would inspect it. After doing so Ms. Grant was advised by Mr. Coons that he could not inspect the cab or do anything for her. She said the cab has been in her garage for two months and it is a means of livelihood for herself and two other employees. She asked Council's help on this matter.

President Grant advised Ms. Grant that a representative from the Taxicab Division would be present on this matter.

Councilman Tucker said the question is do they want to raise the year. He said Ms. Grant has a taxicab and leases that cab. If she were a owner-operator she would be able to maintain the same taxicab, no matter what the year is. When she leases the cab she comes under that year the Council has adopted, by ordinance, to say that you can no longer hold a cab and have that cab operative. A few years ago there was an ordinance that said the maximum amount of years a cab could go on the road was four years. This Council amended that ordinance and said the maximum amount was five years. In Ms. Grant's case the only resolution they can deal with is to have the Council change that ordinance, but they should be mindful that if they change that ordinance, they are talking about all cabs in the City. He said because she leases her cab she comes under a fleet owner and not a owner-operator, therefore, the age of the cab cannot be more than five years old prior to bringing that cab on board. The age of the cab is calendar years.

Councilman Rice what the difference is in Fleet operator and owner-operator.

Councilman Tucker said owner-operator means you own and drive the cab. There is an ordinance that states if you are an owner-operator you are not covered by the age of the cab. The problem is that Ms. Grant leases the cab to members of her family.

Councilman James said he and Ms. Grant had visited the Taxi office relative to this question and spoke with Director Tuff and two inspectors from that office. He explained the problems that existed and the unique circumstances in her particular case and therefore she was not knowledgeable of all the ordinances. He said Director Tuff agreed that due to circumstances that were brought to his attention that he would license her. When this information reached the Office of the Business Administrator, he was informed by Director Tuff, that he was ordered by the Business Administrator not to allow this exception in concert with the remarks of Councilman Tucker, that Mr. Tuff had to be uniformly in agreement with all the cabs and not bend the law for Ms. Grant. He said he feels the City of Newark ought to be big enough and understand the unique circumstances in which Ms. Grant became owner of the cab, allow her to continue to operate it until she would have to purchase a new vehicle, then subject her to the existing ordinance. He said he feels that they have once again in the City of Newark treated a situation that was handled and now they are making a big issue out of it. He said it is an embarrassing situation. He said the City is now reversing the commitment they gave Ms. Grant.

Ms. Grant showed President Grant the license that was issued to her.

Councilman Branch said he feels that there should be some alternative to help Ms. Grant.

President Grant requested that Mr. Coons, a representative of the Taxicab Division, approach the podium.

Councilman Tucker asked Mr. Coons if Ms. Grant was an owner-operator or a fleet-owner.

Mr. Coons replied Ms. Grant was an owner-operator.

Councilman Tucker queried why the age of the cab would make any difference.

Mr. Coons said the cab was not a cab. You are allowed to put a cab on if it is already a cab, otherwise, you can change the numbers of a cab if it is a '78, '77, '76 as long as it is a cab already you can change the number, you can move it from one number to another. In Ms. Grant's case, it was explained to me it was a cab. After he had told her to bring the papers down, he was informed that she had already been advised that the '78, she had not purchased the car at that time. She was told not to purchase the vehicle. He is just saying what he was told. She was told not to purchase that vehicle because it was not a cab. When he spoke to Ms. Grant, he understood her to tell him, that it was a cab and he told her if it was a cab they could help her. He said he told her to bring her papers in and they will inspect the papers and give it to anyone in the office. When personnel came to the office, he informed them of the situation and they told him they had already informed Ms. Grant not to buy that car, because the ordinance stated the car must be less than 42 months old. At the time the car was older. It was in June. Ms. Grant purchased the car anyway and set it up as a cab. This is where the conflict arises because there are so many others who have '78's and want to put them on. In order for Ms. Grant to get it on, the Council would have to act on it. This applies to anyone to put one on. After it is on and you are owner-operator you can keep it on longer than a fleet owner.

Ms. Grant said she understood from the person she spoke to in the Taxicab Division that if you already had a cab, and she had a 1977 cab, so she figured she had a cab, she could go ahead and get the 1978. She said Mr. Coons told her to go ahead and fix it.

President Grant suggested that Ms. Grant meet with Mr. Coons and a representative from the Mayor's Office immediately sit with the Business Administrator and try to resolve this matter.

Councilman Tucker said the existing ordinance does not allow Ms. Grant to put that cab on the road. He questioned if they could establish within the body of the ordinance the issue of waiving the year for the owner-operator and not deal with that in regard to the fleet-owner. The Council has established the fact that owner-operators can keep their cars for unlimited periods of time based on the way the car looks and the ability of the car to pass inspection. He questioned if they can have a minimum or maximum year requirement on age for fleet-owners and have the ability to waive that amount for owner operators since they have already created the ordinance that permits giving special consideration on operators.

Councilman James said Ms. Grant is a responsible citizen, an entrepreneur, a taxpayer, a long time resident. He said the intent is to help this person. She has a cab that is one year out of line with the current ordinance. He wanted to know what everyone can do to assist Ms. Grant and have her cab become operative.

Councilman Tucker said they should look at the feasibility of changing the ordinance which would make it easier for her to get the vehicle on the road. They can change the ordinance. He said the problem is not with the owner-operators, it is with the Fleets in regard to the year. He requested that the Law Department draft an amendment to the existing ordinance which would in effect exempt the owner operators from that prior year's situation and legally do that without affecting the fleet-owners, then he did not think they would have a problem.

Councilman James suggested it would be better just to have that the Council has the right to grant a waiver in particular cases.

July 6, 1983

11

Councilman Tucker said the fleet owners would come in and make it apply. He said he really thinks that if they change the ordinance to exempt the owner-operators they can have a decision on this matter where Ms. Grant can, in effect, function sometime in September and it would probably stand up in Court. If the Council wants to do a waiver they would have to change the ordinance, because the ordinance does not permit a waiver. He suggested they meet with the Law Department.

Councilman James suggested they direct the Law Department to explore these two possibilities and report back to the Council as quickly as possible in legal form for action by the Council at their next meeting.

Councilman Rice said he would raise an eyebrow to this Council creating legislation and not enforcing it or creating flexibility impact on individual where the detriment comes from the majority. He would hope that they would investigate and viewing alternatives and possibilities, they, not only look at the law, within itself but to take a look at the impact of the industry whether it is owner-operator or fleet and see whether or not change of law would help an individual or a minority of individuals and will we still have the detriment come from the majority. They need an investigation of the total impact on the City of Newark and its residents because then they will get a truer answer whether a waiver is better than changing the law itself.

President Grant directed the City Clerk to communicate with the Corporation Counsel directing him to explore the feasibility of establishing within the body of the existing ordinance the issue of waiving the year for the owner-operator and not deal with that in regard to the fleet-owner.

MS. DELORES RICH, 4 LEXINGTON STREET, NEWARK, NEW JERSEY
MS. NANCY ZAK, 48 READ STREET, NEWARK, NEW JERSEY

The above citizens addressed the Municipal Council with respect to developing an ordinance that would require window guards on all apartment buildings. Ms. Zak mentioned she was in contact with New York City, where there is a law on the book, and the cost for these window guards is approximately \$10.00.

Councilman Rice said the fact that anything that you do legislatively to create mandates to cause someone to expend money you have to expect people to be back here telling Council why they should keep rents down. He said he was concerned with the fact that these window guards would have to be the kind of mechanism to allow small children and senior citizens to exit the building in case of fire. He said however that the market in high technology has advanced to such a degree that they would be able to deal with both.

Councilman Carrino questioned the cost of these.

President Grant stated this could not be a \$10.00 item if it is a guard that goes from top to bottom.

Councilman Carrino suggested that Ms. Zak contact the Department of Health, with whom she spoke, and requested that this figure be submitted in writing.

Councilman Martinez said this is a result of a serious tragedy that happened at the River Park Apartments where a 2 year old child went through the screen. He had an inspector go down there where he found there was a 40 inch window which is pretty high, but apparently there was a bed and the child rolled off the bed and out the window. He contacted Director Zach's office to see what kind of safeguards could be put on windows so this kind of incident could not happen and Director Zach is at present developing such an ordinance.

Councilman James said we should secure a copy of the ordinance from New York City and also their Building Department the actual installation requirements they would suggest. He said if they were really concerned it would mean all public housing in the City of Newark also all City-owned property. He would hope they would explore this in its total scope. He suggested that at a future pre-meeting conference they would have the necessary information and legislation before them in order to make an intelligent decision.

The above citizens addressed the Municipal Council with respect to the Dioxin situation in the Ironbound section of Newark. They expressed concern with the manner the State has been handling this matter. They said there was a need for further health examinations by trained medical personnel. They expressed dissatisfaction with the way the State and Federal Governments have handled the situation. At a meeting with Councilman Martinez they presented several matters they would like to see resolved. They asked the Council to join with the community in requesting the State act seriously in this matter. They also asked Council to join with them on July 26th in Jersey City with reference to another matter of hazardous waste when a decision will be made where to put new hazardous waste. They said Newark has more than its share and needs no more.

Councilman Martinez said he had met with the Community Organization, the Ironbound Residents Against Toxic Waste and other interested parties. He noted the requests were not out of order. A request was made for F.D.R. and Hyatt but they also decided to use a boundary of Mott Street to Blanchard and from Rome Street to the Passaic River which would include areas that could be contaminated. He said on Thursday he was meeting with State Officials including the Governor on this and other issues and will bring all the information given to him and he would hope all these items could be addressed.

Councilman Payne said the entire question of dioxin has been taken too lightly. He said this is a very serious situation. He has gathered information from various cities where this problem has occurred. He said they have a responsibility in New Jersey to treat this site in Newark in a special manner. The people in the Ironbound section should and will have the total support of the Council. He said health examinations cannot be conducted just once. They must be continued on for at least a decade to see if they are effective or not. He said the group will have his continued support.

A motion to permit Ms. Arlene Henry to speak under Hearings of Citizens was made by Councilman James, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Rice, seconded by Councilman Branch.

Councilman Branch said a better check had to be kept on buildings scheduled to be demolished. He noted this building was almost lost to demolition when a prospective buyer was found.

Councilman Rice said this building is located in his ward and has been vacant and open for a long time. He said it should be the business of Administration to see that buildings of sound structure are bricked in. He noted he had pushed hard to have this building demolished. He said he would not tolerate any building open in his Ward for any period of time.

Councilman Payne suggested, through the Chair, that the City Clerk communicate with the Business Administrator requesting a list of buildings that are scheduled for demolition whether it is by the City or a private contractor. He said in the past there have been structures demolished that should not have been. He noted in the future he would like to look at what is being demolished because they might be surprised at what is coming down.

A motion to adopt the resolution and directing the City Clerk to communicate with the Business Administrator requesting that the Council be supplied with a list of buildings to be demolished prior to the actual work being performed was made by Councilman Rice, seconded by Councilman Branch and declared adopted by President Grant by the following votes:

City Clerk D'Ascensio advised the Council he had received a note from Assistant Corporation Counsel Pidgeon in which he states that he would not sign this resolution and he would send a memo explaining his reasons among which are the lack of the appraisal and the Real Estate Commission policy against selling individual parcels within redevelopment areas.

President Grant said it was not a matter of not having an appraisal. This resolution is to advertise for bids. They can still have an appraisal done.

PURSUANT TO TITLE 2, CHAPTER 5, SECTION 11, OF THE REVISED ORDINANCES OF THE CITY OF
NEWARK, NEW JERSEY, 1966, AS AMENDED AND SUPPLEMENTED.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Tucker, seconded by Councilman Martinez.

Councilman Tucker said most of the Council received copies of the number of foreclosed properties that we have that we will be in receipt of. He said the Council had consistently raised with the City Administration that they should get someone to look at that property separate and apart from Real Property Staff. This resolution authorizes solicitation of bids to hire appraisers who will look at these properties so they will get a complete printout of what property they may be in receipt of in the City of Newark. Not from Real Property Staff but from a licensed appraiser.

Councilman Payne questioned if this would be a duplication of service. He agreed that an outside appraiser should do it but he would be reluctant to vote for an outside appraiser if it was going to also be done in-house.

Councilman Tucker said in most instances where Real Property does an appraisal, it is when they are ready to sell the property. In most instances when the City gets these properties nobody ever looks at them until after the foreclosure date. These appraisers will look at the building, give an appraisal whether the building is salvageable or non-salvageable, the number of tenants currently in the building and the rents. Real Property never performed an appraisal to that degree.

President Grant requested Mr. Sly from the Business Administrator's Office to approach the podium.

Councilman Rice wanted a clarification if the person who would make the appraisal in terms of the building's worth would also inspect the building for violations and other factors and bring back a total package. If that is what is being done, then the language would have to be changed.

Councilman Tucker said all they would do is look at the property that the City will be in receipt of in September.

Mr. Sly said when the property foreclosure notices are issued in September that is not a Real Property function. That is a function of the Tax Office who allows the people, up to 90 days, to come back and redeem their properties. That affords the owner a chance to pay the tax bill. Real Property does not get into that issue until that property is turned over to them after December 31st. The Tax Office is the office that goes out and does the assessment.

Councilman Rice questioned if the person was appraising the building for its worth or conditions. He said this issue was not clear to him.

Councilman Tucker said the synopsis embodied in this package pinpointed what they were going to do.

Councilman Payne said he would feel reluctant to take a position on this without knowing more about the question. He questioned if it could be deferred. He said it was very helpful that someone from Administration was there to explain this and suggested that in the future if there is someone from Administration in the audience with some clarification on the matter, that they not be reluctant to do this.

Councilman Tucker said they have urged that they hire appraisers during that period of time. He said his concern is that during that period of time Real Property should start working on it. The Council should have the assessment of those properties and the earlier they have them and the conditions that they are in would certify to a better degree what conditions they are in and put the City in a better position to figure out what they intend to do. He requested the City Clerk read into the record what the appraiser would do.

City Clerk D'Ascensio read the following excerpt:

1. Purpose: The City, through the Office of Real Property (ORP) seeks to have specific properties inspected as to their use and condition, with written reports and current photographs to be submitted as outlined in these specifications.

2. Services to be Provided:

The successful Bidder shall be required to perform a site inspection of each property included within the scope of this contract. During the course of such inspection, the Bidder shall view the exterior of all structures from the front, rear and all sides, and shall view all interior spaces which are normally accessible to the general public, including but not limited to hallways, stairways, lobbies, laundry and other common areas, as well as retail and similar commercial spaces.

Based on such inspection, the Bidder shall submit a report on the use and condition of the property, signed in ink by the individual who conducts the inspection, in the form included in Exhibit I of these specifications. In completing that report, the Bidder shall clearly indicate, in ink, all applicable information required for sections I (Identification), II (General Property), III (General Exterior), IV (Size) and V (Structural Integrity). The Bidder need not complete Section VI (Value), VII (Lease Information) and VIII (Sale Information).

In addition to that written report, the Bidder shall also be required to furnish a black and white photograph, not smaller than 8" x 10", of each property, taken so as to provide a full view of the entire front of the primary structure and as much of that side of the primary structure which is in the poorest physical condition. The photograph should be dated and signed in ink by the photographer indicating the date on which the photograph was taken.

Councilman Rice said this matter needs to be discussed further. If you are talking about an inspection of property that is still in the Tax Assessor's hands prior to Real Property taking over, then you are talking about a reinspection. If you are talking about an appraisal, that is only good for a certain period of time. From information he has heard from the Corporation Counsel, it was clearly indicated that legally after a certain period of time, the property would have to be reappraised.

President Grant said he did not know if the inspection of the property was that important. He said the City of Newark owns in excess of 5 to 6 thousand properties

including vacant lots. When a building is vacated and the City takes it over, an inspector does not go out and secure that building. To inspect the building in August 1983 and say it is in decent, livable conditions and then not advertise that building for sale until 1985 is ridiculous and ludicrous. If they are going to inspect the building today, determine that it is City-owned property and put it up for sale so it can be put back on the tax rolls, that is one thing. If not, it might be worth \$50,000. today, but two years later when the City is ready to sell it, it might not be worth \$2.00.

Councilman Tucker said the issue they are talking about is when you get the information on the property and how you can effectively utilize it. If you get that information in September, you are in a position to say "Is it worthwhile to maintain that building from September through December and expend city funds?" and you are having a professional tell you if it is worthwhile to do that. The issue is what Real Property does in September through December. He said they should at least know once they get the property if it is worth anything and then Real Property should be able to say what it is worth or whether it should be boarded up. Real Property does not do that.

Councilman Rice reiterated that it needed more discussion.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Tucker, Villani, President Grant.

President Grant said they would meet with Administration and suggested she contact his office.

Councilman Rice said it is not for this Council to waive anything because the ordinance does not allow a waiver. He said the Council could create new legislation, but he did not want Ms. Grant to leave with the impression that this Council could do something immediately without changing the law.

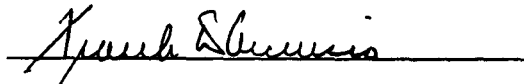

President Grant said this body is the Governing Body of the City. He said they can do whatever they feel is in the best interest of the residents of this City whether the Law Department approves of it or not. He questioned Director Zach about the process to which he replied there were five or six different criteria. He will go along with this resolution but he reiterated that there has been a disproportionate

amount of demolition in the South Ward.

City Clerk D'Ascensio pointed out that a letter was sent out pursuant to the directions of the Council, requesting that Council be notified of what buildings are going to be demolished prior to legislation being submitted.

A special meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 12:10 P.M.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

President Grant stated, "In accordance with New Jersey P. L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail, the Newark Star Ledger and Elizabeth Daily Journal, by posting on the designated bulletin board in the basement of City Hall and by filing in the Office of the City Clerk on December 1, 1982, the schedule of regular meetings and conferences of the Newark Municipal Council.

In addition, the notices of this meeting were similarly disseminated on July 8, 1983 and July 15, 1983, at the time of preparation. All persons who prepaid for advance notices of meetings also received copies of the schedule and agenda as required by law.

The City Clerk read letter dated July 8, 1983, from Hon. Ralph T. Grant, Jr., President of the Municipal Council, calling a special meeting of the Municipal Council for Tuesday, July 19, 1983, at 10:00 A.M., or as soon thereafter as Council can convene to consider the following legislation:

Ordinance establishing an annual allowance in lieu of expenses for Members of the Municipal Council of the City of Newark, New Jersey.
(6-Ph, S & F-i deferred July 6, 1983)

Ordinance to amend an ordinance entitled, "An ordinance creating positions in the Office of the Newark Municipal Council and establishing salaries therefor," (6-S & F-f) adopted May 4, 1977 as amended and supplemented. (To adjust salaries for President of the Municipal Council and Councilman)
(6-Ph, S & F-j deferred July 6, 1983)

The City Clerk read letter dated July 15, 1983, from Hon. Ralph T. Grant, Jr., President of the Municipal Council, adding the following legislation to the special meeting scheduled for July 19, 1983:

Resolution authorizing Director of Finance to refund \$750. on deposit to Committee to Re-elect Eugene H. Thompson, P. O. Box 1345, Newark, New Jersey, required by Ordinance 6-S & F-i, dated February 18, 1981, as amended.
(Ordinance regulating the posting of political campaign signs)

ORDINANCES ON SECOND READING AND FINAL PASSAGE.

President Grant called for ordinances on second reading and final passage.

6-S & F-a.(S-1)

The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing held thereon. It is now before you on second reading and final passage:

ORDINANCE ESTABLISHING AN ANNUAL ALLOWANCE IN LIEU OF EXPENSES FOR MEMBERS OF THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY.
(Copy of ordinance submitted to each Member of the Council)
(Public Hearing Closed)

A motion to defer action on the ordinance was made by Councilman Tucker, seconded by Councilwoman Villani.

Councilman James stated he would like to make an amendment to Councilman Tucker's motion, with his permission, in view of the fact several citizens have indicated they wished to speak at this time. His motion, prior to Councilman Tucker's motion, would be to vote on reconsideration of the motion to close the public hearing which then would allow the citizens an opportunity to be heard.

Councilman Tucker said there would be no problem withdrawing his motion so at least Councilman James could make his motion to allow the citizens to speak.

July 19, 1983 #1

July 19, 1983

President Grant declared that Councilman Tucker had withdrawn his motion at this time and Councilwoman Villani withdrew her second to the motion.

A motion to reconsider action on this ordinance and to open the public hearing for same was made by Councilman James, seconded by Councilman Rice.

Councilman Tucker said he did not believe, in any way whatsoever that an opening of a public hearing on a matter at this point which has not been totally decided by the Council is going to make a tremendous amount of difference. He knows they had a public hearing at the last meeting. People were allowed the opportunity to speak. He said at that time the determination of the Council was four persons in favor of the motion, two who abstained and the balance voted No. He said the Council must make a decision and he did not believe it would make a difference whether the citizens participate and again reaffirm the fact they want to make their opinions known is not going to make a tremendous amount of difference. He said he felt the citizens had adequate opportunity to speak. He said he did not believe there is a difference in regard to the opinion of the Council. He questioned to what degree would the citizens' input make a difference at this point since they already had input at the last meeting.

Councilman Branch said if the Council is going to be consistent in what they do, they are going to have to stick to what they are doing. He said sometimes there are exceptions, but how many times can you continue to make exceptions when you have your constitution and by-laws to be guided by. He said he has no problems with people speaking but if you do it today, then you'll have to do it again. You can't just do it for one and not do it for another. A decision will have to be made and this Council will have to stand by that decision.

President Grant stated for the record at the last public meeting there were two opportunities presented to the public where they could have been heard. One was when the ordinance was introduced and the other was under Hearings of Citizens. At that time many persons addressed this body. While it is the policy of the Council to follow Roberts' Rules of Order Parliamentary Procedures, it does permit a Member of the Governing Body to request that something be reopened. Councilman Tucker has withdrawn his motion for deferment and Councilman James has made a motion and it has been seconded.

President Grant asked for a roll call.

The motion to reconsider action on this ordinance and to open the public hearing was declared adopted by President Grant by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Rice.

No: Councilman Branch.

Not Voting: Councilmen Tucker, Villani, President Grant.

A motion to open the public hearing on the question of pay raises allowing the citizens to speak at this time was made by Councilman James, seconded by Councilman Rice.

Councilman Carrino questioned since the public hearing was going to be opened and Councilman Tucker had asked for the ordinance to be deferred, couldn't the restriction be removed but not have the public hearing until such time as discussion would be held. He said it has already been established that there is a move to defer these two ordinances. He said the public hearing should be held when these ordinances come up.

Councilman Payne said the public hearing should be held at the time the ordinance will be heard. He said he felt the ordinance should be voted up or down at one time and the Council should get on with the other business of the City. He stated continual deferments is not in the best interest of moving on with the government of the City.

City Clerk D'Ascensio stated that a date for holding the public hearing should be stipulated to provide for the advertising so that the public at large would be aware of it rather than only those present in the Chamber.

President Grant said this would afford the entire public another opportunity, in fact, they do not have to write in, they can just appear on any public ordinance as opposed to Hearings of Citizens. He said the motion has been carried and the suggestion by Councilman Payne is in order. Councilman Tucker earlier moved to defer the matter which in his opinion would have eliminated the necessity at this point for public speaking. He asked if there was a subsequent motion.

Councilman Tucker stated that Councilman James' motion was to allow the people here today to speak as the item is before the Council at this time.

Councilman Rice said he believes strongly in the First Amendment and that inherent in that right is the opportunity to be heard. He said he did not know what was reasonable or what was not reasonable. He would assume that perhaps an extension of that right to try to determine a reasonableness that would possibly allow at least some if not all of the speakers today, an additional opportunity to come before this body.

President Grant stated there appeared to be seven people in the audience who wished to be heard. He said he would entertain a motion for the limiting of the number of speakers.

Councilman James said his motion is on the floor and he would accept the amendment being posed by the Council President. He said his original motion which is on the floor, which was seconded by Councilman Rice, is to allow citizens to speak. He said he would accept the amendment of the Council President that it be limited to seven hands that were made visible.

A motion to open the public hearing on the question of pay raises and allow seven citizens to speak was made by Councilman James, seconded by Councilman Rice.

Councilman Tucker said the ordinance is currently on public hearing. He said whoever wants to speak should be permitted to speak. He noted that under existing statutes and existing ordinances once that public hearing has been opened the people should be given the opportunity to speak. He said they have voted to let the people speak and the number cannot be limited.

Councilman Carrino said he concurred with Councilman Tucker. Since the vote was to open the public hearing everyone should be permitted to speak.

The motion to open the public hearing was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Villani.

No: Councilman Tucker.

Not Voting: President Grant.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. D. J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY said he did not appear before this Council with any hope of influencing the decision of the Council as it was evident that the Council intends to approve this ordinance regardless of any protest by the citizens. He said to propose this ordinance at this time is irresponsible behavior and the manner in which it has been presented is at best devious, not to say reprehensible. He stated Newark citizens are losing confidence in the Administrative branch of their Government and by passage of this ordinance the Council would move to destroy their respect for the Legislative branch and their confidence in this Council.

MR. JEFF DYKES, 275 SCHLEY STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the fact that Council was proposing a raise when they had received one in 1979. He further stated that he felt the proposed salary increase should be used for other needs.

President Grant said there are nine members on this Body. He said it is true in the record that the Council received its last raise in the year 1979. He thinks to some extent it has been erroneously reported in the news media that the Council is heaping upon itself a hefty 20% or 27% raise. He said what the Council has actually proposed at this time is a 5% per year raise, not a 20% all at one time. It does amount to 20% but it is a 5% raise.

MR. ISAAC MUHAMMAD, 665 SOUTH 15TH STREET, NEWARK, NEW JERSEY, expressed his opposition to the pay increases for the Municipal Council. He said he was appealing to the Members of the Council today, on behalf of the People United in the Public Interest, the Isaac Muhammad Civic Association, to vote "No" on the salary increases.

President Grant directed that an excerpt of Mr. Muhammad's remarks be forwarded to each Member of the Council.

July 6, 1983

MR. ALLEN KING, 47 QUITMAN STREET, NEWARK, NEW JERSEY, said he was present today to inform the Council that the citizens of Newark are against the salary increases considering the conditions of Newark. He questioned the freshmen Councilmen getting a 20% increase. He further stated that Council needs to revamp their ideas, take into consideration the entire problems the citizens are facing and use good judgement.

Councilman Carrino questioned the City Clerk if a pay increase was voted on for a 5% retroactive to 1979 would all nine Council Members presently sitting receive that pay increase.

City Clerk D'Ascensio stated the ordinance presently provides for this salary to be paid as of January 1, 1983.

Councilman Carrino queried if the all of the nine present Council Members would receive the same increase back to 1979 or would the Councilmen elected in 1982 only get an increase back to 1982.

City Clerk D'Ascensio responded they would get the salary in force and effect at the time any ordinance affecting their salaries would be adopted.

Councilman Carrino said for clarification the three freshmen Councilmen would not get the 5% for '79, '80 or '81. He said that would be totally illegal for somebody who was not a Councilman to get a raise back before they were a Councilman. Even though the ordinance says retroactive 5% to 1979, the Councilmen who were elected in 1982 would not get that 5% a year back to 1979.

Councilman Rice stated for the record because when the press prints they print what they hear. When you say freshman you are stereotyping people. He wants to make it clear that you check the records again because he gets offended because he is a person. He said if they are going to single out folks in one respect then they should think about doing it in other respects too. He does not like being stereotyped. He does not mind pressure, good press or bad press but he does not like being stereotyped.

Mr. King suggested that the Council entertain a resolution calling for a 5% increase for the upcoming year of 1984 and leave the expense area as is. This gesture would express to the citizens of Newark that the Council is sensitive, caring and understanding and concerned with their problems.

MS. WILA MC CLAIN, 77 TILLINGHAUST STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the tax burden the salary increases would impose on the taxpayers.

MR. SHAHID WATSON, 644 SOUTH 10TH STREET, NEWARK, NEW JERSEY, said he understands everybody has to make a living. He said the time has come for the Council to play their roles as leaders in this community. He asked the Council to vote "no" on the pay increases. He asked the Members to come out into the community and see their problems. Mr. Watson questioned if the position of Councilman was a full time job.

President Grant replied the Councilman's job of the City of Newark is full time as ordained by this Council in the year 1978.

Mr. Watson further stated that some of the Council Members have two full-time jobs and he said if they want pay increases they must be there working only one job and that is representing the people of Newark.

Councilman Branch said he wanted to make it emphatically clear that according to the ordinance the Councilman's position is full time when required. He said he would not give up his job for this Council seat. He said they must have respect for each other and there is no guarantee four years from now you will vote for him whether he does good or bad. He gave 30 years, he has been active in the Central Ward and he worked for everybody. He said anyone can come and see him without an appointment. He said everybody is entitled to a 5% increase. He said he is not asking for any raise but just stating his position as a Councilman. He said no one on this Council should be saddled with the massive problems that exist. He queried how much all of them were doing to try to help make it different in the City other than criticizing. He said they have a right to do that but they also have a right to offer something sometime. He said he has never turned his back on anyone.

MR. RICHARD CAMMARIERI, 85 FOREST HILL PARKWAY, NEWARK, NEW JERSEY, said he did not have a knee jerk reaction against pay raises. He said he knows what it is like to work long, hard hours for not enough money. He said most of the Council people put in long, hard hours and are committed to serving the people. He said he felt the 5% increase was no problem, but the retroactive element did pose a problem for many people. He thought it was a mistake politically, fiscally and most importantly symbolically to the people of Newark and he urged very strongly that the Council reconsider the retroactive question. He spoke on the possibility of making the position of Councilman genuinely full time.

Councilman Rice said this is not a statement, pro or con, on outside employment. He said in 1978 he was one of those who said the Council position should be full time because there are full time problems. He said they need to understand what that means. The person in this position needs to put in hours in City Hall and hours in the community and they go far beyond. What a person does with their personal life, to a degree, which is reasonable, legal and ethical should not concern the citizens per se. What should concern the citizens is whether or not the Council is properly serving them. When they speak of 40 hours they should at least look at flexibility also. The demands of the citizens should be services and that is what this Council is mandated to give the citizens.

MS. HILDA JORDAN, 260 WARREN STREET, NEWARK, NEW JERSEY, said she was a District Leader in the Central Ward, 17th District. She asked Council to defer the pay raises and put the money into City Welfare. She said there should be a performance evaluation.

Councilman James said he had not planned to say much on this issue and the record will indicate he has not responded to any citizen. He said he recognized the question of pay raises has always been a matter of concern and quite often controversial part of the Council. He has served on the Council since 1970 when the salary was \$12,000., they had one aide, a common room and no secretary and he has witnessed many changes. The only reason he is responding now is that several Council members have attempted to say that he is responsible for various citizens appearing here today. It was stated to some of the people demonstrating here today, stated behind closed doors in the conference room today. Contrary to what is being said he did not bring Mr. D. J. Henderson, Mr. Cammarieri, Mr. King, Dr. Donato, Mr. Rutan, Mr. Muhammad, Ms. Poch and Ms. Jordan. He said he appreciated the vote of confidence in his organizational ability and skill, but unfortunately it is praise he does not deserve today.

Councilman James stated for the record why these people might be here today. First of all the salary being proposed is 20% for all Council Members. There is no discrepancy on whether they were here in 1980, '81, '82, or '83. The ordinance before them calls for a salary for all Council Members. The only difference is in the Office of the President which they have historically felt deserved more because of the time and hours and responsibilities that office carries which he wholeheartedly supports. He said one reason the citizens might be here that this Council has said that employees of the City of Newark should receive 5% for all the pay raises that have come before them and they have stated there should be no retroactive feature. Although we use retroactive in our 20% it is not part of the ordinance, it is implied but not carried out. If, as granted today and they continue to state philosophically that it is retroactive to 1980, it means that Councilmen Rice, Branch and Payne, who were not here in 1980, would be receiving raises for years they had not served on the Council and some members have stated that. They might be here because the measure was introduced at 2 A.M. in the morning as an "added starter" when many of the citizens had gone home or because when it was voted down at a day meeting, thereafter, when the citizens left again this questionable piece of legislation was brought back, the public hearing was closed and there is now a special meeting today. He said even this morning it would stand to reason if they had a 10 A.M. meeting and a 12 P.M. meeting they would have convened the 10 A.M. meeting prior to the 12 P.M. meeting, once again allowing discussion of this matter at their pre meeting conference. He said the citizens might be here because Ms. Barbara Kukla and Mr. Ken Woody have written extensively on the question of the pay raises and he appreciates those giving him credit for being able to control the "Star Ledger" because he has been trying for 13 years and has failed. He said WNJR had hosted a talk show about the raises and someone had warned him that he should be fearful because they are "coming after you." He said maybe the citizens are here because as Councilman Martinez informed him, the citizens have received a 15% increase in their property tax and under those conditions some citizens might feel a pay raise at this time might be inappropriate. He said he is not sure why the citizens are here, but he thinks for them to continue to believe the citizens of Newark are dumb. do not read, do not listen to the media, are not intelligent enough to know what is going on and do not follow issues. He said it is insulting to them as Council

July 19, 1983

Members and insulting to the community. He said as they continue to say that their community is ill informed, then who do they represent. He stated for the record why he has been historically opposed to the pay raises. It is for none of those reasons. It is for reasons no one has ever asked him. He said he has never embraced the philosophy that individuals might not have two jobs and still perform. In America today people have two jobs in order to survive. Because you do not have another job is no indication you are doing one job. He has seen Councilpersons put 100 hours a week in Newark City Hall and they are not here today. He has seen others who have other careers put more hours in and do the job and they are here today. There is no guarantee because you devote full time to a job that you are doing a job. He is not of the opinion that with the way the economy is today that individuals cannot serve the public in two positions. He said the day they say they do not want other individuals who are successful in public life and have other careers not to serve on the City Council would be an injustice to the City of Newark. He would not want them to say that no Doctor, Lawyer, Administrator, Entrepreneur should not serve on the City Council. If they truthfully believe in that philosophy they would be here for a 50 or 60% raise, because then this job would have to pay for individuals who are qualified and competent so they do not have to accept or hold any other position. He said when he came on this Council the salary was \$12,000. and he was making more than that as a school teacher in the City of Newark. If he was able to do both and still perform in the best interest of the public that should be their concern.

Councilman James continued that the reason he has opposed pay raises is that when he decided to run in 1970 and to seek re-election, he knew the salary of the position. No one said you must be a Councilman. No one put a gun to his head to make him run. He knew what the salary was and the awesome responsibilities of the office and he decided to seek that office and he continues to accept that for the term of his office.

Councilwoman Villani said some are for the raises and some are not. She said she had her secretary make a spot check of other urban cities around the country. The following was the information she received. Councilmen in the following areas receive - Detroit-\$40,000., Philadelphia- \$40,000. in 1984, Chicago - almost \$30,000. part time and in New York the salary will be going to \$47,000. She said this tells them that they need good, hardworking people to sit on this Council and solve the problems. She said all they are asking for is a 5% increase, but when it comes to Council Members for some reason the citizens feel they are not deserving. She said in taking a cross section of the country they are average with other urban cities.

MR. RICKY FLOWERS, 356 MADISON AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council in opposition to the pay increases.

No one else appearing a motion to close the hearing and defer action on the ordinance was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker said he wanted to respond to the public. He said some people raised questions about campaign promises. The best way he can respond is to indicate that when he first sought political office in the City of Newark it was in 1966. Some of the younger people may not understand what took place at that point in time, but it was at the behest of the black people of the City of Newark saying they would like to get more representation within Newark Municipal Government and part of that process was that a convention was called. It was called the Black and Puerto Rican Convention. He said one of the planks at that convention was they wanted people to run for office, but it was also a basic plan of action for people once they get into office. He said one of the planks that existed then indicated that the people they were going to support at that time would serve full time. That was in 1966. He said he would send copies of that to anyone who wanted it. He said he took an oath of office not to the City of Newark but to the people of the City of Newark at that time. He was not successful in being elected in 1966, but he committed himself to deal with the value system that existed at that time. In 1979 there was a reaffirmation of the Black and Puerto Rican convention and they should look at the platform of that convention which was a reaffirmation of 1966 which indicated they wanted elected officials to serve full time. In 1970 he was not elected, but some of the members of the community choice team were. In 1974 he was elected Councilman-At-Large and the basic premise of serving people

full time from his standpoint was adopted by him and is a philosophy he truthfully believes in. When he says full time he is not talking about 9 A.M. to 5 P.M. He believes if you are going to serve and be in a position to change policy within this City you have to be here full time and not basically have other outside employment. If you look at the Council that was elected in 1970, you will notice the Council played a major role. Whether they politically agreed with the Council in 1970, you have to deal with the way the Council functioned in 1970 and you will note that how it functioned in 1970 they had the time to research. They put forth a tremendous amount of effort in fighting the Mayor over basic concerns they felt were important and that citizens felt were important. If you look at the actions of the Council and the number of Council Persons who were full time you will find something very interesting when you look at what was accomplished. You will note they did not have a large number of people in 1970 who had full time employment. If you look at 1974 and up to the present, he has no problem facing the realization that at this point in time the vast majority of persons who are currently serving on the Council are in effect part time. He has no problem accepting the realization when the public says to him that it is not right for a person who has two full time jobs to request a raise. He respects that and there is no way of running around that particular reality, but he also understands when you look at the persons who are serving on a full time basis that does not work its way out. Whether they go for a raise of 5% or 10% or 20%, he believes the people have taken the original perspective, twisted it, manipulated it, organized and orchestrated the whole situation so that it does not appear to the public that they are talking about an issue that is full time Council and part time Council. That is the issue they are talking about when they start talking about an increase of 5%. He said it is ludicrous for this Council to vote 5% for all Department Heads, for all union negotiation, for every person who has requested an increment, that they can vote that and say it is an equitable reimbursement because of inflation. He said it is ludicrous to vote affirmatively on that and when it comes time to vote 5% for Members of the Council that it is too much.

He continued that whether the Council gets a 5% raise or not, it will not resolve the issue of police. He said everyone knows the Council does not hire police. That is clearly the responsibility of the Mayor. Whether or not Council receives the increase, it will have little relevancy in regard to the development of housing. When Ronald Reagan got elected that eliminated the Section 8 program. It will have little relevancy on cleaning the city, which most of them know is dirty and to a certain degree nasty. That is an administrative problem that the Mayor has to address and everyone knows the Council's position on the entire issue. Whether they deal with the whole question of crime, education, housing, those issues were not related to a 5% raise for the Council. He said the net result of what he is saying is they have allowed a simple matter of a 5% raise to become a major political issue within the City of Newark and that is the silliest thing on the face of the earth. If they want to concentrate on an issue that deals with Council accountability, then concentrate on whether there is a full time or part time Council. If they want to deal with whether or not Councilpersons are responding to their needs then clearly deal with that. He said they should not allow a simple matter of a 5% raise become a major political issue within that covers the entire City. Whether they like it or not Ronald Reagan is still in the White House, the Mayor in his wisdom does not want to deal with the hiring of additional police. He said he is glad they are talking about reallocating police resources. He said the Council does not push a broom to clean up the city. If they want to they can blame everything directly on the City Council. If they feel the Council does not deserve a raise, then state that, but look at the total issue as it has nothing to do with whether services are provided, whether you evaluate a person being in office a year or any other points.

Councilman Payne said there are many problems that need to be dealt with in the City. Initially he was opposed to the raise and he is opposed to it now, but he feels they are dealing with this issue too long and should move on this ordinance one way or another.

No one else appearing, a motion to close the hearing and defer action on the ordinance was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Tucker, Villani, President Grant.
No: Councilmen James, Payne, Rice.

A motion to adopt the ordinance on first reading was made by Councilman Rice, seconded by Councilman Carrino.

Councilman Martinez requested his colleagues to defer action on this ordinance. One of the streets involved has not been removed from this ordinance and all of them recognize the fact that one of the most successful festivities in the City of Newark was held recently with over 95,000 people in attendance. By adopting this ordinance, every year on Ferry Street, that activity would not be allowed to take place.

Councilman Rice stated that no one from the West Ward is trying to upset the activities on Ferry Street.

Councilman Carrino said he assumes the passage of this ordinance would put the authority to close the streets in the hands of the Municipal Council so that if someone wants to close a street, it would be brought up to the Council. Right now anybody can arbitrarily close the street. He questioned if that was correct.

Councilman Rice replied not exactly. No one would come to the Municipal Council. It would be administrative.

HEARINGS OF CITIZENS.

6-HC-a.

MR. WILLIAM WALLACE, 789 SOUTH 18TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to Reaganomics.

6-HC-b.

MRS. HELEN POCH, 687 SUMMER AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to various conditions existing in the City of Newark and questioned why they are paying taxes if they don't receive the services.

President Grant pointed out for the benefit of the persons desiring to speak on 30 Walnut Street. The Council has already taken action on this measure. In light of the fact legislation is pending in Trenton, they have voted to defer the resolution until action is taken by the legislators.

6-HC-c.

MRS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council thanking them for giving Walnut Street an extension and wished that they would have helped 299 Clinton Avenue.

Councilman Branch said he has asked Mrs. Skidmore to extend an invitation to the Members of the Council to look at that building to see how they are trying to maintain that building. Maybe something can happen in regard to seeing if funds can be made available.

6-HC-d.

MRS. LOUISE SKIDMORE, 299 CLINTON AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the Rent Control Ordinance and questioned why it was on the Calendar.

President Grant replied the legislation came up as a "Late Starter". It will appear under "Communications".

Mrs. Skidmore requested the Council not to take any action on this "Added Starter".

123

President Grant reiterated this legislation came in about a half an hour ago and will appear under "Communications". After communications, it is moved to ordinances on first reading and then on ordinances on public hearing, second reading and final passage. That is, when the public will have an opportunity to speak.

Councilman Tucker said he has had an opportunity to read this. He is not going to support this as an "Added Starter". There has been a process in the City of Newark dealing with Rent Control Ordinances wherein they sit down with the tenants and the landlords. What this ordinance does is exempt one, two and three family homes directly from Rent Control. It talks specifically about some sort of survey, that Ms. Smith actually ran. The Law Department indicates there is more documentation on the four changes in the ordinance. There are four major changes in the Rent Control Ordinance. He does not believe this item should be on the Calendar until such time as there has been a full discussion. There is an ordinance that they are currently dealing with that states if it comes up as a "Late Starter", there should be some sort of emergency. There is no emergency.

6-HC-e.

MS. NANCY ZAK, 48 READ STREET, NEWARK, NEW JERSEY, addressed the Municipal Council supporting remarks made by Councilman Tucker with respect to the proposed Rent Control Ordinance changes. The tenants are extremely concerned about the three proposed changes. The exemption of one, two and three family homes, which would affect almost 25% of the tenants in Newark; passing on a sewer cost to tenants which is another way of bailing out the landlords everytime their expenses go up.

Councilman Carrino agreed with Councilman Tucker that they should not put it on the Calendar. He pointed out that this Ordinance is not being sneaked in as referred to by the speaker.

Councilman Rice concurred with remarks made by Councilman Tucker. He hoped that those that take leadership roles in our community, that when things are discussed that all facts are given by both sides.

6-HC-f.

MS. PATRICIA T. JARECKE, 30 WALNUT STREET, NEWARK, NEW JERSEY, addressed the Municipal Council thanking them for their continued cooperation with respect to 30 Walnut Street and hoped that by September that the State Legislature will pass the bill and they will have a way to resolve the situation. The speaker hoped that the Council would take Councilman Branch's suggestion in meeting with the tenants of 299 Clinton Avenue.

6-HC-g.

MR. EDDIE IRWIN, 3 ROANOKE COURT, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the dioxin situation in the Ironbound and urged the Municipal Council to support Councilman Martinez's proposed resolution relating to same.

Councilman Martinez commended the speaker for his remarks.

6-HC-h.

MS. JUNE KRUSZEWSKI, 27 SCHALK STREET, NEWARK, NEW JERSEY, urged the Council to adopt a resolution which is going to be proposed by Councilman Martinez and hoped the Council would help them in their fight with the dioxin situation.

6-HC-i.

MR. ARNOLD COHEN, 48 READ STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to proposed resolution by Councilman Martinez on the dioxin situation and urged Council's support of same.

6-HC-j.

MR. BENNETT FARRAR, 64 HAWKINS STREET, NEWARK, NEW JERSEY, urged the Council to support Councilman Martinez's proposed resolution on the dioxin situation in the Ironbound.

Councilman Carrino said even though at this point it seems to be a problem strictly concentrated in the East Ward, it is a Newark problem. Whatever Councilman Martinez wants to do down there, they will all be in support of it and will do whatever is necessary to make sure no citizen of Newark, whether they live in the East Ward or not, has to live under that kind of a cloud.

Councilman Rice concurred with Councilman Carrino's remarks. He noted that the citizens of the West Ward Community Block Association groups have been meeting with reference to the dioxin problem and support them.

6-HC-k.

MS. MADELYN HOFFMAN, 47 READ STREET, NEWARK, NEW JERSEY, addressed the Municipal Council supporting the proposed resolution to be introduced by Councilman Martinez. The speaker pointed out that they have written to the DEP on a number of occasions requesting information about the testing, etc. but have received nothing from them. The speaker requested that the community be involved in the preparation of the ordinance.

6-HC-l.

MS. JOYCE FRANKLIN, 8 ROANOKE COURT, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the lack of policemen in her area and the lack of recreation for the youngsters.

President Grant said the speakers comments would not fall on deaf ears. They have implored Administration for several years that additional security ought to be put in place and certain other services. They can put as much pressure on Administration but it is up to the Mayor's Office to actually carry that out. There are representatives present in the audience from the Mayor's office to receive concerns and complaints of the citizens and suggested prior to the speaker leaving that she speak to Ms. Linda Hankerson.

6-HC-m.

MS. ANN IRWIN, 3 ROANOKE AVENUE, NEWARK, NEW JERSEY, thanked Councilman Martinez and the other Members of the Council for supporting them.

6-HC n.

MRS. DONNIE CLARK, 210 ORANGE STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the filthy conditions existing in the City Newark and urged the Council to do something about same.

President Grant stated that since sitting on this Council that her remarks were one of the best presentation of conditions in the City of Newark. He knows that she is not here just to highlight conditions but to look for resolutions. He shares this with her. He thinks she understands that and he is not one to say "that is not my job" let someone else do it. All of them are equally responsible for every activity or inactivity that goes on in the City of Newark. He pointed out he met with the Mayor and discussed some of these matters with him and will continue to meet with the Mayor in an effort to put pressure both on him and Administration to make sure that the kind of things that are just basic are done. They had the persons in from Sanitation and the Council's question to them was "If a broom sweeper driver is not working, what is he doing? They were told they were put on the street with a hand machine. He noted various cities he has traveled to are clean and suggested to the Mayor that one thing they ought to do in an effort to help keep the streets clean is work the broom sweepers from midnight to eight in the morning. The Mayor has indicated he will take a look at this concept.

Councilman Tucker, through the Chair, requested that Mrs. Clark's remarks be submitted to the Mayor and to the various Department heads of Sanitation. He thinks the Council especially in dealing with a clean City is going to have to do more. They do not have the responsibility to drive the brooms, but they can find why half of those machines consistently break down. He knows the meeting they had with representatives of Sanitation, he was not satisfied with their responses. They either clean the streets and do the job they are being paid for or try to have them fired. He hopes the Mayor in his wisdom will change his position but his position in the past has been he will see what he can do. He thinks they have reached a point where they can no longer tolerate that statement. He thinks they as a Council are going to have to play a more direct role and make sure those services are rendered. He said he not only speaks for him-

self but he thinks he speaks for most Members of the Council when they say they are going to make sure that those brooms stay "unbroken" and also those men stay out on the streets cleaning. The only City he knows in this nation that is dirtier than Newark is Jersey City. He is going to do everything in his power to make sure that the Mayor stays on top of Director of Engineering Zach, Mr. Julianio and also Mr. Carter to clean these streets.

Councilman Rice concurred with remarks made by Councilman Tucker. He pointed out they are contracting out and beyond the problem of the equipment itself, he thinks one of the problems may very well be they will be compelled to do things he does not believe in. In the West Ward they refuse to accept contractors. He knows Newark citizens can be employed and do a good job. His position is that government, whether they like it or not, is a business and the attitude of management is of hiring and firing. For those persons with the brooms who don't want to participate, he is not going to contract that position out. He is going to fight to have them fired.

Councilman Branch pointed out that at the pre-meeting conference, there was a lengthy discussion held about the cleaning of the City. They just can't sit back and take "no" for an answer about the City being clean. There should be no excuse about the machines not functioning. People who live and pay taxes here want to be provided with services. They have had people calling them that they are receiving tickets for parking on the streets and the streets are not being cleaned. All the Members of the City of Newark concur with the speaker and they will have to continue pressuring them to have the streets clean.

Councilman Martinez said in his Ward he doesn't want the City men cleaning his streets. They have proved to be incompetent, they have proved they have broken the machines down, they have proven they do not want to work. You can't get rid of them. There is going to be a private contractor coming into the East Ward. When the City had total sanitation, they took one district and they had 30 trucks and 100 men to do a district. The private contractors in the same district, with 9 trucks, 27 men and you don't have to make an appointment to pick up the bulk garbage. He believes the private contract service that will be provided in the East and South Wards will improve the conditions in the City.

A motion to permit Ms. Eleanor Podlas to be heard under "Hearings of Citizens", was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Tucker, Villani, President Grant.

6-HC-o.

MS. ELEANOR PODLAS, 102 ALBERT AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council requesting additional police surveillance in the "dioxin area" until this all blows over.

Councilman Martinez said he thinks all of them have a resolution before them which is self-explanatory (7-R-dt, on today's agenda). One of the things that is included is not only FDR and Hyatt Court, but what he did was draw a boundary line, etc. He noted he had conversation with the Governor and indicated to him the concerns. One of the major concerns is that there is no community input. The community does not know what is going on. When the dioxin first broke out, the Railroad Tracks which they are talking about, ran right in front of Diamond Shamrock. Everyone in the community knew that they were transporting the product from the facility along the railroad track and taking it away. Why did they initially come to one location and wait a month later to come back to the Railroad Tracks, to him is simply beyond his reason. He believes now it has become a political thing, it becomes another press conference and they are going to find more contamination within that community somewhere else. One of the things that wasn't indicated was that in one area they found 50,000 parts per billion which is the highest this country ever found and all of this was pretty well hidden. The Farmers Market is taking a tremendous beating economically and with jobs. Some of the owners have indicated they have lost between 60% and 70% of their business because of the adverse publicity. He is going to ask that the federal people, EPA, the state officials of DEP, do a walking tour, taste the food within that area to try to bring some attention to national people that will not bring the product in or out of Farmers Market. He believes once the clean bill of health is given, he believes he heard that will be done in a week or two, he doesn't believe it. Whatever is on the resolution they will follow up on it and thanked his colleagues for the support and thanked the community.

Councilman Tucker said that there is more to it than the State is actually allowing them to deal with. He supports the resolution to be proposed by Councilman Martinez but they need to go a little further and try to get their congressional representatives and their United States Senators involved. He doesn't believe at this point in time they are getting all of the information. He had an opportunity to talk with an Epidemiologist up at the college with respect to this particular matter and indicated it appears to them that the State is basically functioning, not on a health basis but functioning on a political basis.

(Copy of resolution and correspondence submitted to each Member of the Council)

Councilman Tucker, through the Chair, requested the conversation held at the pre-meeting conference of August 9, 1983 with Mr. Azzu be made part of these minutes.

A motion to adopt the resolution was made Councilman Branch, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Tucker, Villani,
President Grant.

(Excerpt from pre-meeting conference of August 9, 1983)

"Councilman Tucker queried since this was a Development Auction, what did Mr. Azzu envision doing with the property above and beyond the office space that was mentioned in the application.

Mr. Michael Azzu replied that he was an Engineer and intended to use some of the space for himself as an energy area primarily electrical, mechanical energy management. About 80% of the space would be subdivided. They intended to seek people in the Consulting field, Accounting, Attorneys and Engineers.

Councilman Martinez commended Mr. Azzu for buying this building. He said this building which was formerly a restaurant had the stoves and plumbing ripped out of the walls. He noted there was extensive damage done to this building and he knows one contractor estimated it would cost \$150,000. to rehabilitate this building. He questioned if Mr. Azzu had a time frame or does the Development Auction indicate what has to be done within a certain time.

Mr. Azzu responded the building was in very bad shape. They estimated it would cost somewhere in the area of \$100,000. to rehabilitate including the partitions. He noted there is a grey area that needs to be investigated regarding the existing mechanical system that has been damaged. They have not yet evaluated the extent of that damage or how much repair is needed.

Councilman Martinez queried if the grey area were to cost more money than expected, did Mr. Azzu intend to make this a parking lot.

Mr. Azzu advised that a parking lot was definitely out.

President Grant questioned what time frame was agreed upon with the City to complete renovations.

Mr. Azzu responded it was indicated within a year to 15 months but it had not been properly evaluated. He said once the plans were started he expected to start within 3 to 4 months.

Councilman Tucker questioned if Mr. Azzu envisioned under any circumstances to utilize this building as a parking lot or a disco.

Mr. Azzu responded in the negative to both.

Councilman Tucker queried if the Development Auction prevented them using that building as a parking lot. He noted it was their concern to sell the building but also to maintain the ratables but not to get into a flat bad land use which he calls a parking lot because the City does not make money on that.

Mr. Azzu responded the Disco and Parking lot are definitely out. He said the building lends itself as a restaurant but it was not really within their scope or imagination at this time. He advised that office space was their primary concern.

Councilman Tucker requested that they check with the Office of Real Property to make sure there is some stipulation in the Development Auction to insure these things do not take place. He said it should be stated what the intended use of the building would be.

Councilman Branch stated there was the possibility of requesting the Real Estate Commission to develop a resolution on this point.

Councilman Tucker stated he wanted to be sure the Development Auction is monitored.

President Grant noted it is only monitored when the Council calls it to their attention and that there should be an on-going monitoring of all City-owned properties and sales.

President Grant directed the Acting City Clerk to communicate with the Corporation Counsel and the Administrative Aide in the Office of Real Property advising that when property is sold through a Developmental Auction that it be stipulated what the intended and actual use of the property would be so that when it is rehabilitated it is not converted to another use."

RESOLUTION URGING THE PRESIDENT AND BOARD OF DIRECTORS OF SYMPHONY HALL CORPORATION TO FORBID ALL APPEARANCES AND PERFORMANCES BY ANY ARTIST WHO HAS ENTERTAINED BEFORE THE APARTHEID SYSTEM OF SEGREGATION IN THE REPUBLIC OF SOUTH AFRICA AND TO INFORM THE NEWARK SYMPHONY HALL CORPORATION OF COUNCIL'S INTENT TO INCORPORATE WITHIN THE NEXT LEASE AGREEMENT PROVISIONS WHICH WOULD FORBID ALL APPEARANCES, CONCERTS, SHOWS, PRODUCTIONS AND PERFORMANCES BY ANY ARTIST WHO HAS ENTERTAINED BEFORE THE APARTHEID SYSTEM OF SEGREGATION IN THE REPUBLIC OF SOUTH AFRICA.

A motion to adopt the resolution was made by Councilman Tucker, seconded by Councilman Rice.

Councilman Carrino said he really has no problem with the resolution but questioned "any artist we entertained there"?

Councilman Tucker explained the Republic of South Africa obviously has an apartheid system. If an artist comes to the Republic of South Africa, they are participating in a process where they are playing to a segregated audience. They still have the old segregated situation we had in the South, whites on one side and blacks on the other side. The artists who participate in the process really in effect support that apartheid system. That is what the resolution is saying. If they participate in that process they should not in any way whatsoever come back without the public being mindful of what they have done and that they should not be authorized to participate in a theatrical vein at Symphony Hall.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Tucker, Villani, President Grant.

Councilman Tucker stated this is the Guard service that they had a major problem with last year and they instructed Assistant Business Administrator Banker to make sure they have armed guard services at City Hall. He thinks that has worked. There is no stipulation in this resolution similar to what they had last year.

7-R-bu.RESOLUTION AMENDING RESOLUTION 7-R-bq (A.S.), JULY 6, 1983, CONTRACTS
WITH CHESSON CONSTRUCTION CO. INC. AND PETTIFORD & PETTIFORD, INC., BY AUTHORIZ-
ING LOCAL SAFE AND CLEAN NEIGHBORHOODS ADMINISTRATOR, WAYMON JESSIE TO EXECUTE
SAID CONTRACTS AND EXECUTE CHANGE ORDERS AS NEEDED, NOT TO EXCEED ADDITIONAL
\$2,500. FOR EACH CONTRACT; INSTEAD OF AUTHORIZING DEPARTMENT OF ADMINISTRATION,
OFFICE OF SAFE AND CLEAN ACTIVITIES.

(Copy of resolution and correspondence submitted to each Member of the Council)

Councilman Tucker said he understands that Mr. Jessie is the Director of Safe and Clean Neighborhoods Program. He questioned why are they authorizing him to execute a Change Order.

President Grant said as part of the administrative responsibility, they gave him the power to execute a Change Order. He works for the Business Administrator and maybe he ought to be made to co-sign.

Councilman Tucker said usually a Change Order comes under a Department Head. It is a bad precedent.

President Grant suggested they amend this resolution to indicate this Change Order be co-signed by the Business Administrator or the head of the Department.

A motion to amend the Resolution by including statement that any contracts authorized by the Administrator of Safe and Clean Neighborhoods Program should also bear the approval of the Business Administrator was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Tucker, Villani, President Grant.

President Grant questioned if anyone was present from the Law Department.

President Grant questioned Assistant Corporation Counsel Mendez, relative to the Council amending an action that has been signed by the Law Department, because sometimes strange rulings come back and say the Council does not have the authority to amend a piece of legislation presented and signed by the Corporation Counsel or the Assistant Corporation Counsel. What they did was amend this resolution not to change any change orders but to amend that the Department Head be a co-signee in that matter.

Assistant Corporation Counsel Mendez replied he will have to check that out.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez.

Councilman Tucker recalled that a portion of the grant they are currently in receipt of specifically deals with modular housing. He knows the Business Administrator, Director of Mayor's Policy and Development Office and others are supposed to submit a report to the Council by August 16th. He does not know whether they need to approve this right away but he does believe they need to make sure those funds are not expended before they come up with a plan.

Councilman Rice said he would like to defer action on this resolution. He had spoken to Business Administrator Banker and Director of Planning and Grantsmanship assured him that when this grant comes through they would do some things in the West Ward with or without this allocation. He wants some assurance. If not, he is going to boycott construction.

President Grant said he would move to add a rider into this resolution that no funds be expended until further discussion by the Municipal Council.

Councilman Tucker said the major problems they had was dealing with demolition and relocation and the general category of "modular". His only concern is that they put a "hold" on them and try to identify the funds they had questions with.

President Grant said he would move to withdraw his rider to the resolution.

Councilman Tucker said his only concern is that they may spend it. Given the fact that they accept this, there is no resolution to insert these funds within the budget. He questioned Chief Accountant Fitzsimons if they can expend the money.

Chief Accountant Fitzsimons replied there is a "Possible Added Starter" establishing the budget for the \$3,289,000.

Councilman Rice respectfully requested the mover and the seconder to withdraw their motion to adopt and defer action on this resolution.

Councilman Tucker questioned whether a special meeting can be called for the 16th of August to discuss this matter.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

(TO FUND PART OF CONSTRUCTION FINANCING FOR AN OFFICE BUILDING PROJECT KNOWN AS "GATEWAY III")

(Copy of resolution and correspondence submitted to each Member of the Council)

Councilman Tucker said they can't deal with a \$15 million resolution as a "Late Starter"

President Grant requested the Acting City Clerk to add this resolution to the call of the Special Meeting of August 16, 1983.

Councilman Branch questioned what benefits other than the revenue the City receives in taxes are concerned. What benefits does the City receive in terms of jobs for minorities and jobs for residents of the City.

President Grant replied that information would be best coming from Affirmative Action Office who is responsible for the monitoring of those particular projects.

Councilman Branch requested to have this information by the next meeting.

President Grant replied they are going to invite the representatives from the Office of Affirmative Action to meet with the Council on August 16th.

Councilman Tucker said the point that is being raised is that Gateway III is in construction and they can get that information. The reason he raised the question on the Affirmative Action ordinance, once they complete the building, Affirmative Action Plan does not apply any more because our ordinance just says "Construction". If you talk about Affirmative Action dealing with vendors, building or commercial stores, it does not exist. There is no Affirmative Action Plan. He would like to discuss this with the Council to try to require an amendment within the ordinance which would say in effect, if they are going to get tax abatement, at least have them apply to the Affirmative Action, before construction. After construction they are not hiring people from Newark. They are getting the benefit of the tax abatement but do not hire people from Newark.

Councilman Branch stated he was opposed to giving jobs to people outside the City after tax abatement has been given. He said before he would even consider granting tax abatement in the Central Ward he would have to be assured that 755 of the jobs would go to the residents of the Central Ward.

Councilman Tucker reiterated they need an amendment in the ordinance.

President Grant said what happens they sit up there and they demand certain things and they pass it on to Administration. It is their responsibility in terms of Affirmative Action to make sure these things take place, the monitoring is going on and when it does not fall to the category it should, certain Corporations ought to be fined. On the whole he does not think the Affirmative Action for the City of Newark is really accomplishing what it should in 1983 especially with the complexion of the City of Newark. All of these questions can be raised when they meet with the Council and as they consider amending and adopting their new Affirmative Action Plan, they certainly can make sure

that their wishes and demands are included in the new legislation along with strong monitoring of what has to go on. He does not care what Plan is on paper if it is monitored, all you have is a "paper organization".

President Grant requested the Acting City Clerk to invite the principals to the Affirmative Action Office to meet with the Council on Tuesday, August 16th.

(AS PER ARBITRATION AWARD)"

(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to defer action on this ordinance was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker said they discussed this ordinance yesterday and he has no problem making his statement public. He thinks it is a "rip-off" to the City of Newark. His concern is a simple one. All of the municipal employees when they want to retire and have accrued time, they enter into an agreement with the Personnel Department of the City. What usually happens is if the City is going to give you cash for two or three years of accrued time, there is some sort of percentage that they in effect give the City. This ordinance represents nothing for the City. It represents a lot for the employees who are currently there. He believes it is a "rip-off". If you are going to come in and say "that you will go out on sick leave for the next three years" and draw your sick time or pay me all my money now". There is no asset for the City of Newark. What happens in the Police Department automatically rolls over to the Fire Department. They are not talking about one ordinance. They are making a special class of people in regard that a policeman and fireman can take all their money out and get paid for it without entering into a negotiating process.

Councilman Martinez pointed out this was negotiated with an Arbitrator. It was part of a PERK, a bargain agreement between the City of Newark and the Firefighters Union. What this says in effect is if a firefighter decides to retire he can stretch his money out for six months. During the period of the six months the City has to provide all of his medical coverage. The City is getting a benefit in two ways. First the firefighter takes a lump sum and does not get anymore medical benefits. They are bargaining now for additional coverage for retired firefighters. Second, once you accept a lump sum, 40% goes to the Internal Revenue Service. The firefighter is going to be losing more money. Third, they have elderly firefighters who aren't capable of climbing the ladders and fighting fires and they keep saying "why don't they hire young blood". This is their opportunity to bring in the new young blood. There are about 30 and 40 men looking to retire between now and the first of the year.

Councilman Martinez reiterated this is an arbitrated award. If they say "no" to this and try to reject this, it is going to kick them back in their face because they have violated a contractual agreement.

Councilman Tucker said that Arbitrator is not an elected official and they are bankrupting this City. The same as the State Legislators when they approved the non-residency law. He reiterated this is a "rip-off" to the City of Newark and he is not concerned about Internal Revenue Service. All he is concerned is "where is the benefit for the taxpayers of the City of Newark." It only benefits the retired employees. If a firefighter can't climb a ladder he should retire or go out on disability. They need not pay him a full price based on that.

The motion to defer action on this ordinance and directing the Acting City Clerk to place this item on the Special Meeting Agenda of August 16, 1983; further directing Acting City Clerk to invite Acting Corporation Counsel Pidgeon and Director of Fire Caufield to meet with the Council at their special pre-meeting conference August 16, 1983 was made by Councilman Tucker, seconded by President Grant and adopted by the following votes:

(Mr. Alfred Faiella, Executive Director and Secretary, Newark Economic Development Corporation met with the Council August 16, 1983)

A motion to adopt the resolution was made by President Grant, seconded by Councilwoman Villani.

Councilman Tucker, through the Chair, requested that an excerpt of the discussion with Mr. Alfred Faiella, Executive Director, Newark Economic Development Corporation, at the pre-meeting conference held this date be incorporated in the minutes of this meeting.

At the Pre-meeting conference held August 16, 1983, Mr. Alfred Faiella, Executive Director and Secretary, Newark Economic Development Corporation, stated they had requested to receive from the two entities, one the Department of Housing and Urban Development, a letter signifying that they were cognizant of this mechanism and that it was legal in their opinion or proper and two, communications in the City's law Department specifically dealing with this so called mechanism, the C. D. Float. He stated they had received from the Department of Housing and Urban Development, dated August 9th, addressed to Ronald Jean, attached to Council's correspondence which calls this an innovative financing technique and no prior approval being required. They have received a rather succinct memo that covers the points of contention of the loan program from Leo Schwartz and John Pidgeon which says not only that it is legal but talks about a certification of the availability of funds in the form of a letter of credit, etc. He stated they are taking Community Development funds that are currently contracted for but are sitting in the form of a letter of credit in our accounts and not earning interest and temporarily lending them to a qualified project pursuant to a HUD regulation and as security receiving in return an irrevocable letter of credit from a local financial institution. The loan is two-fold. It is a loan to the N.E.D.C. who is a subsidiary of theirs, which they simultaneously re-lend the Third Newark Gateway Corporation and receive a letter of credit in return. Currently, they estimated a minimum \$8 million loan will be earning about \$70,000. a month interest. He noted that if the sums of money increase they could earn as much as \$1 million in interest for the City of Newark pursuant to this particular mechanism that they would not normally earn on these funds.

Councilman Tucker stated the responsibility of the Governing Body as the fiscal people was designed by statute. He noted what they were doing was giving that responsibility to N.E.D.C. or a private corporation. He queried what was the City's liability. Inevitably they have an obligation that goes directly to HUD. If there are disallowed costs in regard to dealing with them, if the money is not invested properly and the money is lost, the City would still have to pay it back. He was concerned in what way they could be assured that the money was not "going south."

Mr. Faiella stated there was a two-fold assurance. There would be a note signed by Prudential Insurance Company promising to repay the money and since that is not security enough, there is an irrevocable letter of credit drawn on Fidelity Union Bank, a bank whose assets are approximately three billion dollars signed directly to the City of Newark that the City will hold. He noted there is no more adequate security. There will be an irrevocable letter of credit in the total amount of whatever the outstanding mortgage money will be, signed to the City, drawn directly to the City and a note signed by Third Newark Gateway whose assets now approach \$55 million.

Mr. Faiella continued that the loan and note is conditioned on the irrevocable letter of credit. To go out and purchase the letter of credit will require a sum of money. That will be done at the closing. It will be presented at the closing before any notes are signed and that letter of credit, by request of the Law Department, will sit with the Law Department.

Councilman Payne stated this sounded like an innovative kind of mechanism and he was supportive of this concept if all of the safeguards are included.

Councilman Branch noted since there were not liabilities attached to this Governing Body and they seem to stand a chance to benefit he would be in favor of supporting this concept.

Councilwoman stated this was a great package.

The motion was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Payne, Villani, President Grant.

No: Councilman Tucker.

Not Voting: Councilman Rice.

At a later time in the meeting, after Ordinance 6-S & F-bf., Councilman Tucker questioned the 33% increase which was approved for the title of Manager, Division of Parks and Grounds. He felt the Council should not query about the 25% increase for the titles of Director, Planning and Grantsmanship and Director, Mayor's Policy and Development Office. He stated these titles have not been raised since 1980.

Councilman Carrino mentioned the title for Manager, Division of Parks and Grounds was being raised to match the salary of every other manager in the City with the same title. He said the title was inadvertently omitted in 1982. He stated the other two positions had nothing to do with people on the same scale in the City. They are not classified as department heads nor division heads because they are on a Federal Program. He felt what the titles did not get in 1981 and 1982 should not have bearing on what was being done presently. He said he wanted to vote within the confines of what everyone else was receiving presently.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Martinez, seconded by President Grant.

Councilman Tucker thought that unless the State Legislature appealed arbitration situations dealing with Police and Fire, the Police and Fire Departments would have the ability to bankrupt the City. He could not understand how a 27% raise could rise over the period of three years.

Councilman Payne felt that binding arbitration and the impact that it had on the City should be addressed. He suggested a letter be sent to the Governor and responsible agencies who are continuing to escalate increases. He stated the Governor should know that the Council felt that mandated costs should have some kind of special relief, or the State should have something to do in absorbing the mandate. He said the thought of the Council only being able to increase their budget by 15% over a three year period was incongruous.

President Grant directed the City Clerk to send a letter to the Members of the Essex County Delegation and to the New Jersey State Legislation letting them know that the City Council felt that the substantially larger percentage increases given under binding arbitration are causing hardships to the operation of the City and are far in excess of increases given other agencies not subject to binding arbitration.

The motion to close the hearing and adopt the ordinance on second reading and final passage was declared adopted by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

HEARINGS OF CITIZENS.

6-HC-a.

MR. D.J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY:

The above speaker addressed the Council in opposition to the changing of the name of High Street to Dr. Martin Luther King, Jr. Boulevard. He felt the change would inconvenience the residents and businesses which were located on High Street. This would cause the problem of informing different people of the street name change. It would cost the City money to change street signs. He asked the Council if they would keep the original preservation of the street preserved. He said by contrast, renaming High Street would deprive the City of Newark of an important part of its history. He informed the Council the street was named by the City founders because it was the high street that overlooked the City down to the Passaic River. He felt any opposition would be a derogation of Dr. King, and a lack of concern for the principals for which he stood.

Councilman Tucker said based on his review of the history of High Street, he did not think it had a tremendous amount of historical significance. He mentioned he had a conversation with Mr. Charles Cummings, of the Newark Public Library, and he asked him to what degree did High Street have an historical basis. He said Mr. Cummings would be getting back to him with the information. He indicated he would be reviewing Mr. Henderson's concerns to see if they had any validity.

Councilman Branch mentioned the petition with more than 6,000 signatures on it which was presented to him to sponsor the ordinance. He felt that Dr. King contributed more to young people than any other person.

Mr. Henderson said he agreed that a monetary consideration would become a side issue. He said he only mentioned it because it was a fact. He felt a suitable memorial would be a granite monument, something that could not be changed or renamed in the future.

Councilman Tucker asked Mr. Henderson if he felt the same way about the changing of Sixth Avenue.

Mr. Henderson replied in the affirmative.

Councilman James stated it was the need of the Council to establish a policy on how to entertain requests for street name changing. He was of the opinion that renaming a street was not always an honor. He felt an apology should be given for changing the name of Belmont Avenue to Irvine Turner Boulevard, especially when it is lined with abandoned buildings and vacant lots.

President Grant indicated that at the next Special Conference he would possibly establish a committee for street name changing.

6-HC-b.

MR. GEORGE KING, 684 SOUTH 10TH STREET, NEWARK, NEW JERSEY, addressed the Council with respect to the lack of services he received when trying to get a vacant lot cleaned up in the vicinity of 10th Street and Woodland Street.

6-HC-c.

MR. KENNETH LOUIS, SR. VICE-PRESIDENT, GREATER NEWARK CHAMBER OF COMMERCE, 50 PARK PLACE, NEWARK, NEW JERSEY, applauded the Council for passing the amendments to the Rent Control Ordinance. He said he hoped the Council maintained their goal in saving multi-family housing in the City as opposed to placating people that have come out with their particular interests. He also asked the Council to supplement the effort which they have made in supporting multi-family housing in the City by passing Resolution 7-R-a, pertaining to 30 Walnut Street, so the City could get back into the business of giving housing to the private sector.

Councilman Rice said he had a problem with what was going on in terms of tenants and landlords. He felt the Council could do a lot more in coming up with something more innovative as far as housing was concerned.

Councilman Tucker said his opposition to the ordinance was based on one simple projection. The net result was the government had the tendency to deal with people who were elected to make decisions. He felt there was a distinct difference. He mentioned he had raised a question to Ms. Geraldine Smith, Rent Control Administrator, on the estimated fiscal impact the tenants would be receiving in reference to sewer surcharge. He said he was informed by Ms. Smith that it would be approximately \$3.00 per month. He asked Mr. Louis for copies of the research the Chamber had found dealing with the impact of the sewer surcharge. He noted when the ordinance became law, whatever the sewer surcharge was would be "rolled over" to the tenant. He felt there should be some gradual formula allowing the tenants the ability to gradually come up to the level of the surcharge. He mentioned he was also concerned about the Fair Rate of Return recently mandated by the State.

President Grant directed the City Clerk to invite Tenant and Landlord Representatives to the next Special Conference to discuss this matter further.

A motion to allow Mr. Ed Brown, Mr. Ramon Colon, Mr. Frank Hutchins and Mr. Thomas Petrillo to speak under "Hearings of Citizens" was made by Councilman Rice, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-d. MR. ED BROWN, 315 SMITH STREET, NEWARK, NEW JERSEY, addressed the Council with respect to the opposition of Ordinance 6-F-1, which creates four new positions of Police Aides in the Police Department.

Councilman Tucker indicated the Aides would be a tremendous help toward the work load a policeman has when typing reports after arrests are made and various other duties they assume in the police station.

President Grant directed the City Clerk to invite Mr. Ed Brown, Police Director Williams and a representative from the Mayor's Office to the next Special Conference to discuss this matter further.

6-HC-e. MR. RAMON COLON, SIXTH AVENUE, NEWARK, NEW JERSEY, addressed the Council with respect to the changing of the name of Sixth Avenue to Victoria Avenue and the vacant lots on the south side of Sixth Avenue, between Mt. Prospect Avenue and Garside Street. He felt the debris which has accumulated is a hazard to the health and safety of the residents in the area.

6-HC-f. MR. FRANK HUTCHINS, 469 ELIZABETH AVENUE, NEWARK, NEW JERSEY, addressed the Council with respect to working out options and alternatives to rent control and better housing. He was also opposed to the water and fuel surcharge.

Councilman Payne felt it was a hardship for the tenants to pay additional rents by virtue of the pass-through. He said this had to be proven unnecessary and unwarranted.

Councilman Rice stated there had to be a mechanism which determined who was the landlord or the slumlord.

Councilman Tucker asked Mr. Hutchins if he or any of the tenant groups were involved in the drafting of the current rent control ordinance.

Mr. Hutchins said he was notified after the amendments were completed.

334

Councilman Tucker asked Mr. Hutchins how he was informed.

Mr. Hutchins said a letter was sent with the changes incorporated.

Councilman Tucker stated that both parties involved did not discuss and agree on the amendments.

6-HC-g. MR. THOMAS PETRILLO, 423 CHESTNUT STREET, NEWARK, NEW JERSEY, addressed the Council with respect to the sale of 30 Walnut Street.

Councilman Payne felt the citizens should be given every opportunity to maintain and complete their efforts.

Councilman Carrino mentioned the fact that in the winter months it would be hard to secure the building. The City would have to fulfill their obligation to see that the building was heated and taken care of. He felt the City has gone as far as they could go in terms of extending themselves. He mentioned nothing has been collected from that building.

Councilman Tucker informed the Council that it was not costing the City any money for 30 Walnut Street. He said the receiver was paying the bills.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Branch.

There was no second to the motion.

Councilman Payne felt the spirit of the resolution was in the right direction. He stated there should be more discussion because there were suggestions and questions which have arisen concerning the lottery amount.

Councilman Branch mentioned the money that was generated into the community from the lottery sales. He said there were three agencies that the State appropriated money for; Senior Citizens, Higher Education and State Institutions. He wanted to know what happens to all of the other monies generated from the lottery. He noted that since the "poor" people were supporting the lottery then part of the money should be put back into funds for them.

Councilman Tucker said he remembered reading a report which identified a disproportion about the people in the City who buy lottery tickets. The report was based on the amount of money which came back into the City. He stated he would also like to further discuss the possibility of more money being generated from the sale of those tickets.

President Grant directed the City Clerk to have the resolution remain on the calendar for further discussion.

There was no action taken on the resolution.

MRS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY requested information on how the remote water meter reading devices work.

Councilman Payne advised this was a program started many years ago whereby remote water meter reading devices were affixed to the outside of the house enabling the water meters to be read from the outside rather than to go into the house.

Councilman Carrino advised Mrs. Henry that the meter would still be in the house but a control is affixed on the outside of the house and the water meter is read electronically. He noted the program has been in effect for five years. It was intended to have the entire City done but they ran out of money. Now there is money available to continue this program.

The Acting City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you on public hearing, second reading and final passage:

An Ordinance permitting employees in the Fire Department of the City of Newark, represented by the Professional Fire Officers' Association, Local 1860, I.A.F.F., AFL-CIO, upon separation from the department to exercise the option of receiving wages and other benefits due in a lump sum equal to the cost to the City for such wages and benefits had the employee remained on the payroll to receive same. (As per arbitration award)

WHEREAS, as the result of an arbitration award, employees in the Fire Department of the City of Newark, represented by the Professional Fire Officers' Association, Local 1860, IAFF, AFL-CIO, are entitled to exercise the option of receiving wages and other benefits due upon separation from the Department in a lump sum rather than by remaining on the payroll,

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

Section 1. That employees in the Fire Department of the City of Newark, represented by the Professional Fire Officers' Association, Local 1860, IAFF, AFL-CIO, upon separation from the Department may elect the option of receiving wages and other benefits due them in a lump sum equal to the cost to the City for such wages and other benefits had the employees remained on the payroll to receive same.

Section 2. That the aforesaid lump sum payment shall be made on the date of separation. In the event an employee who elects the lump sum option is entitled to wages and other benefits during two fiscal years, two lump sum payments shall be made; the first, in an amount equal to the wages and benefits to which the employee would have been entitled for the year of separation and the second, in an amount equal to the wages and benefits to which the employee would have been entitled for the year subsequent to separation, had he/she remained on the payroll. The first payment shall be made upon separation and the second payment shall be made in the second week of January of the subsequent year.

Section 3. That the aforesaid lump sum option shall be prospective only and shall take effect on the first day of the month after this ordinance would otherwise take effect upon final passage and publication in accordance with the laws of the State of New Jersey.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Branch, seconded by Councilman Martinez.

Councilman Tucker indicated there were no benefits for the City in this Ordinance. That this was an arbitrator's award and it is a clear definitive reason why they have to get rid of binding arbitration in regard to dealing with the Unions. There was discussion at the pre-meeting conference that indicated this would provide an opportunity for the City to fill vacancies, but Assistant Business Administrator Banker made it very clear that it was not the intent of the Mayor to fill any vacancy where the appropriation was going to be utilized to pay any employee. It was clearly indicated there was no negotiated payment. It was also made clear that it was not the recommendation of the City Administration but in reality a determination arranged by an arbitrator. He respects the fact the arbitrator made a decision and that the Law Department indicated at that time that they saw no reason to appeal that decision, but he believes this is the biggest rip-off the City has been faced with and there are no benefits for the City of Newark.

The motion to close the hearing and adopt the ordinance on second reading and final passage was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Villani, President Grant.

No: Councilman Tucker.

Section 4 - RENT REBATE

The Landlord shall rebate to the tenants any amount of rent collected in excess of that permissible pursuant to the terms of this ordinance by crediting the tenant with the amount of excess rent paid over a period not to exceed 14 months, or in the event the tenant is no longer in occupancy, by refunding within a one month period the amount of excess rent.

A tenant shall apply for any rebate within 14 months of the date of any overcharge. The tenant's entitlement to a rebate shall extend only for 14 months prior to the date of application for a rebate.

Section 2, Title 15, Chapter 9B, Section 6, Subsections A and B of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented as follows:

Section 6 - TAX DECREASES

A. If the municipal property taxes are decreased in a given year due to either a decrease in the property tax rate or a lowering of the assessed evaluation of the property by the municipality, then the tenants are entitled to a tax decrease. Apportionment of such decrease shall be in the same manner as apportionment of tax surcharge under Section 5.

B. In the event a tax appeal is taken by the landlord and the landlord is successful in said appeal and the taxes reduced, the tenant shall receive fifty (50%) per cent of said reductions, as applied to its tax portion, after deducting all reasonable expenses incurred by the landlord in prosecuting said appeal.

The landlord shall be deemed to have received his rebate upon his receipt thereof from the receiver of taxes, or upon the execution of any agreement with the landlord. The tenant must receive notice within 14 days from when the landlord receives his notice of successful appeal. The landlord must notify the tenants within thirty (30) days of the time the landlord receives his rebate of the amount he has received with the computations on how much the tenant is entitled to.

The landlord shall divide the rebate by the total number of rooms in the dwelling, whether occupied or unoccupied, and grant a rebate to each tenant by the sum per room times the number of rooms in the tenant's dwelling unit.

The amount due the tenant shall be forwarded to the tenant within the same thirty day period.

Section 3, Title 15, Chapter 9B, Section 7 of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented as follows:

Section 7 - CAPITAL IMPROVEMENT

A. In addition to the percentage of rental increase and tax surcharge herein provided for, the landlord may seek additional rent for capital improvements made by him in the dwelling or attributable to the dwelling. The landlord shall compute the average cost of the improvement per year of useful life by dividing the cost of the completed capital improvement by the number of years of useful life of the improvement as claimed by the landlord for income tax depreciation purposes. The amount of the monthly increase which a landlord may charge shall be prorated among all tenants benefiting from said improvements by dividing one twelfth of the annual cost of the capital improvement by the total rent roll of the units affected by the improvements in the dwelling occupied or unoccupied. No tenant shall be liable for a capital improvement increase if he receives no benefit from the improvement nor, if he benefits, shall be liable for an increase exceeding the percentage of rent paid by him as calculated above, and all such rent increases shall be charged for no period greater than the depreciation period of said improvements. The landlord shall notify the Board and tenants at least 60 days before the effective date of the increase. The notice to the Board shall, on a form provided by the Board, include the amount of increase, a description of the improvement, and the figures used to compute the increase. The Board or the tenant may request a hearing within 30 days of receipt of notice from the landlord.

196

After approval by the Board of a Capital Improvement surcharge, the landlord shall give to each tenant one month prior notice of the effective date of the Capital Improvement surcharge as required by statute.

Petitions for a Capital Improvement under this section shall be submitted no later than 2 years from the date of the issuance of the first building, electrical, plumbing or other permit by the City of Newark for the Capital Improvement.

Section 4, Title 15, Chapter 98, Section 8 of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented as follows:

Section 8 - LANDLORD HARDSHIPS

In the event a landlord claims he cannot receive a fair rate of return as defined in the regulations of the Rent Control Board, he may appeal to the Board for a hardship rent increase. The procedure outlined in section 12 (15:9B-12) shall be followed. Within thirty (30) days after a hardship appeal has been filed, supported by all of the information which the Board may require for a determination, the Board may order the property inspected by the Division of Inspections for code violations.

The inspection reports shall be made and filed with the Board within thirty (30) days thereafter. In the event that the inspection reveals code violations, the Board may deny the increases or conditionally grant the increase subject to the landlord abating the violations within a reasonable period of time. However, in no event shall this period of time exceed ninety (90) days.

In the event that said abatement has not taken place within the aforesaid period prescribed by the Board, the Board shall revoke said conditional increase, and the landlord shall be required to restore to the affected tenants all of the additional monies collected pursuant to said conditional hardship increase. The restoration of monies shall be in the form of either a direct refund of all monies collected or a deduction from the next month's rent.

As used in this section, code violations shall mean any violations of the existing buildings, fire, plumbing, electrical or housing codes of the City of Newark then in effect. Violations which the Board may rely upon in implementing this section shall be only those violations which were found to have been existing at the time of the original inspection as requested by the Board.

The landlord shall submit proof of expenses for maintenance, repairs and financing expenditures to substantiate any hardship increase application, and the Board shall only consider said expenses for a period not to exceed 14 months prior to the date of the landlord's application.

Section 5, Title 15, Chapter 9B, Section 11 of the Revised Ordinances of the City of Newark, New Jersey, 1966 as amended and supplemented be and the same is hereby amended and supplemented as follows:

Section 11 - RENT DECREASE

During the term of this chapter a rent decrease may be granted by the Board for any decrease in housing space, services, furniture, furnishings or equipment. A tenant or group of tenants may petition for rent deduction through the Rent Control Board.

A decrease in services, such as to justify a rent decrease under this section, shall include any cessation or inadequate provision of the vital services listed herein, due to deterioration or improper maintenance of said services, where it is the responsibility of the landlord to provide said services. For the following decreases in services, a petitioner or petitioners rent may be decreased in accordance with the following percentages of the total rent or rents collected during the period of said decrease in services:

- A. No heat.....45%
- B. No water.....30%
- C. No hot water (when provision of hot water is the responsibility of the landlord)..10-25%
- D. Roof leaks (such as to make the apartment, or dwelling unit uninhabitable).....25-75%
- E. Non-functioning stoves or refrigerators (where supplied by landlord).....10%
- F. Faulty electrical fixtures (such as to constitute a dangerous condition, or threat to the health and safety to the tenants).....10-50%
- G. Faulty plumbing (defined as inoperable "fixtures" i.e., tub, sink, toilet, kitchen sink).....15%
(15% per fixture, but not to exceed a maximum of 75% of the total rent of all petitioners).
- H. Inoperable elevator (shall only apply in buildings over four stories, when inoperability is due to the neglect of the landlord; reduction shall only be applied to tenants of said building living on the fifth floor or above).....10%

No petition for a rent decrease, due to a decrease in services shall be considered under this section, unless the potential decrease in rent for each petitioner or each tenant in a group petition shall be greater than 44% of their rent for the period of the decrease in services, as determined by the administrative branch of the Rent Control Board. However, this limitation on considering petitions shall not prevent the Board from considering any petition involving a permanent cessation of services.

Evidence of the existence of any alleged decrease in services shall only be considered by the board for a period of 30 days prior to the filing of the petition, and no rent decrease shall be imposed by the Board for any period prior to said 30 days.

If a rent decrease is made conditional upon the landlord's performing whatever repairs are deemed necessary to correct a decrease in services, the landlord may petition, upon completion of 75% or more of the repairs ordered, for reinstitution of all or part of the decreased rents. Said petition and any determinations made by the Board thereon, shall conform to the procedures of the Board, as set forth in Section 15:9B-12, for adjustments in rents.

Where it is found that the landlord has contracted to change the heating service by changing a heating unit or otherwise requiring the tenants to pay for their heat, the Board may grant a rent decrease equal to the cost of providing heat as that cost is determined by the Office of Rent Control.

The procedures of the Board under this section shall be set out in a statement of policy, which shall be available for public inspection at all times in the offices of the Board. (4-8-80, S11)

Section 6, Title 15, Chapter 9B, Section 16 of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented be and the same is hereby amended and supplemented as follows:

Section 16 - UTILITIES SURCHARGE

Notwithstanding the language contained in section 8 of Chapter 9B, where the landlord substantiated through credible proof to the Rent Control Board Administrator that heating expenses and water expenses (including sewer charges) for the twelve months immediately preceding his application are in excess of 10% of the heating expenses and water expenses for the prior twelve months, the Rent Control Board Administrator shall grant a Utilities Surcharge to the applying landlord.

However, the increase allowed shall not exceed 15% of the monthly rent roll of apartments which contain 30 or fewer units; and, the increase allowed shall not exceed 5% of the monthly rent roll of apartments which contain more than 30 units but less than 201 units; and, the increase allowed shall not exceed 3% of the monthly rent roll of apartments which contain more than 200 units.

The percentage increase allowed shall be a percentage of the monthly rent roll in the month in which the application is submitted.

When the Rent Control Board Administrator has received the application of the landlord and all documentation required by the Rent Control Board Administrator to make the determination, the Rent Control Board Administrator shall notify the tenants of the application for a Utilities Surcharge. The notice shall contain a copy of the application and shall be mailed to the affected tenants within 14 days of receipt of the landlord's completed application. The landlord's completed application shall include a certified statement from the fuel heating dealer for the building indicating the number of gallons delivered, cost per gallon and total cost, for the twelve months immediately preceding the application and for the previous 12 month period. It shall also include a statement describing the landlord's water bills from the Division of Water Accounting in the City of Newark for the 24 months immediately preceding the date of application.

The decision of the Rent Control Board Administrator shall be rendered within sixty (60) days of the filing of the completed application. Failure of the Rent Control Administrator to render a decision within sixty (60) days shall result in the application being deemed granted.

If the requested increase is denied by the Rent Control Board Administrator, the landlord may lodge an appeal with the Rent Control Board.

After the date of application, a finding that heat or water is not provided to the building in conformance with applicable laws shall be a basis for a denial of an increase pursuant to this section of the Rent Control Ordinance.

The landlord shall notify all tenants in writing of the approved increase. Said notice shall be served upon the tenants at least one month prior to the effective date of the increase. The landlord shall file with the Rent Control Board Administrator a copy of the notice that was served upon the tenants.

The landlord shall equally distribute this Utility Surcharge that has been granted, according to the number of rooms within the housing space in the building for which the application is made. The computation of this Utility Surcharge shall be the annual amount of increase divided by twelve months and the results of that division further divided by the number of rooms in the building. The result of that division

shall then be multiplied by the number of rooms in each apartment of the building to determine the Utility Surcharge amount per month for each apartment.

Section 7, Title 15, Chapter 9B, Section 17 of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented be and the same is hereby amended and supplemented as follows:

B. Substantial Rehabilitation.

Dwellings which are substantially reconstructed or rehabilitated shall not be restricted in the initial rent charged if the Rent Control Board determines that the cost of reconstruction or rehabilitation during a 12 month period has exceeded 50% of either the undepreciated cost or the fair market value of the dwelling.

The substantial rehabilitation shall be completed prior to the date of application to the Rent Control Board for an exemption under this section.

Petitions for an exemption under this section shall be submitted no later than 2 years from the date of the acquisition of the first permit for the substantial reconstruction or rehabilitation from the City of Newark, New Jersey.

The petition forms provided by the Office of Rent Control shall require that the owner submit some tangible evidence as to the undepreciated cost or the fair market value of the dwelling. The petition shall also require a written description of the reconstruction or substantial rehabilitation of the building; as well as a copy of a certificate of occupancy issued by the Construction Official for the City of Newark certifying that the substantially rehabilitated building conforms to the requirements of the zoning ordinances of the City of Newark, the Uniform Construction Code of the City of Newark, New Jersey and all applicable health and housing codes of the City of Newark and the unrestricted initial rent that shall be charged shall appear on the petition.

Section 8. All prior ordinances or parts thereof inconsistent herewith are hereby repealed.

Section 9. This ordinance shall take effect upon final passage and publication according to the laws of the State of New Jersey.

The above citizens addressed the Municipal Council and urged them to vote for the amendments. They noted they had invested their money and expected to make a profit. They also noted water and sewer costs have escalated over the last few years. They opined if the Landlords were not able to receive a fair rate of profit there would be more abandoned buildings and a loss of housing.

September 21, 1983

Councilman Carrino stated the decision the Council makes this evening affects everyone in the City of Newark, both tenants and landlords. He said some type of compromise must be reached between the two groups to guarantee an affordable rent to the tenants and a fair rate of return for the landlords who have invested their money in these buildings.

Councilman Tucker noted the amendments being considered this evening were a 14 month limit on the time landlords have to repay tenants for overcharges, an 11.5% fair rate of return on the Landlord's investment and the pass-along cost for the sewer rate. He also noted that if municipal taxes are increased, that is an automatic pass-through directly to the tenant without the landlord going before the Rent Control Board. He called attention to the ordinance presently in existence which has an automatic 6% annual increase, a utility pass-through, the hardship increase and if the landlord goes into capital investment he can petition the Rent Control Board and indicate that he has expended a certain amount of money, the Rent Control Board has the right to adjust the rent upward based on the overall investment the landlord has made. He opined there are options within the existing ordinance the landlord can avail themselves of.

No one else appearing a motion to close the hearing and defer action on this ordinance and directing the Acting City Clerk to invite Business Administrator Hill, Rent Control Administrator Smith, Mr. Kenneth Louis, Vice President of Governmental Affairs, Chamber of Commerce and Tenant and Landlord Representatives to the September 27, 1983, Special Conference was made by Councilman Tucker, seconded by Councilman Rice and declared adopted by President Grant by the following votes:

Yes: Branch, James, Martinez, Payne, Rice, Tucker, Villani.

AN ORDINANCE CHANGING THE NAME OF HIGH STREET, IN ITS ENTIRETY, TO DR. MARTIN LUTHER KING, JR. BOULEVARD.

WHEREAS, the Reverend Doctor Martin Luther King, Junior, who gave his life in the unending quest for justice and peace, is recognized throughout the world as one of the greatest moral leaders, thinkers and orators of all times; and

WHEREAS, Doctor King's dream of equality and respect among all people continues to stir the hopes of oppressed people everywhere, and continues to prod the conscience of the nation's leaders as sharply today as when that dream was first revealed so eloquently at the March on Washington 20 years ago; and

WHEREAS, Doctor King visited the City of Newark just 10 days before his tragic death in 1968, and his memory is still cherished and his message still upheld by thousands and thousands of persons in Newark, and by millions across the land; and

WHEREAS, it is altogether fitting that the City of Newark should pay permanent tribute to the great Apostle of Nonviolence, and should keep his name and his works in the minds of this generation and those to come; and

WHEREAS, High Street has long been one of Newark's most attractive and distinguished thoroughfares, and it is the home address for the seat of Essex County government, for three institutions of higher learning and three secondary schools, for the city's oldest hospital, and for houses of worship that have served most major faiths, and this two-mile street is lined with some of the most historical and some of the most modern structures in Newark;

The City Clerk read An Ordinance amending Title 25, Water, Chapter 3, Rates and Charges, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, to amend Section 6, revising the method of establishing fees for water service installation and inspection.

(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to adopt the ordinance on first reading was made by Councilman Martinez, seconded by Councilman Payne.

Councilman Martinez explained what this does is give the City the ability right now for providing one inch service from the curb to the mainline to charge \$839. If a private contractor did it, the homeowner would get a fair reduction with the same guarantee that it would still have to be inspected by the City before payment is made.

The motion to adopt the ordinance on first reading failed of adoption by the following votes:

Yes: Councilmen James, Martinez, Payne, Temporary President

Not Voting: Councilmen Carrino, Rice, Tucker, Villani.

A motion to defer action on this ordinance and directing the City Clerk to invite Director of Engineering Zach and Director of Water Accounting and Customer Service Paradise to meet with the Council at their pre-meeting conference October 18, 1983 was made by Councilman Martinez, seconded by Councilman Payne.

Councilman Carrino questioned if they have inhouse capability to do something, they have the equipment and the manpower, how can a private contractor do something like that cheaper than the City.

Councilman Rice stated he thinks once again it is mandatory they take action and mandate that they work or get rid of them. He has said over and over he is leery about some contract work that City residents can do and would like to see this item deferred and have Director Zach explain this at the next pre-meeting conference.

Councilman Tucker said he believes this is part of the concept they deal with in the City. Usually when the football team is not working right, they get rid of the Coach. In the City of Newark they get rid of the team and keep the Coach. They have incompetent supervisors. So instead of firing the Supervisors they fire the men.

The motion to defer action on this ordinance and directing the City Clerk to invite Director of Engineering Zach and Director of Water Accounting and Customer Service to meet with the Council at their pre-meeting conference October 18, 1983 was declared adopted by Temporary President Branch by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Rice, Tucker, Villani, Temporary President Branch.

(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to adopt the ordinance on first reading was made by Councilman Martinez, seconded by Councilman Carrino.

Councilman Payne said Ordinances 6-F-j and 6-F-k were not important for them to act on at this meeting since they were submitted late and he has not had the opportunity to review same. They continually give out City money. How can there be no fiscal impact if they are going to receive more vacation time. They continue to give and the tax base keeps shrinking. It is something they are going to have to look at and he is opposed to all "late starters".

Councilman James agreed with remarks made by Councilman Payne and Arbitration Awards are Arbitration Awards and they have no control. Somehow when they get locked into Arbitration they lose. Unless they start with a policy of consistency, it becomes wrong to deny others while granting others.

October 5, 1983

Councilman Tucker said he thinks when the FOP and the Fire Officers go to Trenton and legislation is introduced to eliminate binding arbitration, what they are going to do is take the records of this City Council and indicate they have no problem with those binding arbitrations. What they are going to say is that they don't understand why the Council is raising the question about binding arbitration because the majority of the binding arbitrations that were submitted to the Council were voted on. It would definitely be inconsistent and they are going to use that. He has the utmost respect for the Police and Fire Department Unions.

HEARINGS OF CITIZENS.

6-HC-a.

MRS. ELLA JAMES, 108 PENNINGTON STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to dumping of garbage on Hermon-Pennington, Hermon-Johnson Streets. The residents in the area have tried to keep these City-owned lots clean but to no avail. The speaker urged the Council to try to have something done so the dumping of garbage could be prevented. The speaker also referred to

October 5, 1983

property located at 79-81 Pennington Street which is abandoned and being vandalized. She has not been successful in finding out who the owner of said property is and questioned whether it would be possible to have this building boarded up.

Temporary President Branch replied the Council concurs with the speaker that they need to do all they can in helping the residents and getting the lots cleaned up. A couple of months ago they sponsored a resolution to get lots cleaned up. He suggested that perhaps at a future special conference they can invite the principals and discuss what can be done with respect to getting these lots cleaned up. He thought perhaps they could call Public Service or the Bell Telephone with respect to poles. 259

Councilman Martinez stated there is a semi-commitment to have a fire house built on this lot which means the demolition of the old fire house on Vesey and McWhorter Streets. There have been initial studies by the Engineering Department, Fire Department and have proven successful that this is a lot that would make a good area for a fire house. That is the plan by Administration. As far as dumping of garbage, it is a privately owned lot. Yesterday he spoke to Mr. Martin of Sanitation who indicated he would send a crew down to have this lot cleaned up. He indicated he is going to request the Department of Engineering to at least attempt to put up some barrier so that this doesn't continue. As far as 79-81 Pennington Street, it was abandoned and the Salvation Army which is next door, indicated they wanted to purchase this building and also an Air Freight Company is looking to purchase this building. He believes they should do everything they can to assist this community because the residents have proven themselves in working very hard in this area to keep it clean.

Councilman Martinez suggested Mrs. James speak with Mr. Samson of the Engineering Department, who is present in the audience.

Councilman Tucker said he thinks the City needs to enforce the law. There is no mistake on who the owners are. They have appropriated money to tear down that building and that money has been expended. They have talked to Director of Engineering Zach who indicated the contractor who demolished the building had a big argument and there is a big question of going to court. The foundation of that building still exists. In effect the City participated and created the mess. His concern is how come the law is not being enforced. He reiterated they know who the owners are and know where they live and how come the City has not cited them. He felt they should have a motion directing the Law Department to find out how come they have never been cited. He knows when they were dealing with the matter of the Board of Adjustment they took pictures of the mess and it was their responsibility to clean up.

Councilman Tucker reiterated the City has the responsibility to make sure the laws are enforced. He thinks if the City goes in and cleans up a private lot there should be put a lien against said property. If those individuals were not politicians, who owned this property, there is no way that this would be allowed to continue.

Councilman Tucker requested through the Chair, the City Clerk communicate with Corporation Counsel Teare questioning why no legal action had been taken by the City to keep said property properly maintained by the owner; further requesting that he research this matter including any information that may be available from the Departments of Engineering and Health and Welfare and inform the Council as soon as possible.

A motion to permit Reverend Edward Prindle to be heard on "Hearings of Citizens" was made by Temporary President Branch, seconded by Councilman Martinez and declared adopted by Temporary President Branch by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Rice, Tucker, Villani, Temporary President Branch.

6-HC-b. REVEREND EDWARD PRINDLE, 427 JELLIFF AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council indicating that he has tried to purchase City-owned property located at 118-120 Market Street for two years to be used for community services. He indicated he bidded on this building last Monday and was not informed that he had to be present at the bidding. He noted he was the only bidder and now has to wait until Office of Real Property advertises for the solicitation of bids and requested Council's assistance in securing this building since he was the only bidder.

Councilman Payne questioned whether it was mandatory that the bidder be present at the auction.

Councilman Carrino said it was his understanding that the highest bidder at the auction had to leave a 25% deposit once he is determined he is the highest bidder.

Councilman Payne questioned Assistant Corporation Counsel William Schwartz whether an individual would have forfeit his right by not personally being at the auction.

Assistant Corporation Counsel Schwartz replied he has not looked at the specification.

Councilman Payne, through the Chair, requested the City Clerk to communicate with Corporation Counsel Teare, requesting that Assistant Corporation Counsel Schwartz, who was present at the meeting, check into the statement made by Reverend Prindle.

With respect to leaves of absence, Councilman Tucker stated the Council in its wisdom tabled the ordinance he introduced with respect to leaves of absence. He thinks what they are looking at now is people just taking those jobs and have no intention to go back to their original positions but in effect what it does is prevents people who are working from obtaining permanency. Some people have been on leaves of absence as long as 13 years. He thinks what they need to do is look at all of the leaves they currently have in the City and recognize that none of the positions that are currently voted by the Council can be filled by any person in a permanent Civil Service position. It means that all of the people are working on a temporary basis and he thinks that is one of the reasons that people are not going to perform. Why should they in terms put forth an effort if they know full well that as long as that person is outside that position and will never be in a position of ever getting permanent Civil Service status.

Councilman Payne said the remarks made by Councilman Tucker are well taken. He personally is reluctant to pass an ordinance that would limit the amount of time a person may be on a leave of absence. He thinks at the present time the Council has the prerogative not to approve any leave of absences and there is no need for legislation. He certainly thinks it is a privilege that is abused and can certainly appreciate the points made by Councilman Tucker.

Councilman Tucker said as a matter of clarification the Council either can establish a policy or they are locked into voting on each leave of absence that appears on the agenda. The Council in its wisdom, prior to his tenure, in 1971, got into a situation where they were not going to vote, he believes it was the Mayor's brother, who was on leave from the Police Department. At that point in time, he was getting ready to institute suit against the Council for discrimination. Because there is no policy, under what criteria was the Council making a decision to eliminate his leave of absence. He believes that suit was filed. The net result of that, he remembers his early tenure on the Council, the Council did not want to approve Mr. Hubert Williams' leave of absence and the same question was brought up. Without having a criteria, for either accepting or rejecting somebody. The Council's actions are viewed to be arbitrary and capricious.

Councilman Tucker said the ordinance he introduced would have established a policy that the Council in its wisdom would have a maximum leave of absence of five years. He reiterated that there has to be some criteria established with respect to these leaves of absences and to be frank they do not have any option but to approve the leaves.

A motion to adopt the resolution was made by Temporary President Branch, seconded by Councilman Tucker and declared adopted by Temporary President Branch by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Rice, Tucker, Villani, Temporary President Branch.

The City Clerk was directed to communicate with Secretary Pierce, United States Department of Housing and Urban Development and Commissioner Renna, New Jersey Department of Community Affairs, expressing Council's serious concerns about the rental of new housing in Newark to persons out-of-town. This concern arises from the persistent shortage of housing in Newark, and is intensified by the dislocation of many families to clear land for new housing. Many of these displaced persons attempt to move into new housing, but find sometimes that apartments have gone to people from other communities. Council Members have been advised by local housing managers that they are prevented by federal and/or state regulations from taking note of the residency of the applicants. It is the Council's hope that their Departments may clarify any such regulations in a way that will permit Newark residents to receive at least some preference when they seek admission to new housing in our City.

7-R-cj. Resolution deploring the decision of Essex County College to cancel plans for
(A.S.) a new swimming pool at its Newark Campus.

A motion to adopt the resolution was made by Councilman James, seconded by Councilman Rice.

Councilman James said what is painful to this Body is that the President of Essex County College met with the Council and asked if this Body would make a guarantee of \$100,000. annually for three years commencing 1985. This Body supported that in special session. He noted that out of the \$100,000., \$54,000. is for salaries. He felt that to give back \$450,000. to the state Department of Higher Education, is an insult to every resident in the County. He stated the real issue was never a money question. It has always been an unfortunate belief that black and hispanics do not swim and therefore they do not want a swimming pool. The same attitude that closed down Branch Brook Ice Arena" because blacks and hispanics do not ice skate." He noted in 1968 there were 5 or more swimming classes and today there are only 12 students swimming at the downtown "Y".

Councilman James continued the same night the Board of Trustees meet to say "no" pool, Essex County Board of Chosen Freeholders, it was revealed voted themselves salary increases and also a "PERK". They would pay the social security for all the top Administrators. That figure alone would have financed the pool for the next three years on the operating capital. He mentioned the various colleges that have pools.

Councilman James commended the Members of the Council for their efforts and they are going to continue the efforts because even after the Board of Trustees and Administration said "no" pool, this Body will still have a resolution indicating they intend to honor that commitment in behalf of the students of Essex County College and the residents of this County that they still believe they need a quality facility and they could in fact use a pool.

Temporary President Branch said even if the Council adopts this resolution, what happens.

Councilman James replied their action today has no bearing on anyone because no one is listening to them. The only thing that has happened is that Council's integrity has been rendered suspect and their good intentions had been muted. He brought out the students of Essex County College have also taken a stand indicating that they have been hurt.

Councilman Tucker said they are dealing with some of the concerns raised by the Board Members of Essex County College. Those concerns really challenged the credibility of the Council's intent and more specifically Council's action. His concern is that he knows the County Executive, who was very much concerned about the Resource Recovery Facility, came to the City of Newark and he knew full well that the Mayor could not commit finances to the County. That is basically by statute, the Governing Body. They approved the Memorandum of Understanding which was a statement of intent which was taken by the County Executive, recognized by the County Corporation Counsel and submitted to DEP and the Governor of the State of New Jersey. What they really are dealing with is that they know that a statement of intent from the Council has a statutory responsibility. Maybe some of the Board Members of Essex County College may not understand governmental structure. When they started criticizing the Council indicating they do not have the authority and questioned their intent. That to him is a situation that is not only deplorable but the net result is they are challenging their credibility and they are in effect a governmental authority.

Councilman Tucker said he recalls the meeting they had with Mr. Yamba and they asked him if they appropriate these funds, would he in effect use them and he said he would present it to his Board. He never questioned if the Council had the ability to appropriate the money. If he had doubts he should have raised them at that meeting.

October 5, 1983

Councilman Payne said he thinks this is just a reaffirmation on where the Council stands and they indicated they are committed to put up the \$100,000. It would appear to him that it would be a real travesty by bringing this City back, and permitting the County College to ascend to its full fruition.

Councilman James questioned whether a landlord could vacate his property, evict the tenants and then come up for 18 months without Rent Control.

Councilman Rice replied in the negative. Prior to adoption on first reading there will be amendments that the 18 month situation will have to come before the Rent Control for review to make sure that does not occur.

Councilman Tucker agreed with Councilman Rice but by the ordinance they just moved to first reading on the October 19th Calendar, that can happen. The reason he abstained is because there is a need for amendments. At this point in time there is no protective mechanism.

Councilman Rice said there is one particular amendment that has to be inserted but he doesn't want to tie it in with the Rent Control Ordinance because it would confuse the residents who are looking for progress in the City.

Councilman Payne said it sounds great to take an abandoned building and let people renovate it. He has to be cautious to try to insure that they are not passing something that is going to be a damage to the tenants. That is his only unreadiness because they are talking about one of the major pieces of legislation since they have been on the Council. He definitely feels uncomfortable with getting this on Tuesday, reading about it on Monday and voting on it on Wednesday. It has nothing to do with the intent of the ordinance. He thinks there is a lot they have to discuss, to keep out loopholes, people forcing out tenants, waiting for 18 months and bringing in new tenants and charging whatever they want. He believes they need to get in experts to talk about this.

Councilman Rice noted this was discussed six months ago when he Chaired a Committee and deferred this. He has no problem sitting down and making amendments but the reality is that they keep trying to mix the two. They are talking about abandoned property, they are not occupied.

Councilman Tucker said he thinks it is important to pinpoint a couple of factors. There has to be a protective mechanism in regard to a landlord dumping a building and getting rid of the tenants and if you check with the New York legislation, you will find that they have that in there. There also has to be a certification process that in effect prevents a landlord from dumping a building and getting a tax abatement for rehabilitation of that building, going to the IRS and getting a tax write-off for that building and then getting an exemption for a period of five years. In some cases if this is not hooked up to a tax policy, you will find that the landlord can make a tremendous amount of money in regard to dealing with this issue. The losers involved in this will be the tenants who will be evicted. There also has to be a question on the period of time for a person to receive an adjustment on what the rents will be. The issue he is concerned with is that they need to make it an economic incentive but not necessarily a major economic "boondock".

Councilman Rice said they are all saying the same thing that they need protection built in. He requested the Council to take the opportunity to make recommendations so that they can discuss them.

Councilman Payne felt that they have to get existing legislation from the other cities to see what they did.

Temporary President Branch suggested that any legislation that is sponsored by a Councilman, that it is discussed at their pre-meeting conference so that when they come down to the Chamber they can move expeditiously on the agenda. It is a fine piece of legislation and he knows the Council supports it but there are additional things that have to be ironed out.

Councilman Rice stated that the problems in the City of Newark are so serious that this Council needs to marathon the issues. They should look at the housing situation and sit down, not at pre-council meetings, but days and week-ends if necessary, until they can agree or disagree and come up with answers. Certainly when they legislate everything is stuck with amendments.

Communication from His Honor, Mayor Kenneth A. Gibson, nominating, subject to confirmation by the Municipal Council, Mr. Carmine A. Granato, 208 Walnut Street, Newark, New Jersey, as a Member of the Alcoholic Beverage Control Board of the City of Newark, for a term of three years.

(Copy of correspondence submitted to each Member of the Council)

(Mr. Granato met with the Council September 20, 1983)

A motion to confirm the nomination on condition that the nominee waive the salary attached to the position was made by Councilman Martinez, seconded by Councilman Carrino.

Councilman Payne said why don't they wait to see if he waives the salary instead of passing this conditionally. He knows Councilman Martinez has made a motion but he would like to table this.

Councilman Martinez explained the problem with this nomination. If it is not acted upon today it means a rejection. With confirming this on condition it has been found to be legal if he waives the salary.

Councilman Tucker said the question is not "if he waives the salary" in regard to the ABC Board. The question is whether or not he waives his salary that he gets paid from Essex County.

Councilman Martinez said the question is if he waives his salary from the ABC Board.

Councilman Tucker opined isn't the question the Law Department raised that if he receives a salary from the County that would basically put him in a conflict in regard to the City.

Councilman Martinez replied the conflict would be in receiving a salary from the ABC Board. He reiterated that waiving the salary from the ABC Board would make the position legal.

Councilman Payne questioned if there was a legal opinion.

Councilman Martinez replied it was from our Law Department and the County Corporation Counsel.

Councilman Payne questioned how do we know it is right?

October 5, 1983

Councilman Martinez said under the State Statute that no person working for the County State or Federal Government can receive a salaried position from the ABC Board. By waiving his salary he falls in line by not violating that statute. 283

Councilman Payne further questioned does it say just salary. He is a law enforcement officer. He questioned can't they find anyone else to serve on the ABC Board. Councilman Payne felt out of 329,000 residents in the City, he is sure that there is someone else that could serve on this Board. He questioned he doesn't understand if no action is taken it "Dies".

City Clerk D'Ascensio replied the Administrative Code provides that the nomination is either confirmed or rejected shall not be postponed or delayed longer than one regular meeting. The Council has already postponed it for one meeting. If Council delays it it means it is rejected.

Councilman Payne said he moves to defer.

City Clerk D'Ascensio noted the only thing the Council can do is confirm or reject.

Councilman Payne said there is fundamental conflict of issues and he would go against the nomination.

City Clerk D'Ascensio pointed out the proper action would be no motion at all and it would mean rejection.

Temporary President Branch questioned Assistant Corporation Counsel Schwartz whether this position would be a conflict of interest and he replied he has not seen the legal opinion, it was prepared by Assistant Corporation Counsel Pidgeon.

Councilman Carrino asked does the opinion say that as long as he doesn't receive a salary from the City of Newark, then it is alright to appoint him?

Councilman Tucker said he remembers when Assistant Corporation Counsel Pidgeon came in and indicated that there was a question of salary.

Councilman Martinez brought forth that the Sheriff of Essex County also sought a legal opinion of their Corporation Counsel and determined that the only violation would be if he accepted a salary from the ABC Board of \$2,500. a year from the City of Newark. Having conversation with Assistant Corporation Counsel Pidgeon and the County Counsel, if he agreed to waive his salary there is nothing illegal in the appointment. He is not going to stand here on record and "throw the bull" to his colleagues and jeopardize them.

Councilman Carrino said the fact that Assistant Corporation Pidgeon told them there was a problem and they have not been in receipt of anything in writing that there is no problem. His only problem is if it is the salary request that has to be waived, he is ready to vote in the affirmative.

Councilman Martinez requested the City Clerk's Staff to reach out for Assistant Corporation Counsel Pidgeon.

Councilman Martinez noted they intend to rescind the salary for the 3 ABC Commissioners and pay them by expense instead.

Councilman James felt they should have a written opinion and he would be remiss if they are going to accept a verbal opinion. He said for them to sit here and debate what they don't have in front of them is not proper at this time.

Councilman Payne said he would like to hear what the State ABC has to say on this not that he doesn't believe our Law Department.

Councilwoman Villani said if Assistant Corporation Counsel Pidgeon appears before them and publicly states there is no problem, she would accept that.

Councilman James reiterated this should be in writing.

Assistant Corporation Counsel Pidgeon said it was his understanding it was deferred, therefore, that is why they don't have an opinion.

October 5, 1983

Councilman Martinez said it has come up for a vote today and by the Administrative ruling, if it is deferred the second time, it means a rejection. He moved for approval based upon the decision with Assistant Corporation Counsel Pidgeon and the County Counsel, that if he waives his salary, there is nothing illegal. The Council wanted a legal opinion in writing from him.

Assistant Corporation Counsel Pidgeon replied they drafted an ordinance and the Council has to adopt it.

Councilman Payne said there is a question of the legality of a law enforcement person being a "Judge" on an ABC Hearing.

Assistant Corporation Counsel Pidgeon said the prohibition under Title 33, for salaried Members of the County or State, to serve on the ABC Board. The question presented "if he waives the salary" may he be appointed to a non-salaried position and the response is "yes" if the Council adopts an ordinance which creates such a position. They have drafted the ordinance and will present it to the Council.

Councilman Carrino questioned how can they vote for Mr. Granato if they don't have the ordinance.

A motion to confirm the nomination on condition that the nominee waive the salary attached to the position was made by Councilman Martinez, seconded by Councilman Tucker.

Temporary President Branch: Will the Council confirm the nomination on condition?

Yes: Councilmen Martinez, Villani.

Not Voting: Councilmen James, Rice, Tucker, Temporary President Branch.

A motion to reject the ordinance was made by Councilman Tucker, seconded by Councilman Martinez.

Councilman Tucker stated that under the existing ordinance, landlords can automatically impose 6% "hardship" increase each year. He said landlords could also impose a utility surcharge on the tenants for water and fuel bills that escalate. He explained this has to be proven by 10% over the previous year. He added that the landlords could also increase the rents if they prove they are suffering economic hardships.

He stated with the proposed ordinance, the landlords would have to wait a year before applying for relief if their property is not registered with the Rent Control Board.

Councilman Carrino said he could not believe how many property owners do not register their property.

Councilman James wanted to know if there was any law which could help a person purchasing a piece of property.

October 19, 1983

107

Councilman Tucker mentioned a case he was familiar with in which the Superior Court made a decision that the Rent Control Board could not prevent the landlord from making a fair rate of return. He added the court ruled that if the landlord invested money to purchase a home, they would have to deal with the 11.5%, and the improved equity on what the City would regulate.

Councilman James said he would like to be in receipt of that court case. He felt this would place a great amount of integrity on the homeowner.

Councilman Tucker indicated the proposed ordinance could not regulate poor management of the landlord, but could enforce the codes.

The motion to reject the ordinance was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Rice, Tucker, Villani, President Grant.

He informed the Council that litigation is currently before the Appellate Division of the Superior Court on this matter. He indicated that on November 2, 1982, Mr. Alphonse Stoia was elected Secretary of the Board of Adjustment. He stated that office was established by State Statute. He said the Statute did not define the duties of the Board of Adjustment. He mentioned the duties entailed zoning matters, making zoning determinations and decisions of the Board, etc. He further added that certain actions were taken against the Secretary of the Board of Adjustment. He stated the salary of the Secretary was cut by 90%. He indicated the zoning position was not represented by Civil Service.

He asked the Council to consider the ordinance before voting on it with respect to ratifying the decision of the Zoning Officer, and usurping the duties of the Secretary of the Board of Adjustment. He asked the Council to get involved in the litigation on the court aspect.

October 19, 1983

Councilman Carrino stated the ordinance was only giving the position a 5% raise.

Mr. Capelo said it reduced the salary of the Secretary of the Board of Adjustment in the past.

Councilman Tucker requested advice from the Law Department.

Mr. Leo Schwartz, Assistant Corporation Counsel, said he would refrain from commenting on the subject. He felt this would jeopardize the City's position.

Mr. Capelo asked if the City's Law Department could take a look at this matter to see how it would affect the zoning laws of the City.

October 25, 1983

October 25, 1983

Councilman Martinez indicated they had a meeting with the lessee this morning who informed the Council what he intends to do with this building at no cost to the City. It is a building that will be utilized to house persons who are in need of emergency housing. It is currently being used to feed approximately 300 people on a daily basis and plan to expand the operation to feed approximately 1,500 people. It is certainly obvious as they go through the City of Newark that there are people who are in need of emergency shelter and he endorses this project.

The motion to adopt the ordinance on first reading was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Martinez, Payne, Tucker, President Grant.

President Grant: The yeses are five and the noes are none. This ordinance is declared adopted on first reading and the City Clerk is hereby authorized and directed to advertise said ordinance and give public notice of its introduction and passage on first reading as provided by law. This ordinance will come up for a public hearing and be considered for further action on November 22, 1983.

RESOLUTIONS.

- 7-R-a. (S-1) RESOLUTION ADOPTING A JOINT RESOLUTION OF THE BOARD OF EDUCATION OF THE CITY OF NEWARK, IN THE COUNTY OF ESSEX, AND THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, APPROVING A SETTLEMENT OF THE APPEAL OF THE BOARD OF EDUCATION FROM THE REDUCTION OF ITS BUDGET FOR CURRENT EXPENSES OF THE 1983-1984 SCHOOL YEAR.
(Copy of resolution and correspondence submitted to each Member of the Council)
(Business Administrator Hill, Assistant Business Administrator Banker, Assistant Corporation Counsel Bressler, Executive Superintendent Salley, Board of Education, President Sharif, Board of Education Board Member Gibson met with the Council on October 25, 1983)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Branch.

Councilman Martinez felt the public has to be aware of what has occurred. The public initially voted against the Board of Education's total budget. Administrative meetings with the Mayor, cut \$9 million and the Council concurred with that. Since then the Board of Education has filed an appeal and they also have been granted a "CAP" waiver since they are spending that amount which has been granted by the State Education Commission. The final decision will be made by the same person who granted the waiver. It puts the City of Newark in a precarious situation. If they don't vote for the \$4 million, the Board will be granted \$5 million, which would place a tremendous burden on the taxpayers of the City of Newark. It is a "Catch 22" situation. It is obvious that the granting of the waiver, the State has indicated "yes" the Board should spend the money. He thinks these things should be carefully watched as they are going to be by the public each and every year and forces him to vote in the affirmative, in this particular case, reluctantly.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Martinez, Payne, Tucker, President Grant.

Newark, New Jersey, November 1, 1983

A special meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 1:33 P.M.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Carrino, James, Martinez, Payne, Rice, Tucker,
President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

President Grant stated, "In accordance with New Jersey P.L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail the Newark Star Ledger and Elizabeth Daily Journal, by posting on the designated bulletin board in the basement of City Hall and by filing in the Office of the City Clerk on December 1, 1982, the schedule of regular meetings and conferences of the Newark Municipal Council.

In addition, the notice of this meeting was similarly disseminated on October 27, 1983, at the time of its preparation. All persons who prepaid for advance notice of meetings also received copies of the schedule and agenda as required by law."

1. Emergency appropriation for Board of Education settlement in amount of \$4 million.
2. Amendment of 7-R-b (S-1), adopted August 16, 1983.

RESOLUTIONS.

7-R-a. (S-1)

RESOLUTION INCREASING CITY OF NEWARK LOCAL CONTRIBUTION TO THE BUDGET OF 1983-1984 FISCAL YEAR OF THE NEWARK SCHOOL DISTRICT BY THE AMOUNT OF \$4,000,000. TO \$45,000,000.; SAID ADDITIONAL AMOUNT TO BE RAISED IN ITS ENTIRETY IN PROPERTY TAX LEVY FOR THE CALENDAR YEAR OF 1984; FURTHER AUTHORIZING CORPORATION COUNSEL TO EXECUTE NECESSARY AND ALL DOCUMENTS INCLUDING BUT NOT LIMITED TO THE AGREEMENT.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Payne.

Councilman Rice questioned whether the Board of Education ever responded about the \$2 million in Trenton. Whether or not they are litigating. The last conversation they had, he indicated his vote would be conditional upon the fact that they confirmed litigation with the State of New Jersey.

President Grant replied at the meeting last week with Members of the Board and Dr. Salley, he thinks the question was posed and if his memory serves him right, Dr. Salley indicated Jersey City had started and nothing has been resolved with that. At this point they have not attempted to join with them pending the outcome of that.

Councilman Rice said they don't have to join with them, he can litigate himself. He keeps saying the same thing over and over. He thinks the Board President in a memo made it quite clear, at least his interpretation, the implication is that this money is not really going to any structural programs. Everything he reads in the language of that memo that they still have some administrative responsibilities they want to take care of. He has a feeling that the \$4 million is going to salaries and other areas.

November 1, 1983

November 1, 1983

Councilman Martinez said he believes it was explained by Assistant Corporation Counsel Bressler that the Board of Education was granted a "CAP" waiver to spend at a higher rate than originally planned and the same person that granted the "CAP" waiver is now the person who is handling the appeal process. It was pretty much her opinion, a good possibility, that they would be granted the \$8 million because of this persons action.

Councilman Rice said it was his understanding that they litigate, she felt pretty confident and he has confidence in her that they could at least win half of that amount which meant the bottom line was that the Board of Education, even if they appealed, if they got the \$4 million, his position is to roll the "dice" and they would probably get nothing and if he brought in some other arguments and once again his fiscal responsibility in leadership. He wanted this for the record because he has a feeling that it is going to come back to be dealt with further.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilman James, Martinez, Payne, Tucker, President Grant.

No: Councilman Rice.

Not Voting: Councilman Carrino.

Councilman Martinez questioned whether five votes were necessary for the adoption of this resolution.

Chief Accountant Fitzsimons replied this will be handled the same way it was done in 1978-1979 when they had a previous settlement. When we appropriate the money in the 1984 City Budget, we will appropriate half of 1983-1984 request and appropriate half of the amount in 1984-1985 school year request and to that we will add the \$4 million to this total in 1984. Five votes are sufficient for the adoption of this resolution.

7-R-b. (S-1) RESOLUTION AMENDING RESOLUTION 7-R-b (S-1), AUGUST 16, 1983, BY AUTHORIZING MAYOR AND/OR ITS DIRECTOR OF FINANCE AND/OR THE EXECUTIVE DIRECTOR OF THE MAYOR'S POLICY AND DEVELOPMENT OFFICE TO BENEFIT, OBLIGATE, AND PROTECT THE CITY UNDER THE LOAN AGREEMENT(S), WITH N.E.D.C. FINANCIAL MANAGEMENT CORPORATION AND THE THIRD NEWARK GATEWAY URBAN RENEWAL ASSOCIATION, TO BE ASSIGNED TO THE CITY, FORTHWITH AFTER THEIR EXECUTION AND DELIVERY RATHER THAN IN THE EVENT OF DEFAULT AS ORIGINALLY PROVIDED.

Yes: Councilmen Carrino, James, Martinez, Payne, Rice, President Grant.

Councilman Rice recognized the students and said the youngsters from this school were fine youngsters. He noted that Vailsburg High School is one of the finest schools in the City in terms of academics as well as athletics.

President Grant stated that the students were present today by invitation of both Councilman Rice and Councilwoman Villani. He noted Councilwoman Villani was ill but both she and Councilman Branch extended their best wishes to the students.

6-HC-a. MR. JOHN FEENEY, TEACHER AT VAILSBURG HIGH SCHOOL, NEWARK, NEW JERSEY, thanked the Municipal Council for permitting them to visit today. He said there were 24 students from Vailsburg High School here today and some of them would apprise you of the problems that exist in their community. He noted they were aware of the future bond issue to be voted on but they would also like to provide the Council with additional information.

✓ 6-HC-b.

MS. LAJUANA ELLIS, 85 MANOR DRIVE, NEWARK, NEW JERSEY, a senior at Vailsburg High School. Ms. Ellis extended an invitation to the Members of the Council to attend an open house at Vailsburg High School. She noted that Vailsburg High School was a converted elementary school built for 900 students and now houses 1,350. She said the lunch room seats only 200 students, the auditorium seats only 2/3 of each grade, therefore, prohibiting large assemblies, the gym is small and visiting schools cannot bring spectators, the classrooms are small and the school lacks lab and skill classes. Ms. Ellis emphasized that even if the Bond Issue was defeated they still needed a new Vailsburg High School.

✓ 6-HC-c.

MS. DAPHNE GUERRERA, 21 ALEXANDER STREET, NEWARK, NEW JERSEY, a senior at Vailsburg High School. Ms. Guerrero addressed the Council with emphasis on the necessity of the new school being built in the Vailsburg section of the West Ward. She noted the students are conscious of their identity as the "Vailsburg Vikings" and are proud of what the school has accomplished in the fine arts and sports in the last four years. She also extended an invitation to the Council to visit Vailsburg High School and see a school that has done very well under adverse conditions. She thanked Councilman Rice for his invitation to address the Council.

Councilman Rice noted the open house was scheduled for 7:00 P.M., November 3, 1983. He thanked Mr. Feeney and the students for coming. He noted one of the problems they have encountered with the building of the new high school has been finding an appropriate location. He said he would welcome any suggestions on this matter.

Councilman Martinez said he respects the students for expressing their views. He said he had experienced this same problem in the East Ward and said he would like to caution them to stay on top of the Newark Board of Education and see that the school is built quickly and properly.

President Grant urged the students to encourage their parents in the month of December to vote in the Special Election that will be called by the Superintendent of Schools for that purpose and when the school has to sell bonds in order to build a new institution they should make sure their parents go out and vote.

President Grant, on behalf of the Members of the Council, thanked Mr. Feeney and all the students for attending this meeting.

BOARD OF ADJUSTMENT APPEAL.

4-A-1.

The City Clerk read IN THE MATTER OF APPLICATION OF ESTEBAN MEDINA, DOMITILIA MEDINA AND YDIA MEDINA, OWNERS, IN A 3RD RESIDENCE DISTRICT CONVERSION OF A ONE TO THREE FAMILY DWELLING WITH INSUFFICIENT SIDE YARD AND NO ON SITE PARKING; AT PREMISES 335 CLIFTON AVENUE.

The Board of Adjustment at its regular meeting August 9, 1983, approved the application by a vote of 7 ayes.

An appeal in this matter was filed in the Office of the City Clerk on August 19, 1983. The transcript in connection with this matter was received September 16, 1983 and each Member of the Council was furnished with a copy of the transcript.

On September 19, 1983, the City Clerk notified the applicant and the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting October 5, 1983, at 1:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

On October 5, 1983, the City Clerk read letter from Mr. Raymond Stabile, appellant, requesting this matter be postponed due to the fact Mr. Stabile was hospitalized.

The Municipal Council deferred action on this matter at their regular meeting of October 5, 1983.

On October 6, 1983, the City Clerk notified the applicant and the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting October 19, 1983, at 8:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

The Municipal Council deferred action on this matter at the regular meeting of October 19, 1983.

On October 20, 1983, the City Clerk notified the applicant and the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting November 2, 1983, at 1:00 P.M., in the Council Chamber, second Floor, City Hall, Newark.

This is the time and the place for the appeal to commence.

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Esteban Medina, Domitilia Medina and Ydia Medina, Owners, in a 3rd Residence District conversion of a one to three-family dwelling with insufficient side yard and no on-site parking; at premises 335 Clifton Avenue. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of an appellant or appellants who are not represented by an attorney, that means that they may state the reasons for their objections to the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

MR. RAYMOND P. STABILE, APPELLANT, 342 CLIFTON AVENUE, NEWARK, NEW JERSEY, apologized for the delay in this case because of his incapacity to appear before. He had the first opportunity today to view the transcripts that are on file in the City Clerk's Office and the Board of Adjustment and he presumes each of the Members of Council have his memorandum and the memorandum of transcript. He will dwell on the transcript itself which stated in sworn testimony this area had many, many three family homes in a third residential district. That was fraught with many, many mistakes. He is a resident in this particular home for 43 years and all during that time there has never been on record in the City Hall here or to his recollection a variance granted

November 2, 1983

from anything deviating from the ordinance as set forth in the third residential district. The very home that's entered, if there are any three family homes as stated in that transcript they were there prior to 1930 before the ordinance of the City of Newark became effective. It is a brick building and there are a couple of others. Now if there are any three families they are in violation and that's a code enforcement problem and not mine, but these are all two family residences with two kitchens only and egress and ingress from the rear of the building. On the property in question this was a residence, formerly owned by former Councilman Farco, 335 Clifton Avenue. It was a one family residence. Now how two kitchens got in here or anything else got in here - that is beyond him, but he knows there is no egress or ingress or no side yards, or no egress or ingress from the rear of the building. There is no parking facility there in an already congested area. They live on the East Side of Clifton Avenue - 335. Now to point out the debility of the kind of zoning we have. Alongside of this dwelling, at 341 or 345 there is a one family occupancy and it has been there for years. That home appears like it is three family because they are all homes that have been erected that way but it is a one family occupancy. The home next to it has a five car garage and the one just enumerated has a four car garage in which he parks his car. They have a five car garage but it is a one family occupancy - only one kitchen. On the west side of Clifton Avenue, directly opposite 335, starting with 338, the Walano home, old Commissioner Minisi's home - a one family occupancy. No egress and ingress from the rear, so they have no two kitchens. The home next to it, next to his home, one family occupancy, no egress and ingress from the rear. His home is 342. He happens to have egress and ingress in the rear of his home and they only have three people occupying an eleven room house. His neighbor next store at 344 - one family home, father and son reside in this home, one kitchen. Now this is the validity of the ordinance. Now I don't mind if we live up to the ordinance as it is and he knows his neighbors who did convert from one family went to two families, they were compelled to make egress and ingress for safety and health reasons in their property. He knows of one or two cases. But he has never received a variance and to break down this variance now, to break down the ordinance through a variance is to open a flood gate wide open for the deterioration of this neighborhood and with its present congestion and lack of parking and the road leading, a main artery leading to Route 280 will really be making a mockery out of the ordinance itself and cause quite a confusion and destruction in the neighborhood as it now exists. Thank you very much.

(Councilman Tucker arrived at 1:30 P.M.)

MR. EDWARD SERADZKY, ATTORNEY AT LAW, 622 BLOOMFIELD AVENUE, BLOOMFIELD, NEW JERSEY, representing the applicants, Mr. and Mrs. Medina, said apparently Mr. Stabile makes reference in his argument to the fact that egress and ingress must be mandated in order to have a home which would comply with the zoning ordinances of the City of Newark. He does not think there is any question about the fact if in the event the application is granted and has been granted below that construction officials in the construction department in the City of Newark would not issue them a permit or would not issue them a certificate of occupancy unless in fact all of the terms of the uniformed construction code were complied with and in fact whether or not there would be enough entrance and egress from the property in question. He believed the job of the Council today, as stated by Mr. Grant is to look at the record below and determine whether in fact there was any testimony as to that fact on the record below. Mr. Stabile has pointed out testimony that does not appear in his review of the record below. Most of the record below refers to the fact that there were three family homes in the area and in fact the one objector who did testify, Mr. Gold, at the hearing below indicated that there are several other three family houses in the area and was aware of that situation. He assumes that Mr. Stabile and Mr. Gold live in the same neighborhood. However, Mr. Stabile, may not be aware of what Mr. Gold testified to at a previous hearing. The area in question is zoned for three family use. The application which was before the Board of Adjustment was not for a use variance. The application strictly referred to both variances dealing with a side yard requirement and on site parking. On the use of permitted uses in the particular area there is no question that it is a permitted use. It is an R-3 residential area and there has never been any question - either prior to today as to whether or not it is a permitted use in the area. The only question becomes whether in fact there is sufficient parking in the area. There was testimony below as to the effect that his clients who are going to occupy one of the apartments in the three-family house do not have a car and will not be utilizing a car. The only car they have access to is their daughter's and the daughter

does not live with them and will not be living with them at this particular address. The other two tenants if it is a factor - the two tenants will have a car they can only conjecture. There is public transportation close by which would provide a tenant with the ability to go to and from their apartments. In addition, they have a situation where apparently his clients have indicated they had initially purchased this particular property with the idea of bringing over some family from Cuba. They had a problem after they purchased the premises and could not do that, so now they need to rent out some units in order to make the mortgage payments. They have indicated on the record below that in fact the property was basically a three family home prior to this and these people being law abiding citizens all they are seeking to do is gain the permission of the Municipality for a use that was already in existence when they purchased the home. The home on the records of the municipality was listed as one-family and what they are seeking to do is just alert the municipality to the fact that they want a three family home and are addressing their application to that fact. He believes that the Board of Adjustment below took into account several items in granting the application of Mr. and Mrs. Medina. There are several provisions of the New Jersey Statute which provide the Board of Adjustment with the ability to grant the variance under these circumstances. They have 40:55D-70(d) of the N. J. Statutes which provides in Sub-Paragraph C for the ability to grant a variance under certain conditions which create a hardship. His clients have provided testimony at the hearing below that they are senior citizens. They have no area to buy additional property from contiguous property owners and they could not afford the house without the rental which they would now get from additional tenants. Based upon that particular provision of the Statutes he believes there is sufficient cause for the Board of Adjustment to have granted their application. There is also sub-paragraph D which indicates that the Board of Adjustment may grant for sufficient cause variances and as long as they do not deter or without substantial detriment to the public good, it will not impair the intent and the purpose of the zoning plan of ordinances. As he indicated before the granting of the variances to permit a three family use will not impair the intent of the zoning plan because the area is zoned for family use and this will not be a use which is prohibited in the area. The question now becomes whether in fact the use of some of the families with additional cars in the area will be a substantial detriment to the public good in the area. He would have to maintain that as the Board of Adjustment found this would not be the situation. There are other multiple family dwellings in the area and there was some testimony to the effect that parking spaces are available. As he indicated before as well he believes Mr. Stabile's problem here whether or not this property has egress and ingress from the property and he believes that the Council should have sufficient faith in the Building Department here and the Zoning Officer so that they will not be permitted or they would not allow this property to be used for three family use and would not grant a certificate of occupancy without making sure the premises complies with whatever the applicable statutes and ordinances are. He thanked the Council and said he does not believe there is sufficient reason here to overturn the decision of the Board of Adjustment.

Councilman Carrino stated this appeal involves property at 335 Clifton Avenue between Second and Third Avenues, which is zoned as a Third Residential District. The lot is approximately 37½ feet x 138 feet in size and located on it is a 2½ story House. The area is composed of residential uses and contains numerous 3-family homes. It appears from the transcript and the sketch of each floor plan that each floor of the building has a bathroom and a kitchen and that the house has been utilized as a 3-family dwelling. Although 3-family homes are permitted in a Third Residence District, a variance is required for this particular property since there is an insufficient side yard and no on-site parking. The applicant is seeking to legalize a situation which is not permitted under the City's zoning ordinances. The applicant indicated that he had bought the house expecting other family members to move in and share expenses but that did not occur and he would like to be able to use the house as a 3-family home. The owner applied to the Board of Adjustment for a variance to permit the conversion of a 1-family dwelling to a 3-family dwelling. The Board of Adjustment determined that the variance could be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the Zone Plan and the Zoning Ordinances of the City of Newark for the following reasons:

1. Grant of variance will provide sorely needed housing for City.
2. Grant of variance will relieve hardship of applicant as house is constructed as three-family.
3. Neighborhood is comprised of multi-family dwellings and variance will not intrude.

Councilman Carrino continued that an appeal from the Board's decision was filed with the Office of the City Clerk in accordance with the Municipal Land Use Law and the City's Land Use Procedure Ordinance, which provides for an appeal to the governing body from a variance granted pursuant to N.J.S.A. 40:55D-70(d), known as a "d" variance. The Municipal Land Use Law requires that a "d" variance may be granted "In particular cases and for special reasons" and only if it can be granted "without substantial detriment to the public good" and if it "will not substantially impair the intent and purpose of the zone plan and zoning ordinance." In other words, the applicant for the variance must make two showings:

1. That there are "special reasons" for granting a variance; and
2. That the granting of the variance will not substantially impair the zone plan or be substantially detrimental to the public good.

Councilman Carrino agreed with the determination of the Board of Adjustment that "special reasons" exist for granting a variance in that the house has been utilized as a 3-family dwelling and the City needs additional housing. He is concerned with the impact on parking if the building is used for 3 families. The applicant testified that "there are plenty of parking spaces within the area" (p.5, transcript), but an objector testified that there is a problem with parking (P.7, transcript), although he did admit that the property is located within a block and one-half of public transportation and that he was aware that the applicant does not drive or require a car (p.8, transcript).

Councilman Carrino opined that permitting the house to be used for 3 families would have a substantial negative impact on parking in the area, but that permitting it to be used for 2 families would not substantially affect the parking situation. Neither would it be substantially detrimental to the zone plan as 3-family homes are a permitted use in the zoning district and there are, in fact, many such homes in the area.

Councilman Carrino, therefor, moved that the Municipal Council adopt the facts he received and the reasoning he set forth and modify the decision of the Board of Adjustment so as to permit the use of the property for a two-family dwelling.

A motion to close the hearing and modify the decision of the Board of Adjustment so as to permit the use of the property for a two-family dwelling was made by Councilman Carrino, seconded by Councilman Martinez and was declared adopted by President Grant by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

A motion to adopt the ordinance on first reading was made by President Grant, seconded by Councilmant Tucker.

Councilman James stated although he feels some of the raises before them are incorrectly being advanced at this time because they have already received raises during the calendar year 1983 and some of them have been retroactive all the way back to 1979, 1980, 1981 he thinks it would be wrong at this time to entertain blanket raises with the question of parity whereby our citizens have experienced a 15% increase in their property taxes. The citizens are still not happy or satisfied with the 1700 percent over the years in our sewer user charge nor are they happy with the 400% increase in the water rates. We have that unfortunate debate in our City that citizens cannot distinguish between their water bill and their tax bill, but he believes that the Mayor's salary over the year has been unfortunately rather low when considering the duties and responsibilities of his office. When you look at the salary of the Executive Director of the Newark Redevelopment and Housing Authority in the \$56,000. to \$60,000. range and the Executive Superintendent of Schools in the \$65,000. to \$70,000. range he thinks they would have to agree that the Mayor's salary is rather low. He recalled the position of a former Council Member that no one in the City of Newark in a governmental agency or Board of Education should actually have a higher salary than that of the Mayor. He said he approves this increase for the Mayor when looking upon the duties of his office compared to similar executives within the Administration and the Board of Education, his salary is somewhat low.

Councilman Payne said he feels the position and office of the Mayor is deserving of a salary which in the past has not been commensurate with the awesome responsibilities and duties of that office.

15:9B-17. New Construction, Vacant Properties and Substantial Rehabilitation Exempted.

However, prior to occupancy by any tenant and after applying for and receiving a Certificate of Occupancy from the City of Newark (certifying that the substantially rehabilitated building conforms to the Zoning ordinances of the City of Newark, the Uniform Construction Code of the City of Newark and State of New Jersey and all applicable health and housing codes of the City of Newark and State of New Jersey), the landlord of any newly constructed dwelling shall apply to the Rent Control Board for a certification that said dwelling is granted a five year exemption from any restrictions in the rent that said landlord may charge. The application to the Rent Control Board shall include a bona fide copy of said Certificate of Occupancy, without which the application shall not be acceptable and may not be acted upon by the Rent Control Board. The unrestricted initial rent that shall be charged shall also appear on the petition. If the application is acceptable, the Rent Control Board must show, within thirty days of receiving said application, why the landlord is not eligible for said five year exemption, otherwise, the five year exemption shall be deemed to have been granted. Any subsequent rental increase after the five year exemption period, however, shall be subject to the provisions of this chapter; at least 90 days prior to the expiration of the 5 year exemption from rent charge restrictions, the landlord shall notify the tenants and the Rent Control Board that said tenancy shall be subject to rent charge restrictions upon the expiration of the exemption period. The five year exemption period shall begin on the first day of occupancy by a tenant or thirty days after the landlord's application is received by the Rent Control Board, whichever occurs first.

B. Vacant Properties.

Dwellings which become vacant after the effective date of this ordinance and remain vacant for a minimum of eighteen months or dwellings which are already vacant on the effective date of this ordinance shall be exempt for a period of five years from any restrictions in the rent that the landlord may charge if the Rent Control Board determines that the cost of reconstruction or rehabilitation during a 12-month period has exceeded 50% of either the undepreciated cost or the fair market value of the dwelling and that the dwelling has received a Certificate of Occupancy and meets all applicable State and municipal health and housing codes.

The substantial rehabilitation shall be completed prior to the date of application to the Rent Control Board for an exemption under this section.

Petitions for an exemption under this section shall be submitted no later than 2 years from the date of the acquisition of the first permit from the City of Newark for the substantial reconstruction or rehabilitation.

The petition forms provided by the Office of Rent Control shall require that the owner submit some tangible evidence as to the undepreciated cost or the fair market value of the dwelling. The petition shall also require a written description of the reconstruction or substantial rehabilitation of the building as well as a bona fide copy of a Certificate of Occupancy for said dwelling issued by the City of Newark, certifying that the substantially rehabilitated building conforms to the Zoning ordinances of the City of Newark, the Uniform Construction Code of the City of Newark and State of New Jersey and all applicable health and housing codes of the City of Newark and State of New Jersey, without which the petition shall not be valid and may not be acted upon by the Rent Control Board. A Continued Certificate of Occupancy shall not be allowable for these purposes. The unrestricted initial rent that shall be charged shall appear on the petition as well as a sworn and notarized affidavit executed by the landlord stating that he did not in any way, manner or method evict the prior tenants from the dwelling in question for the purpose of being considered under this section.

At least 90 days prior to the expiration of the 5 year exemption from Rent Control, the landlord shall notify the tenants and the Rent Control Board that said tenancy shall be subject to rent charge restrictions upon the expiration of the exemption period.

C. Substantial Rehabilitation.

Dwellings which are substantially reconstructed or rehabilitated shall not be restricted in the initial rent charged if the Rent Control Board determines that the cost of reconstruction or rehabilitation during a 12-month period has exceeded 50% of either the undepreciated cost or the fair market value of the dwelling.

The substantial rehabilitation shall be completed prior to the date of application to the Rent Control Board for an exemption under this section.

The unrestricted initial rent that shall be charged shall also appear on the petition.

The procedures outlined in Section 15:9B-12 shall be followed. In addition, the petitioner shall give each tenant a one-month prior notice, of the effective date of any unrestricted rental increase approved by the Rent Control Board.

SECTION 3. This ordinance shall take effect upon final passage and publication according to the laws of the State of New Jersey.

November 2, 1983

The City Clerk stated that at the direction of the Corporation Counsel's Office which has refuted the legality of this ordinance they have suggested placing into the record the reasons and determinations that were made by the Council to substantiate this ordinance which reads as follows:

Whereas, after careful deliberation, the Municipal Council of the City of Newark, New Jersey determines that is necessary to amend the Rent Control Ordinance of the City of Newark in order (1) to promote the construction of rental housing in the City of Newark; (2) to give greatly needed support to the Municipal tax base; (3) to significantly strengthen standards of habitability in rental units in the City of Newark; (4) and most importantly to save greatly endangered housing stock in the City of Newark from being demolished after this housing stock has become vacant and abandoned.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. RAMON RIVERA, 75 PARK AVENUE, NEWARK, NEW JERSEY addressed the Council and asked them to vote against the adoption of this ordinance. He noted that under the existing ordinance the landlord is able, after substantial rehabilitation, to reset rents at whatever he wants. He said he cannot support this ordinance because he does not think it protects the interest of the poor people of the City of Newark. Mr. Rivera noted this ordinance needed further study by a broad based group to project the impact of this ordinance.

MS. NANCY ZAK, 48 READ STREET, NEWARK, NEW JERSEY addressed the Council with respect to support any proposal which will maintain the housing stock in Newark at rents that are affordable for current Newark residents. She noted the ordinance being considered would not benefit the current residents of Newark and would not deal with abandonment in the way it claims. She advised Council that her organization was willing to work with them to come up with a comprehensive plan that would help the residents of this City.

Councilman Rice stated that Newark would never move anyplace as long as they are not rational people. He noted that he had never indicated that this ordinance would cure the abandonment problem. He said it would assist in many of the negative problems they have including tax ratables, crime problems, infestation, health problems, loss of insurance policies of residents who live next to empty lots and abandoned houses and many other problems. He noted it is the responsibility of the Council to start to do something to get Newark going. He asked the support of the Council for this ordinance.

Councilman Payne stated he would support this ordinance. He noted that initially he had concerns about this but with the abandonment of more structures in the City he would be willing to try it. He said he would be the first to rescind it if it mitigated against people.

Councilman Tucker noted this ordinance will not touch abandonment. It deals with the possibility of incentive for developers to come into the City of Newark. He said the difference in this new ordinance is it gives landlords a period of five years to allow them to adjust rents and plan more effectively. He said he did not believe this ordinance would make a tremendous amount of difference but he did not believe they should knock it out before it is tried.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Rice, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Carrino, Martinez, Payne, Rice, Tucker, President Grant.
Not Voting: Councilman James

President Grant: The yeses are six, the noes are none and one not voting. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

RESOLUTION RECOGNIZING AND COMMENDING BEN KRUSCH, CHAIRMAN OF THE EMPLOYEES' RETIREMENT SYSTEM OF THE CITY OF NEWARK, ON 50 YEARS OF EXEMPLARY SERVICE TO THE PEOPLE AND THE EMPLOYEES OF THE CITY OF NEWARK.

A motion to adopt the resolution was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker said he was proud to introduce this resolution. He stated in regard to Mr. Krusch there is no one who has given more service to the City and more specifically to the employees of the City of Newark.

Councilman Tucker read the following resolution:

WHEREAS, Ben Krusch on November 1, 1983, completed 50 years as an employee of the City of Newark, and he has spent more than half of those years as Chairman of the Employees' Retirement System of the City of Newark, and in this role he has become a leading authority on pensions and a champion of employee rights; and

WHEREAS, Ben Krusch, a longtime resident of the City of Newark, started work as a mason and plasterer in the old Department of Parks and Public Property in 1933, and became foreman four years later, and he has served faithfully and diligently in that position ever since, except that from 1968 to 1970, he was Director of Public Works and responsible for all city construction, repair and sanitation services; and

WHEREAS, Ben Krusch was first elected to the Employees Retirement System 38 years ago as an employee representative, and his fellow workers have demonstrated continued trust in his dedication and judgment by re-electing him without interruption ever since, and he has served an extraordinary 29 years as Chairman of the Retirement System, which represents 1,800 active workers and some 1,000 retired persons; and

WHEREAS, Ben Krusch has won appreciation and respect throughout the state and nation as an expert on retirement practices and policies, and has served 15 years as national treasurer of the National Conference on Public Employee Retirement Systems which represents some 6 million public servants throughout the nation;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and commend Ben Krusch, chairman of the Employees' Retirement System of the City of Newark, on 50 years of exemplary service to the people and the employees of the City of Newark, and does wish him many more years of productive service, personal happiness and good health.

Councilman Tucker requested that Chief Accountant George Fitzsimons clarify this matter.

Chief Accountant Fitzsimons stated the original title of Chief Forester was a transfer from the Newark Watershed Development to the City of Newark payroll. At that time it was put into the budget and adopted. The ordinance then came up with two titles and both titles were rejected and returned to Administration. Now it has come back and Councilman Tucker had requested him to find out from the Newark Watershed whether the title of Chief Forester had received any increases in the past two years. He was told by the Newark Watershed that in 1982 the Chief Forester had received a 7% increase and in January 1983 he had received an additional 7% increase. This ordinance would grant him a 5% over and above that and the title was just created in the early part of this year and put into the City budget.

A motion to table the ordinance was made by Councilman Tucker, seconded by Councilman Rice and adopted by the following votes:

Yes: Councilmen James, Martinez, Payne, Rice, Tucker.

- 9-a. . Communication from Business Administrator Hill, received October 7, 1983, enclosing proposed "Ordinance to amend an ordinance entitled, 'An ordinance creating positions in the Department of Law and establishing salaries therefor,' (6-S & F-g) adopted May 4, 1977, and amendments thereto. (To adjust salary for Corporation Counsel)."

(Corporation Counsel	1/1/83	\$46,902.74 - \$46,902.74
	1/1/84	49,247.87 - 49,247.87)

(Not covered by Civil Service Association - Essex Council #1 - 5% increases for 1983 and 1984; Fiscal Impact-1983-\$2,323.; 1984\$2,439.)
(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to defer action on the ordinance was made by President Grant, seconded by Councilman Martinez.

Councilman James stated he hoped Council would understand when they began to give raises to the Directors the impact this 5% increase would have on the salary proposed. He noted when they took office in 1970 and before that Directors were not given annual increments. Their salaries were a fixed, flat rate. These positions are now being viewed as Civil Service positions as if these individuals will be with the City forever. He said they are concerned with increments, longevity and pension benefits and yet there is not similar concerns for the delivery of services. He said he thinks that Directors, just as in the State and other government agencies, should be on a flat rate and if at the end of a calendar year or at the end of office, the Council views their work with such merit that they should receive an increase, then they should be granted an increase. He said they have witnessed some Directors in the years of 1982 through 1984 who have actually received from \$9,000. to \$12,000. raises. He noted with a 15% increase in the tax rate and devastating water bills, they can ill afford these pre-campaign raises. He said he hoped the Council would view the impact these raises will have on the taxpayers of the City of Newark.

Councilman Payne stated they needed to take a comprehensive look at these salary increases. He said there was a need to monitor and measure the effectiveness of individuals. He calculated that before the end of the 80's these salaries will be in excess of \$60,000. He noted they had to consider the taxpayers.

Councilman Rice stated in the last 14 months this Council has voted raises for someone. He said he would like to work with Councilman Payne on developing a structure so they can identify what they are doing.

Councilman Tucker said he had no problem voting on a 5% increase, but he said some of these increases are 41% and 28%. He noted he would not vote for these increases.

Councilman James said it was suggested that they have an annual meeting where salary increases would be presented to the Council and voted up or down.

The motion to defer action on the ordinance was adopted by the following votes:
Yes: Councilmen James, Martinez, Payne, Rice, Tucker, President Grant.

Councilman Carrino said in light of the financial instability as it now occurs in the City of Newark, it would be kind of foolish for the City Fathers to entertain any raises which might be on the calendar. As a result of the financial crunch the Mayor has so eloquently been speaking about the last seven or eight days, he thinks the Council in its wisdom would be most intelligent to table or defer all of these ordinances until such time as they get a better picture of the financial situation in the City.

President Grant stated for the interest of the audience and those persons who are here tonight relative to the proposed raises. At the Council's deliberations earlier today and in keeping with what Councilman Carrino has indicated, the entire City Council, unanimously indicated in light of the fiscal crisis pending in the City of Newark and in light of the instability of our financial situation, they deemed it in the best interests of the citizens of the City to table these raises until such time as they can determine that Newark is on sound fiscal footing. It may be six months, it may be a year. They are certainly working in the interest of all of the people of the City and this is certainly the underlying effort behind the tabling of these ordinances.

Councilman James said he shares his remarks that it is the Council of the Whole and certainly they as a whole are saying it is a responsibility at this time because people look up and see firehouses closing, policemen being laid off and raises are being proposed. He hoped that they would even go further than just tabling these but look into the matters indicated by Councilman Martinez earlier about the significant number of federal positions which have been created in the existing municipal budget whereby they would continue in their job heretofore was limited in nature and they have career Civil Service people being laid off. They should study the entire Budget because there are positions in there that are considered "fat" as opposed to career Civil Service employees. They should also be mindful by the granting of raises they would in fact be reducing City services because citizens are now posing the question "what am I paying taxes for now with most of the services having been reduced or eliminated". They have a total responsibility of scrutinizing their budget and seeing in fact if there are any personnel in there not actually performing an essential job and they should be removed as opposed to police, firemen, metermaids and even our school crossing guards. He congratulated the whole Council for being responsible in this matter.

Councilman Branch agreed with remarks made by Councilmen Carrino, James and President Grant. The situation they are in now looks pretty bad and for Administration and the Council to accept raises would not be right.

Councilman Rice stated he too concurs with the remarks made by his colleagues and doesn't think this is a reflection to those in Administration, those in government who are recently deserving of a raise. His concern is to defer or table raises year

November 22, 1983

after year are not solutions to their problems. He thinks the time is long overdue that 9 Council persons and the Mayor with his administrative staff start to come together collectively with State, Federal and County officials, not only to try to resolve problems but to monitor the good of our system and give directions. This is the last time, hopefully, during the fiscal year that he would have to sit the last minute to make decisions. He hoped legislation would be forthwith from the City Clerk's Office and the Law Department creating a mandate that at least quarterly or sooner that Department Heads and Budgetary dispositions come before the City Council for response.

Councilman James said he thinks also during their deliberations they might bring out an unpopular subject because across the nation now they are not talking about raises but are talking about cutbacks, wherein employees would actually give monies back to keep fellow workers working. He had Chief Accountant Fitzsimons do a study on the Newark Municipal Council Budget and discovered their budget has increased 900% since he has been in public office and maybe they should govern by example and bite the bullet themselves. Maybe the Council, if it becomes necessary for fiscal cutbacks in the City, he thinks maybe they should cut back in their office and some of their expenses. If their budget has increased 900%, perhaps there is some "fat" in the Newark Municipal Council Budget.

Councilman Carrino said the unanswered questions about the layoffs doesn't really go as deep as it is. Not once in any of the newspaper articles had the Newark Police Department been mentioned and many people are under the assumption that no policemen are being laid off. Although there is no physical layoff going to occur in the Police Department, the fact is over 70 men have left the Police Department in '83 and those 70 people will not be replaced or no plans to replace them as of now, 25 of those 70 people were supposed to start the Police Academy this past Monday and the class was eliminated and those persons have already given two weeks notice on their other jobs. The fact is that those 70 positions will not be made up thereby putting the Police Department in a situation of going below 800 men for the first time in the history of the City.

(Councilman Payne arrived 8:18 P.M.)

Councilman Martinez said he can't understand who created the priorities. They have a Fire Department which is probably the best public relations weapon the City of Newark has, probably the best thing a homeowner has and the fire insurance policies are much cheaper than other areas in the country. He recalled the explosion of Texaco and the McKessen explosion on Doremus Avenue and they chose to close the firehouses which were the closest to the most dangerous areas, Engine Co. 14 and Engine Co. 32. He feels that priority should certainly be examined by the Governing Body.

Councilman Branch concurred with remarks made by Councilman Martinez and indicated the Central Ward can't afford to stand closing another firehouse. He hoped that the Governor's statement in reference to giving money to at least 6 cities becomes a reality to save the firemen as well as the policemen.

Councilman Tucker said he thinks what this ordinance in effect does is change the posture. They already have an existing ordinance that in effect establishes a Historical Commission. He does believe if the Mayor is reluctant to appoint the people on the old ordinance, then they should not be utilized as pawns in this confrontation between the Mayor and the Historical Society. He thinks if that is what they are really talking about, he believes the Mayor and the Historical Society should resolve this issue.

(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to adopt the ordinance on first reading was made by Councilman Tucker, seconded by President Grant.

Councilman Rice said he is concerned a little about the impact these parking meters would have in this particular area because the majority of the people visiting that area are going to the Health Division. Many of them are destitute and recipients of benefits and many of them have a car to get there, but too many times they get flooded with tickets before they get a chance to be treated. It is nice to collect the ratables but we need to be concerned where we place some of these meters. He would like to have this ordinance deferred and requested the maker and seconder to remove their motions to adopt.

Councilman Branch questioned whether the Council receives a report on how much money has been collected by these meters.

President Grant replied that can be requested and is reflected in the Budget each year.

Councilman Payne felt Councilman Rice was making a good point. He has done some checking on meter parking and in a lot of instances, the shop owners are parking there and keep their cars there all day and it really doesn't necessarily serve the purpose it was intended for.

Councilman Tucker withdrew his motion to adopt.

President Grant withdrew his second to the motion.

With respect to Ordinances 6-F-w through 6-F-y, Councilman Tucker stated for the record that these ordinances were previously adopted by the Members of the Council. Pursuant to the statutes, the Mayor submitted these particular ordinances to the Council and after their deliberations they in effect adopted them. Part of the process of making these ordinances into law is that the Mayor must sign them. They are salary positions and he believes if the Mayor has the wisdom to submit these particular ordinances to the Council but somehow or other doesn't want to affix his signature to them, then he doesn't believe these ordinances, even though they are in effect at this time, should be allowed to stand.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. ISAAC MUHAMMAD, 665 SOUTH 18TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council questioning whether this was one of the ordinances being tabled and why was the meeting scheduled from 1:00 P.M. changed back to 8:00 P.M.

Councilman Carrino replied the reason the meeting was held at 8:00 P.M. is because when they attempted to change it to 1:00 P.M., they were advised by the Corporation Counsel that the Faulkner Act requires that they have one day meeting and one night meeting. In regard to the tabling of these ordinances, two weeks ago when the Mayor sent these ordinances to them, not one of them had any knowledge the City was going to be in the financial crunch that the Mayor has subsequently announced in the newspaper. Because of that, all of them feel it would be irresponsible to give anybody a raise at this point until the Mayor gives them a definite number of people being laid off and definite amount of money they are short for 1984 Budget. They will hold back every raise on this calendar until they receive those figures.

Mr. Muhammad, on behalf of the United Community Organization, urged the Council to reject the ordinance.

MR. D.J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY, said it is hard to believe that this Council is even considering raises and compensation for this ordinance and the other 11 ordinances. He will not repeat what he said in opposition to a similar ordinance several weeks ago. Unfortunately, the issue was clouded at that time by a "mob" which disrupted the meeting and refused to stand during the playing of the National Anthem. The Councilmen quoted in last Sunday's Star Ledger, have stated the issue far better than he could and thanked Councilmen Carrino and James for approaching reality in City government affairs and hoped the majority of the Council takes the same position.

Councilman Carrino said he felt it was necessary for them to clarify their position as a Council. A raise is initiated by the Mayor and then given to the Council for approval or disapproval. He hoped everyone understood that three weeks ago Administration came to the City Council with in excess of 50 raises to vote on the merits or demerits. He felt that someone in Administration had some idea that there was a \$23 million shortfall in the 1984 Budget and they also had some idea that firemen and policemen and other employees were going to be laid off. No one from

November 22, 1983

Administration when they presented those ordinances to the Council indicated that 1984 may be a bad year. The 9 Councilmen in their wisdom started going through the 50 ordinances to see who would be entitled to a raise and who should get a raise. Last Monday all of a sudden, someone in Administration finds out the City of Newark is going to have a \$23 million deficit in next year's budget. He thinks Administration did not play fair with the Council in submitting those ordinances and thinks that when it became a fact, that there may be a budgetary problem in 1984, the Municipal Council took the responsibility of holding every raise in abeyance until the Mayor or Administration informs them just how much of a deficit there is going to be and if in fact there are going to be layoffs. As of this past Monday, they were told they had until December 31st to find out just what the figures were going to be and on Friday 6 firehouses were closed and the men were given notice.

MR. JEFF DIKES, 275 SCHLEY STREET, NEWARK, NEW JERSEY, addressed the Council in opposition to the pay increases in light of the \$23 million deficit and the layoff of 179 employees, 63 firemen and the closing of 6 to 8 firehouses.

MR. ALLAN KING, 47 QUITMAN STREET, NEWARK, NEW JERSEY, addressed the Municipal Council in opposition to the pay increases at this time with all the problems facing the City.

No one else appearing, a motion to close the hearing and table the ordinance was made by Councilman Rice, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

Councilman James stated the City of Newark spent over \$100,000. to rehabilitate several properties which were auctioned on November 18, 1983. He thinks this Council would be shocked to learn that of the 10 properties or more that were rehabilitate and placed on the auction, only 2 were actually bid on by citizens and were sold which means they will have buildings whereby they have put a new roof, new heating units, rehabilitated the building, etc. Now they run the risk of these buildings being vandalized. The question he is posing to the Council, after they have spent over \$100,000. for rehabilitating the buildings, the Office of Real Property somehow must have erred in the amount of money they were asking for these properties or they failed to notify citizens to come forth and bid. He believes only 20 citizens were in attendance at the auction. He hoped that at their next meeting they would call Members of the Office of Real Property before them to ask what went wrong at the last auction.

Councilman Carrino said it is also a fact the Office of Real Property has not conducted a public auction now for 18 months. He suggested along with Councilman James' request that Assistant Business Administrator Banker appear with the Office of Real Property to explain why they have a Division of Real Property who is supposed to be auctioning off property and hasn't had one in 18 months.

President Grant: The yeses are six, the noes are one and one not voting. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

Councilman Tucker said they have just gone through a process of tabling peoples raises. This is not Union negotiated. Why do they have to adopt this? If there is a crisis they are confronted with, that crisis in no way deals with the health benefits of the Fire Chief.

Councilman Payne agreed with Councilman Tucker. Many of these upgrading benefits, although the financial impact is minimal because it covers very few people, sometimes they are giving additional vacation time, sick days.

Councilman Martinez said he would like to clarify this with Chief Accountant Fitzsimons and correct him if he is wrong. He questioned these health benefits for the Deputy Fire Chiefs will bring them in line when they retire.

Councilman Tucker said he doesn't want to debate the issue. He was at the meeting. He knows full well what they said. It has nothing to do whatsoever with retirement. These men took a Promotion in which they received a raise. They explained this at the pre-meeting. The raise amounts to \$5,000. and he respects that. The Union who represents the Battalion Chiefs, basically negotiated a contract for the City of Newark and they are not part of that contract. What this in effect does is indirectly give them the same benefits and he respects the fact they wanted the promotion, they may or may not get the benefits the Battalion Chiefs are getting. All this is is an indirect way of them getting it. If they want to be Battalion Chiefs they get the benefits and if they want to be Fire Chiefs, they may or may not get the same benefits.

Councilman Carrino said that is not true. There health benefits are the same as the Fire Department right now. However, because of union negotiations, when a fireman retires, he gets the same health benefits. When the Deputy Chief retires they get a lower class health benefit because they are not part of the Union. All this does is upgrade those health benefits when they retire to get the same as the firemen when they retire.

Chief Accountant Fitzsimons stated from the information supplied, they get the same thing as Councilman Carrino stated. As Deputy Chiefs, if they did retire they would go out with lesser benefits and this brings them in line with the others when they retire.

Section 7. A copy of the lease agreement and this Ordinance shall be permanently filed in the Office of the City Clerk by the Business Administrator.

Section 8. This Ordinance shall take effect November 1, 1983.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MS. CYNTHIA MALONE, 306 ELIZABETH AVENUE, NEWARK, NEW JERSEY, addressed the Council indicating that she is the owner of property which was formerly the Weequahic Diner and her property is directly in front of 310-14 Elizabeth Avenue. She said she agrees with the concept of this project but the proposed site is not in the best interests of the business community in this area. She pointed out that her property is easily accessible for parking and to allow this project to house itself there would create a tremendous hardship as well as a private nuisance to her because they plan to feed 500 people twice a day and hopefully intend to house 100 people, trucks bringing goods, etc. She said that the Council could probably find an area that is a lot more conducive to the concept of what the people want to do.

President Grant questioned Ms. Malone whether she had spoken to Reverend Lee or any other person affiliated with this project?

Ms. Malone replied in the negative and urged the Council not to approve this ordinance.

After a lengthy discussion held on this ordinance, President Grant directed the City Clerk to invite Director of Engineering Zach, Police Chief Zizza, Reverend Doctor David Lee and Ms. Cynthia Malone to meet with the Council at their pre-meeting conference December 6, 1983 to try to resolve this matter and hopefully satisfy all involved parties.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Rice, seconded by Councilman Payne and declared adopted by President Grant by the following votes:

 This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval of disapproval.

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker,
President Grant.

Councilman Carrino questioned what is the process on this bond ordinance and who is holding up the Debt Statement?

President Grant said there has to be communication from the Director of Finance to the State and the State in turn responds to them. He questioned if this information has been sent to the State.

Chief Accountant Fitzsimons replied the debt statement has been in Trenton since September. He personally has spoken to them. They have had three meetings. They have never brought this up for discussion. It is supposed to be brought up at the next meeting of the Local Finance Board on December 12th.

President Grant requested Director Jones and Chief Accountant Fitzsimons to hound the State so this matter is in fact brought up on their December 12th agenda meeting.

Councilman Carrino, through the Chair, requested that telegrams go out to the appropriate agencies.

HEARINGS OF CITIZENS.

6-HC-a. MR. ANTHONY CABELO, 76 PROSPECT STREET, NEWARK, NEW JERSEY, addressed the Municipal Council on behalf of himself and on behalf of a number of property owners who are present in the audience with respect to the Rent Control Ordinance which was deferred earlier in the meeting. They were against the proposed amendments to the ordinance. All they are asking from the City Government is to allow them to make a reasonable return on their property. He requested the Council not only to defer the ordinance but to consider seriously giving long due respect to the property owners of the City and not penalize them.

President Grant pointed out this ordinance was deferred in the interest of trying to reach a meeting of the minds.

Councilman Tucker said it would be wrong for him not to respond. He recalled the speaker indicated that the Rent Control has the most expertise within the City in devising ordinances. He won't try to deal with the formulas they submitted that were all wrong, which was basically supported by the Chamber. They met with the Council and gave figures and at a later point of time came back without another figure at another meeting. He won't dignify that by calling that unit most expertise. The speaker indicated that no landlords had input nor did the Rent Control have input in that original ordinance. He thinks the speaker has to recognize that the citizens in this City may not support the same position that the speaker proposed. When the speaker mentioned the Law Department stating the ordinance was unconstitutional, the Law Department did not say it was unconstitutional. They indicated the question of landlords who do not register and the penalty clause embodied within the ordinance that it would be difficult because it goes way beyond the fact of \$250. which is the maximum statutory limitation that is allowed by New Jersey State Statute. He finds it difficult to accept that because this is the same Law Department that has flip-flopped on so many issues and it is difficult to understand what they are saying and believe in reality that they are being objective in regard to the constitutionality of the law.

November 22, 1983

6-HC-b.

MR. ALLEN MOTLEY, 371 LAKE STREET, NEWARK, NEW JERSEY, addressed the Municipal Council thanking them for deferring action on the Rent Control Ordinance. The speaker pointed out he owns two pieces of property, 42 families each and has not made one dime profit in four years. He was paying around \$3,500. for the sewer and water four years ago and today it is about \$9,000. a year and hoped the Council would give the landlords some relief.

6-HC-c.

MR. ANTONIO MOREIRA, 10 WALL STREET, NEWARK, NEW JERSEY, addressed the Municipal Council requesting relief for the landlords.

Councilman Rice stated that his position has always been a basic one. He doesn't think the landlords are getting a fair deal and doesn't think the tenants are getting a fair deal. He thinks what is happening is that the landlords and tenants are allowing people to speak for them and to think for them and have them come down here and get emotional which will not resolve the problem and this has been going on even before he came on this Council 14 months ago. The problem with the City of Newark is that this Council and Administration and others have yet to come together collectively and bring in jobs to the City. You can take the sewer charge this time and next time pass it on to the tenant. The fact of the matter is that nobody is making any more money, they are paying the same monies in circles. Until they decide to put those abandoned buildings and empty lots and come up with concrete directions, they are going to be going through with this all the time.

Councilman James concurred with remarks made by Councilman Rice. He thinks this situation has unfortunately become one of pitting tenants against landlords, landlords against tenants and they have not been able to respond properly to either party. He noted the various buildings that have been abandoned. They must understand the water bill in the City of Newark is unique and the sewer user charge when you have water rates that escalate to 400% and the sewer user charge has escalated 1,700% since he has been a Member of the Council. When your water bill looks like your tax bill something is wrong in the City of Newark. He would say to the Council that they do have a serious problem that they must wrestle with. He thinks the weakness in this whole issue that they never bring up, they talk about tenants, they talk about landlords, is code enforcement. If they allow a building to run down, then the tenants do not want to pay rent. Code enforcement has been the real issue. They must insure that the buildings are being maintained and they can support landlords asking for a fair market rent. They are entitled to a profit on their investment. He hoped that they would not run away from this problem because it is not going to evaporate. He thinks they are going to have to go beyond the Rent Control Board who at times have not had the leadership and the direction they thought, which they created. He thinks it is important that somehow they get both parties together and that they come to that meeting and make those decisions that they are going to insure they are going to have some quality of life in the private sector for those who own property.

Councilman James said he hoped that with the President's leadership, and certainly Councilman Tucker who is involved in this, that they have a Summit meeting with the proper people from both sides and go behind locked doors and not come out until they have a fair plan that the landlords can make the profits they are entitled to and the tenants can feel they are paying a fair rent and more important that buildings will not be allowed to run down.

Councilman Tucker said he is not going to sit and operate under any misconception in regard to the concerns being raised by the speakers. He has no problem understanding that. He is not operating under any assumption that the abandonment in this City is directly related to Rent Control. He is not in any way whatsoever going to support the position that Rent Control is so horrible that it is taking their property and in some way crippling them. He knows full well that some of these particular regulations may very well be restricted in regard to their particular activity but they were planned originally to deal with tenants and landlords. He is not going to say that everything within the Rent Control Ordinance is absolutely right but he doesn't believe that everything in there is exactly wrong. He has seen too much of landlords in this City ripping off tenants and seen tenants ripping off landlords and he doesn't believe that this perplexing problem is going to be resolved by a speech at a particular Council meeting or petition that is going to be solicited by tenants, etc. He thinks it is going to be resolved when people sit down and look at the issue. It is not going to

November 22, 1983

be resolved with landlords saying they don't want Rent Control and tenants saying they don't want any increase no matter what. It has to be fair and equitable and if it is not fair and not equitable he is not going to support it.

6-HC-d. MS. EMILY MORGAN, 3920 HUNTERDON STREET, NEWARK, NEW JERSEY, addressed the Municipal Council in appreciation of adopting Resolutions 7-R-cp and 7-R-cq on this agenda and requested Council's support in finding out why it takes the Department of Health and Welfare six months to bring these resolutions before the Council.

President Grant replied the Director of Health and Welfare assured him that it left his office long ago and was sitting on the desk of Corporation Counsel Teare and hoped that in the future it wouldn't happen again.

Ms. Morgan pointed out that they had to go out and borrow money from the banks to keep these Day Care Centers going and the Department of Health and Welfare did not submit them until October to the Law Department. The speaker hoped that she would not have to stand before the Council next year with the same problem.

Councilman Payne suggested that next year the speaker either contact the President's Office or one of the other Councilmen to help. He felt there wasn't enough accountability and hoped she wouldn't have this problem in the future.

Councilman Branch said he could not understand why it would take six months to get a contract together for the purpose of providing services for the Day Care Centers and puts them in jeopardy.

Councilman Rice said that was clearly an administrative problem and persons should come before the Council and felt that the speaker should go the Mayor's Office with this problem. Too many times the Mayor has indicated to them that he is not aware of these problems.

6-HC-e. MS. JUNE KRUSZEWSKI, 27 SCHALK STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the layoff of 76 firemen and felt that instead of laying off firemen they should be hiring more firemen with the fires and explosions they have down here. The more chemical companies that come in the less firemen they have to protect them and questioned what are they paying taxes for.

6-HC-f. MR. VIC DE LUCA, 38 MAIN STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the recent firehouse closings with no public input and no public comment. He noted the number of houses in the East Ward which were high risk buildings and the various explosions they had down here.

Councilman James said he was glad the speaker brought up one interesting point of the continuing use of police and fire personnel as sacrificial pawns because they know if they lay off a police officer, or firemen there will be a hue and cry in Trenton, the White House, let's get them back to work, knowing their need in our urban community. They have allowed too many persons to move from the Federal Programs into the City Budget and lay off career Civil Service personnel and keep the political army. He hoped that they look hard at the 1983 Budget and look at essential personnel, keep them in the Budget and no longer allow the political army kept on the municipal budget and in 1984 they will not have to lay off police and firemen. He has learned over the years that government cannot be a place where they reward those who make it possible for them to serve in public office. Government should be about the essential delivery of services and not a patronage plot.

Councilman Carrino said the one thing that disturbs him is that everybody is leaving out the Police Department because the newspapers have not stated there is a police lay off that everything is alright. 75 people are not going to be replaced and they will go below 800 people for the first time in the history of the Department.

A motion to permit Mr. Manuel Teixeira and Rose Marie Evaristo to be heard under "Hearings of Citizens" was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

6-HC-g. MR. MANUEL TEIXEIRA, 119 KOSSUTH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the higher water bills and taxes and pointed out that the Portuguese people never appear before the Council asking for their rights. The speaker requested relief for the landlords.

Councilman Rice said that they want to help and indicated that the Ukrainians in the West Ward community also pay high taxes and water bills, the Irish, the Italians, the Blacks and Hispanics who still live in his community.

6-HC-h. MS. ROSE MARIE EVARISTO, 66 WARWICK STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to seeking relief for landlords.

A motion to permit Mr. Hubert Graham and Mr. Louis Schwartz to be heard under "Hearings of Citizens" was made by Councilman Branch, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

6-HC-i. MR. HUBERT GRAHAM, 1290 SPRINGFIELD AVENUE, IRVINGTON, NEW JERSEY, addressed the Municipal Council with respect to aiding the property owners and when the time comes for them to make a decision that they will do it in the best interest of the City.

6-HC-j. MR. LOUIS SCHWARTZ, 702 SANDFORD AVENUE, NEWARK, NEW JERSEY, indicated he was not a landlord but a property owner and requested to modify the Rent Control Ordinance so everyone could live with it.

Councilman Martinez recalled four or five years ago when five Councilman said they would go to jail rather than see taxes escalated 500%, 600%, 700% or even more. When they were ready to go to jail, he didn't see any of the familiar faces that he sees here today. He has heard comments of the water and sewer charges and he will explain what it really is. The sewer charge was a mandate of the Federal Government. They came into Newark and said clean up your water. A lot of large companies were polluting our rivers, streams and even our water supply. The Federal Government first gave them the money to build a Sewerage Plant, which is the Passaic Valley Sewerage Treatment Plant. When this facility was completed the Federal Government backed off and said, "Newark, now you pay for it or pay for 40% of the usage because Newark is the largest sewerage user of the Passaic Valley Plant. They even asked the Legislature to have Passaic Valley Sewerage send out the bills so people could go and march in front and tell them that the bills are too high. There will be a meeting forthcoming between tenants and the landlords to try to resolve the situation.

Councilman Martinez continued that the Council does not hire or fire. There is no doubt in his mind that there is not a Councilman here that would have made a decision to close down the firehouses, or say "let's lay off cops".

Councilman Martinez thanked the audience for coming and they have chosen representatives that will be part of a Committee that will meet with the tenant groups and to form a dialogue.

Councilman Branch said they ought to commend the landlords who have tried to work with the Council and the community to provide decent housing in spite of all they have gone through and tenants who have tried to work with landlords.

Councilman James referred to article in Monday's paper which indicated that he is pro-landlord. He is not pro-landlord or pro-tenant. He is for the City of Newark. He thinks he would recognize that after they were unable to sell property at the auction November 18th, rehabilitated 10 to 13 properties and could not find buyers in the City of Newark. It is clear that they have an increasing apartment population so there is a need for apartments in the City of Newark, a need to have landlords in the City of Newark and he is not going to be one that is going to be ashamed to say that they are entitled to a profit for their investment and the most controversial thing we continue to deal with is water and sewer charge user charges. They found no problem to accept the fact that when fuel costs escalate rapidly that they had to address that concern and sees no reason why they should not recognize the fact that the significant increase in the water rates and sewer user charge are legitimate in the City of Newark as the increase in fuel escalation which they have no control over.

November 22, 1983

He will say to the speaker that noted that in the East Ward they don't have the problem of abandonment and everyone is happy. If they allow buildings to become abandoned and tenants ripped off, then their reaction is going to be somewhat anti-legislation that will come before them. He knows who owns 2 Grumman Avenue that is abandoned, 148 Chancellor Avenue and they can't afford to have bad tenants or bad landlords because they will actually influence the decision making on this Council.

Councilman James reiterated that he hoped that at that meeting wherein this situation is a crisis proportion, no need to add salt to the wounds of the landlords or the tenants.

Councilman Carrino said he will move this for the sake of having to at least reconcile the problem in the Budget Office. This is a perfect example of what is going on in the City of Newark. They are taking money away from salaries of Lieutenants and other Superior Officers to pay people of the lower rank to act as Lieutenants and Captains and Superior Officers. All they are doing is using money for overtime when they could just as well keep those people as Superiors and give them the regular rate. It is just a big game hitting the ball against the wall and seeing where it lands.

Councilman Tucker said they had some discussions with Assistant Corporation Counsel Grant in the pre-meeting conference and questioned whether he submitted a legal opinion.

President Grant replied in the negative.

Councilman Tucker said his only concern is he doesn't like the Council being played like a "yo-yo" by the Corporation Counsel's Office and they met with Assistant Corporation Counsel Grant this morning and was made clear of exactly what they were asking for. He thinks the Corporation Counsel was putting them in a predicament where they in turn make a determination to pay Zinnerford Smith's attorney, in effect establish a very dangerous precedent within the City. Even if they wanted to pay and the majority of the Council is amenable to pay it but the net result is that without a figure that deals with a daily rate it becomes difficult for them to approve it.

A motion to adopt the resolution was made by Councilman Branch, seconded by Councilman James.

Councilman Payne said if buildings are bad why can't they be scheduled to be demolished rather than put on for an emergency. It probably costs more money to do it on an emergency basis.

City Clerk D'Ascensio replied the reason is that they are a danger to the health and public safety to the people on the street.

Councilman Martinez said he has had several occasions where residents would call about a building that was ready to collapse and children would be playing in these abandoned buildings and fear of death. He has no problem voting for an emergency as long as it is substantiated as such.

Councilman Carrino said a lot of times some of these emergency demolitions that are done are not owned by the City and they have the authority to go in and demolish it and put a lien against that person.

Councilman Tucker pointed out today on Springfield Avenue and Rankin Street a building fell down. They have been trying to get that building demolished and for whatever reason couldn't get it done.

Councilman Payne said if you wait long enough every building will be an emergency. If that building was so bad last year, probably six months ago and all of a sudden it becomes an emergency and reiterated it costs twice as much money. He thinks they ought to look into emergency demolitions.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Rice, Tucker, President Grant.

No: Councilman Payne.

7-R-cv.
(A.S.)

Resolution expressing the intent of the Newark Municipal Council to not enter into a final agreement with the County of Essex and the Port Authority of New York and New Jersey regarding the proposed construction of a Resource Recovery Project in Newark until both parties agree to a 25% minority set-aside program for said project throughout its construction and operational life.

Councilman Tucker said what he wants to do is basically put it on record that when they finalize their contract which will probably take place within a year that in their negotiations that they should at least deal with the question of setting aside 25% for minorities.

Councilman James said what he wanted to bring to the attention of the Council was that whatever their attitude is in dealing with the Port Authority is very critical and very important. He doesn't know if any Member of the Council had a chance to visit Newark International Airport recently. The Marriott Hotel is at least five stories now and they are working very rapidly to get all the concrete work done before winter sets in. It is important that whatever agreement they have with them is done in writing. He would also like to know at what point do they start receiving payment from the Marriott Hotel

Councilman Tucker said they don't receive a dime until they rent a room. They get an occupancy tax. If they don't rent a room they don't receive any money.

A motion to adopt the resolution was made by Councilman Tucker, seconded by Councilman Branch and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

Councilman Rice said he would like to go on record with the concerns that weren't raised at the meeting the other day. The concern is that they negotiate the contract to give them options because the Port Authority is purchasing the land and he wants the contract to read or negotiated that if this Resource Recovery Project is approved in the future and is built and not successful, like many others throughout the country, do they have the option to buy the land from the Port Authority. He understands from Mr. Hull that they won't discuss dollars and cents but they would discuss that kind of protection mechanism.

November 22, 1983

Councilman Tucker said that Mr. Hull wants to negotiate the contract. They had met with Mitre and pinpointed what their concerns were and Mitre has subsequently has all of that in the contract and submitted to the Port Authority and the County. The tragedy is and he has the utmost respect for Mr. Hull, but the net result is what his lobbying in regard to the Council is doing is that he will not be a key factor in negotiating the contract. The only two individuals are Mr. Peter Shapiro, the County Executive and Alan Sagner, Chairman of the Board, Port Authority. What he is doing is he wants to meet with them to find out what is sought in regard to what they submitted to the County. What he is doing is trying to undermine the consultant they hired to do the negotiations.

Councilman Rice reiterated he just wants whoever does the contract that some options are inserted.

ORDINANCES FOR RECONSIDERATION.

The Acting City Clerk read An Ordinance establishing upgraded health benefits for the title of Deputy Chief in the Fire Department of the City of Newark, New Jersey.

(Copy of ordinance and correspondence submitted to each Member of the Council)
(Ordinance rejected by the Mayor December 5, 1983)

The Acting City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of 'An ordinance establishing upgraded health benefits for the title of Deputy Chief in the Fire Department of the City of Newark, New Jersey?'"

The Acting City Clerk read the following veto message from Mayor's Office Chief of Staff Smith:

December 5, 1983

Mr. Frank D'Ascensio
City Clerk
City Hall
Newark, New Jersey 07102

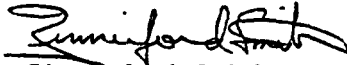

Dear Mr. D'Ascensio:

Mayor Gibson has directed me to affix his name vetoing Ordinance 6S&FT, adopted November 22, 1983 and to set forth his reasoning.

The title contained in Ordinance 6S&FT and 6S&FS is classified as managerial and they are entitled to the same benefits as all other managerial employees in the City of Newark.

It must be noted that negotiations with bargaining units or groups of employees are a responsibility of the Administration. This action by Council severely interferes with the inherent managerial prerogatives of formulating equitable salaries and fringe benefits for its non-represented employees.

Very truly yours,

Zinnerford Smith
Chief of Staff

A motion to override the Mayor's veto of this ordinance was made by Councilman Martinez, seconded by Councilman Carrino and failed of adoption by the following votes:

Yes: Councilmen Carrino, James, Martinez, Rice, Villani.
No: Councilmen Payne, Tucker, President Grant.
Not Voting: Councilman Branch.

A motion to defer action on this ordinance was made by President Grant, seconded by Councilman Martinez.

Councilman Tucker mentioned that the letter vetoing this ordinance was not signed by Mayor Gibson. In fact, it was signed by Mr. Zinnerford Smith, Chief of Staff, in the Mayor's Office. He stated that in the letter, Mr. Smith was directed by the Mayor to submit the veto letter.

Mrs. Rosalind Bressler, Assistant Corporation Counsel explained that under the statute, the Mayor can only delegate certain offices to act as Acting Mayor. She stated in this case, no one was designated as Acting Mayor. Mr. Smith was acting under the direction of the Mayor. She added that Mr. Smith recited in the body of the letter that he was directed to sign the Mayor's name to the ordinance. She added that if the decision was Mr. Smith's in his capacity as Acting Mayor, then Mr. Smith could not act at that capacity and the veto would be null and void. If Mr. Smith was acting in an administrative capacity at the direction of the Mayor, which apparently he was according to the cover letter in which Mr. Smith recites that the Mayor directed him to sign the ordinances and he shared the reasons for the action; then in that capacity, Mr. Smith can act because there is no statutory requirement that the Mayor affixes his signature to an ordinance when he wishes to reject it.

Councilman James wanted to know if there was an existing law pertaining to the responsibilities when the Mayor was not present for any action.

Assistant Corporation Counsel Bressler stated that the Mayor could choose a department head, the Business Administrator or the Municipal Clerk to act in his absence. She again mentioned it was the Mayor's decision to veto the ordinance, not Mr. Smith's, as was stated in the letter.

Councilman Tucker said he wanted a legal opinion submitted based on the acceptance of the letter submitted by the Mayor's Office.

The motion to defer action on this ordinance was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

At a later time in the meeting after Bingo and Raffle Licenses, a motion to reconsider Ordinance 6-S & F-r was made by Councilman Martinez, seconded by President Grant.

Assistant Corporation Counsel Bressler alerted the Council to the fact that it was possible that they might not be able to defer the ordinances to be considered at a later time. She mentioned there was nothing in the statute that stated the ordinance could be deferred. She mentioned on the other hand the Statute (40:69A-41) stated that if an ordinance was returned then it would not take effect unless the Council, upon reconsideration thereof on or after the third day following its return by the Mayor, shall, by a vote of two-thirds of the Members resolve to override the Mayor's veto. She said it seemed to her the Council did reconsider overriding the veto and the Council has not resolved to override the veto. She stated upon further research, the Law Department could come to the conclusion that it be deferred.

The motion to reconsider Ordinance 6-S & F-r was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Absent During Roll Call: Councilman James.

A motion to override the Mayor's veto of this ordinance was made by Councilman Martinez, seconded by Councilman Rice and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Villani, President Grant.

No: Councilman Payne.

Not Voting: Councilman Tucker.

Absent During Roll Call: Councilman James.

The Acting City Clerk: The Mayor's veto of this ordinance is overridden. This ordinance will be advertised according to law.

(Copy of ordinance and correspondence submitted to each Member of the Council)
(Ordinance rejected by the Mayor December 5, 1983)

The Acting City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of 'An ordinance permitting employees in the permanent title of Deputy Fire Chief in the Fire Department of the City of Newark, upon separation from the Department to exercise the option of receiving wages and other benefits due in a lump sum equal to the cost to the City for such wages and benefits had the employee remained on the payroll to receive same?'"

December 7, 1983

Dear Mr. D'Ascensio:

Mayor Gibson has instructed me to affix his name vetoing ordinance 8BH101983 and to set forth his reasoning.

Notwithstanding the obvious distinction of the separation of powers between the administrative and Legislative bodies, we feel the relief sought through this ordinance is available. As you know, photos both before and after demolition are administratively filed in the appropriate office. These photographs are available for public review. The procedures for payment are controlled through the contract provisions governing the demolition work.

Very truly yours,

Acting City Clerk Korngut read the following memorandum from Corporation Counsel John Teare at the request of the Council:

December 6, 1983

M E M O R A N D U M

TO: FRANK D'ASCENSIO
City Clerk

FROM: JOHN J. TEARE
Corporation Counsel

RE: RESOLUTION 7RA

This office has discussed this matter with the City Council at its' pre-council meeting of December 6, 1983.

It is the opinion of this office that the Council may authorize the payment to Mr. Smith's attorney even though said payment is beyond the amount administratively established by Council. (\$50.00 per hour) This conclusion is based upon the fact that Mr. Smith was a direct target in the investigation and the representation by his attorney in that matter warrants consideration by the Council of the higher rate.

It is also the opinion of this office that this payment will not establish a precedent for attorneys' representing other non-elected officials, i.e. employees, for reimbursement beyond the amount established by Council.

If you have any additional questions, kindly contact me.

ORDINANCES ON FIRST READING.

President Grant called for ordinances on First Reading.

6-F-a.(S) The City Clerk read An ordinance to amend Title Twenty-Five, Chapter Three, Sections Four and Five, of the Revised Ordinances of the City of Newark, New Jersey (1966), as amended and supplemented.

(Amends rates for water services)

(Copy of ordinance and correspondence submitted to each Member of the Council)

President Grant requested Assistant Business Administrator Banker to explain the ordinances.

Assistant Business Administrator Banker said the two ordinances before the Council affect all of the users of Newark's retail water and all of the users of the Newark Sewer System regardless of volume. The sewer ordinance establishes a new basis on which people will be billed. Large scale users of which there are approximately 800 in the City would receive a direct bill through the City of Newark but originating from Passaic Valley Sewerage Commission that would reflect the cost of treatment of their volume biochemical oxygen demand and suspended solids. All other users, which is about 37,000 users would continue to be billed on the same basis as they are currently. For the 37,000 the ordinance would lower their sewer rate from \$10.50 per thousand cubic feet to \$7.50 per thousand cubic feet. For the larger users they would receive a bill from the City at a rate of \$5.50 per thousand plus the direct bill from Passaic Valley which would on average be equivalent to an additional \$4.50 per thousand, so their effective

December 14, 1983

rate for those 800 large users on the average would \$10. per thousand. The water rate ordinance adjusts the rates charged for retail water consumption two ways. It lowers the minimum charge for water which is the charge on people using 500 cubic feet per quarter. It lowers that from \$13.71 to \$10.37. For all other aspects of the water rate the rates will be uniformly increased by \$1.55 per thousand. Taken together the net effect in terms of the bottom line of the bill, is that everyone using the City's water, except for those 800 largest users will receive a rate reduction overall, combination of water and sewer. For those 800 large users the size of the bill and the effect on them will vary on a case by case basis depending on how much BOD and suspended solids they actually put into the waste. For example, Budweiser and Pabst are very large generators of BOD. As a result, the combination of these two ordinances will have an effect in increasing their bills fairly significantly. Other large users will not suffer that because they don't have as much BOD and suspended solids in their waste drains.

Assistant Business Administrator Banker continued that these ordinances do address a series of criticism brought against the City, both publicly and through litigation regarding the method by which they have charged sewer fees historically. They basically resolve the issues which were brought in the case regarding their charges for infiltration and inflow and uncollected debts and at the same time the water ordinance addresses other criticism again including litigation that are brought against the City for the construction of a treatment plant and the quality of their water. Administration highly recommends that that these two ordinances is a way to solve five or six major considerations that have been brought repeatedly to this Council and heretofore have not been fully addressed.

Assistant Business Administrator Banker added that the water ordinance also raises the charges for high pressure lines to retail customers to a uniform percentage from the current amount and the uniform percentage is the equivalent percentage to what the rest of the rates are going up.

Councilman James indicated he appreciates all the remarks made by Assistant Business Administrator Banker. He is quite certain that Pabst, one of the large users had a meeting today and they are requesting to address the Council to at least give them feedback. He thought it would be interesting for them to make a presentation because he thinks on one occasion they were ready to close the plant and leave the area and it took some leadership of our City and other local officials to talk with them to have them remain in the City. He hoped that this matter, with only five Members being present, could be deferred and perhaps have this matter discussed again. He makes this suggestion with an open mind, no commitment. He felt any and all feedback is important.

Assistant Business Administrator Banker said just in regard to timing these ordinances have been presented and special meetings called because these ordinances will impact on the 1984 Budget and Administration's concern is that this action be brought to consummation so that they can be in effect January 1st.

Councilman Martinez questioned if this is voted on affirmatively today on first reading, they will not receive the Budget until January 15th. Does this mean that if they do not vote on this there will be increase in water and sewer charges in the Budget from January to April?

Business Administrator Banker replied in the affirmative. Administration's position is that the changes they are recommending now are the only changes that will be required in the Calendar Year 1984.

President Grant asked whether Business Administrator Banker can get the Mayor, the Business Administrator to address such piece of correspondence to the Council. He thinks the history has been that when they agreed on something along the lines certain emergencies arise which dictate something else.

Business Administrator Banker replied he would be happy to get that letter officially transmitted to the Council from Administration saying that they agree that they would not seek other increases during the course of the Calendar Year.

Councilman Martinez pointed out he has had conversation with Budweiser and Pabst is also another brewery in the City of Newark seeking the same problem or remedy with this. Budweiser has indicated to him that starting in 1985 they will move a great portion of their operation to New Orleans. It will go through New Orleans by Texas to the Caribbean because of what is occurring in Newark with the water rates. On one hand we say we are going to take the residential user and decrease it and give the industrial user who uses more quantity and charge him for what he uses then

we are going to lose the payroll tax, lose he believes 200 jobs in Newark. Is this going to be offset? Are we gaining by this or are we penalizing people, employment, etc?

Assistant Business Administrator Banker replied Administration has met with representatives not only of Budweiser, Pabst but the industrial committee of the Chamber of Commerce a couple of times in recent weeks and many times during the last two years on the question of water and sewer rates. He certainly wouldn't speak for the management of Pabst and Budweiser. Both companies were represented in the Mayor's Blue Ribbon Task Force on the sewer rates and those representatives concurred in recommendation of that Committee which were to accomplish several things. One was to improve collections in the sewer and water utility by aggressively going out after those who didn't pay, including the Housing Authority. They also advocated the question of infiltration and inflow, rain water and stuff that comes through the cracks. They also requested the City undertake whatever steps were necessary in order to try to minimize Passaic Valley's cost and they have followed everyone of those recommendations. They will not be charged for rain water and water coming through cracks and will only be paying for the waste actually generated in any given location. In regards to collections, the sewer system and water system combined in 1982 had an overall collection rate of 75%. As a result of litigation, negotiation and some aggressive things that collection rate for 1983 will be 90%. The City cooperated with other municipalities and the Chamber of Commerce in conduct of an audit of Passaic Valley of their entire operation. That audit has been a significant factor in Passaic Valley's Budget this year which will actually be significantly lower in total than it was last year. What they have done from the Administration's standpoint is to maintain constant communication with the large users and afford them the opportunity to be heard as to their views on the situation. Frankly he thinks they have done a yeomans job of trying to comply with each of those concerns.

Councilman Martinez said that Assistant Business Administrator Banker is saying that large industrial users will not be charged for rainfall, etc. Who is going to pay for it?

Assistant Business Administrator Banker replied what he said is that cost is not part of the sewer rate at all. All costs in the City if they are not absorbed by any specific revenue, effectively become part of the property tax. In this case increased collection activity they had in 1983 will offset much of the theoretical loss of not charging in the sewer rate so that not the full extent of that cost will actually be reflected on the property tax increase.

Councilman Martinez said if they use a million gallons of water a day that goes through the system, Newark has to pay for a million gallons of water usage. How do they say Budweiser only used 20 gallons or 30 gallons and the City used the balance?

Assistant Business Administrator Banker replied they know the total amount Passaic Valley has metered as coming into their plant. They also know the total amount they have billed as result of water consumption to every user in Newark. The difference between those two figures is the volume that originated from some source other than residential or industrial site. More specifically it arose from rainfall, leakage into the pipes, whatever. They can isolate in total what that amount is although he couldn't or anyone else tell them specifically what contributed what portion to it.

Councilman Martinez said that Budweiser had said to him although they may run off a million gallons of water from their tap, they don't send it through their sewer system because they put it into bottles. Therefore we are not going to penalize them. He indicated he has had conversation with Senator Lautenberg on the whole issue of sewer charges. It is obvious the City of Newark and all of the people that use Passaic Valley Sewerage are penalized by a Water Filtration Plant, such as Passaic Valley. While they continue to clean up their water, New York City keeps dumping into it and pays no cost.

Councilman Payne said he kind of agrees that somebody has to pay the bill and certainly it would be unfair to give a disproportion amount to one. He is totally opposed to the residents sharing any more increases in the cost of water and sewer. In his opinion he thinks it is absurd to feel that Budweiser and Pabst will pull up their facilities and move out because there has been some increase in their cost of water. He doesn't think they should take advantage and heavily burden them disproportionately. He reiterated he is totally opposed to any increase to residents. He supports this proposal that if there is a slight decrease for the residents then perhaps that will improve the rate of collection and perhaps people will pay more timely. He noted Budweiser will be building additional parts to their facility and the threat is always there. He would rather pass the increase to them and they can pass it on to the "drinkers".

Councilman Tucker said that Assistant Business Administrator stated this is going to have impact on the Infiltration Plant and questioned how?

Assistant Business Administrator Banker replied the effect is on the problem of infiltration. The effect is on the criticism that was raised in litigation by charging on the basis of volume for what effectively was the cost of rain water and infiltration. They were penalizing the largest water users by making them pay not only for what they use but disproportionate share of what came from "heaven". What this restructure does is take that out of the rate structure so no longer will infiltration and inflow be a cost borne on the basis of volume. It will be a cost borne on the ad valorem property tax. For the largest class of users, using 500 to 10,000 cubic feet of water, which encompasses virtually all for the residential properties, the average change, assuming they continue to use the same volume, will be an 11 3/4% reduction in their bill. Overall, billings for all groups would actually be down compared to what they actually billed this year. However, the amount of money that would be generated is going to be significantly greater than the level they anticipated in this year because of the improved collection. Some of what is happening here is really not a shifting of burden per se, but rather a recognition that they genuinely improve their performance in collecting and are taking advantage of that to try to provide some relief.

ORDINANCES ON FIRST READING.

President Grant called for ordinances on First Reading.

6-F-a. (S-3) The City Clerk read An ordinance to amend Title Twenty-One, Chapter Five, Section Three, of the Revised Ordinances of the City of Newark, New Jersey (1966) as amended and supplemented. (To adjust sewer user charges)
(Copy of ordinance and correspondence submitted to each Member of the Council)

Assistant Business Administrator Banker explained the Mayor has submitted a substitute ordinance for that which was originally submitted on the sewer rate. The substitute ordinance takes exactly the same form which was previously submitted. However, it affords even greater rate reduction than the original. They had proposed a rate of \$7.50 per thousand cubic feet for residential customers and are now proposing \$6.70. They also proposed \$5.50 per thousand for industrial, direct bill customers, and now are proposing a rate of \$5.10 per thousand. These reductions have been made possible as result of the Passaic Valley Sewerage Commission providing them with final specific data on their 1984 Budget request. Their 1984 Budget will go up by 5.7% but the City of Newark's share will drop from about 44.9% of the whole to slightly over 38% which effectively means \$3 million less the City will pay as had been projected previously. In passing along that savings they were able to afford the greater rate relief that he mentioned previously.

Councilman Carrino said given an average scenario of a homeowner today, would that translate into an increased water bill and a decreased sewer bill and would the net result be a decrease?

Assistant Business Administrator Banker replied for the normal homeowner which uses between 500 cubic feet and 10,000 cubic feet, the average of that bracket will be an increase in their water bill of 3.6% and a decrease of 36% in their sewer bill. It will be a 15.4% overall decrease in their net bill which amounts to just less than \$15. a quarter or \$60. a year. He said the letter that Council requested on Administration's position as to whether or not there would be further adjustments, included in the Mayor's recommendation of the substitute ordinance, is written affirmation, that if this package is adopted Administration will not seek any further rate adjustments affecting Fiscal Year 1984.

December 16, 1983

Councilman Branch questioned it will cost \$60. a year more.

Assistant Business Administrator Banker replied it will be \$60. less. The average bill for people in that category is about \$80. a quarter. On average they were paying \$320. a year combined for water and sewer. On average that will drop \$60.

A motion to adopt the ordinance on first reading was made by President Grant, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Villani, President Grant.

No: Councilman Tucker.

President Grant: The yeses are seven and the noes are one. This ordinance will come up for a public hearing and be considered for further action at the Year End Meeting on December 29, 1983.

After Ordinance 6-F-b(S-3), Councilman James requested to change his vote from the affirmative to the negative.

(Amends rates for water services)

(Copy of ordinance and correspondence submitted to each Member of the Council)

Assistant Business Administrator Banker stated the water ordinance before the Council addresses the bulk of their water charges, namely, residential use and high pressure use. There is a schedule of other miscellaneous charges, such as fire line charges, etc. that were inadvertently omitted. They will be submitting a separate ordinance to deal with that. It is simply to complete the overall change in the water system.

A motion to adopt the ordinance on first reading, was made by President Grant, seconded by Councilman Martinez.

Councilman James said the question posed by Councilman Carrino dealt with the individual homeowners, whether there would be a net savings and Assistant Business Administrator Banker indicated that with the increase of water rates and the decrease in sewer rate there would be an overall 15.6% reduction. He questioned what about the larger users like Pabst? What overall increase or decrease would they receive?

Assistant Business Administrator Banker replied the largest users comprise something less than 200 accounts in the City. They will be affected not only by the change of rate but the change of direct billing of Passaic Valley. On the average the largest users will pay 4-3/4% more overall than they are paying now. However, the individual cases will vary widely because the real change in their cost will result from the effects of the direct bill in their sewerage for volume BOD and suspended solids.

Councilman James said if they had invited Pabst to come in on Tuesday, wouldn't it then be after the fact if they act upon this today?

Assistant Business Administrator Banker replied this action is on first reading and doesn't bring to finality any consideration of the ordinance.

The motion to adopt the ordinance on first reading was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Villani, President Grant.

A motion to consider Resolution 7-R-ct (A.S.) at this time was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Villani, President Grant.

7-R-ct. Reslution recognizing and commending Mr. William Johnson for outstanding community
(A.S.) service.

A motion to adopt the resolution was made by Councilman Martinez, seconded by President Grant and declared adopted by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Rice, Villani, President Grant.

Councilman Martinez stated that all of the Councilmen have traveled throughout Newark and have seen the abandoned buildings and also the buildings that have deteriorated so badly. He said Mr. Johnson is an example of what good can be done when a community person is dedicated. He noted Mr. Johnson took over the building at Meeker and Elizabeth Avenues and it is highly commendable what he has done with it.

Councilman Martinez read the following resolution:

WHEREAS, Mr. William Johnson has for many years devoted countless hours of his time, talents and energies in making the Newark Community a better place in which to live, work and play, especially in his immediate neighborhood, that is the Weequahic Area of 225 Meeker Avenue and its surroundings; and

WHEREAS, in all his endeavors, William has conducted himself in a most professional manner, thus earning a well-deserved reputation as an enthusiastic and devoted community activist, such that he stands as a role model for all to respect and emulate; and

WHEREAS, it is imperative that the Governing Body recognize such individuals to encourage action on the part of its citizens and thereby improve the quality of life in this municipality;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and commend Mr. William Johnson for a lifetime of positive contributions to the public good and extending best wishes for good health, prosperity and a future as rich and rewarding as his past.

On behalf of the Members of the Municipal Council, Councilman Martinez presented a suitably inscribed resolution to Mr. Johnson.

Councilman Martinez said a community member, Mr. Ivory Cooley, has been a very responsible and rewarding citizen himself and has brought a lot of these things to Councilman Martinez's attention. He said Mr. Cooley is also to be highly commended.

Mr. Johnson said he was very proud of the City of Newark. He raised all of his 12 children in Newark. He saw Newark going down in certain areas and he felt confident he would see Newark come up again. Four years ago he went into this and today he owns 80 units. He noted all of them are filled and if he had 80 more he could fill them.

Councilman Rice congratulated Mr. Johnson and said the West Ward had some excellent real estate and they would certainly welcome him in their community.

President Grant noted that what Mr. Johnson has done is what perhaps a lot more landlords and prospective landlords would like to do in the City of Newark. This is what they have been preaching for the past several years and with the available number of lots they have in the City he is happy someone has taken it upon himself to try and restore housing to the City. Whenever we see one piece of property returned to the tax rolls it lessens the burden of those other persons who have to pay confiscatory taxes in this City.

December 21, 1983

Councilman Martinez introduced Mr. Ivory Cooley who he said has been a leader within the Meeker and Elizabeth Avenue area who has been a tremendous inspiration to himself and many others.

6-HC-a.

MR. ROBERT FEDERICI, 139 WASHINGTON STREET, NEWARK, NEW JERSEY, VICE PRESIDENT OF THE FRATERNAL ORDER OF POLICE addressed the Municipal Council with respect to the proposed ordinance creating the position of police guard. He said it is the F.O.P.'s opinion that creating this position will create conflicts in a number of different ways such as 1) the money will come out of their budget; 2) there are pending demotions in the police department and 3) the F.O.P. has an agreement with the City on the proposed hiring in the future of police aides. It is their opinion that police aide and police guard will create two positions where one position could do the job of both. He said if the position of police guard is created it will be in violation of Section 5 of their agreement with the City. They requested the Council to defeat or table this proposed ordinance so that Council could further research it.

Councilman Carrino questioned if there had been any discussion with the Police Department as to why they want to create another title.

Mr. Federici responded that the police guard title would be eliminating the title of police matron and absorbing it into police guard. Originally a civil service test was given for police guard, but only males passed the civil service test and they needed females to guard the female prisoners.

December 21, 1983

383

President Grant stated in light of the information presented at this time when this matter comes up for consideration this evening the Council might consider a deferment and have the principals meet with them to discuss in further detail this piece of legislation.

Councilman James questioned if these concerns were purely fiscal or were there other concerns down the road that might create a fiscal problem, therefor, negate other positions.

Mr. Federici said the concerns are twofold. One is fiscal and the fact that there are pending demotions in the police department. The second is the creation of two positions when one of those positions can do the job of both of them. Under the civil service title, police aide can perform a multitude of jobs.

Councilman Martinez said in August they had notations from Administration that they were going to create the title of police aide and they were going to hire 25 more police officers. None of this took place. Now they are asked to consider police guards which perhaps will never be considered. He said he would take the position, at the time this matter comes up for consideration to return it to Administration until they come up with a good identifiable plan that has merit and dollars behind it. He stated the parties that are concerned should be invited for discussion. He said it was sad that they are asked to create a position and to vote for it knowing full well there is no money for that job.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Rice, seconded by President Grant.

December 21, 1983

Councilman Rice said there have been problems created by the controlling and administrating of this methadone facility which is located in the Sussex Avenue-Roseville Avenue area. The Director of Health and Welfare has advised him, in writing, that they are going to tighten up the ship. He thinks there are methadone maintenance people who want to be serviced and the City has an obligation to service them, but those clients need to recognize their responsibilities. He said he would like to go on record to say he would be the first to move to abolish this methadone center in the near future if they don't change in terms of the problems being created by its clients. He said he would move to adopt at this time under the condition that they see some changes.

Councilman Martinez said he does not believe they need programs like this. He thinks they are doing the City a disservice. Now they are told that they are going to bring in the people from Elizabeth to increase participation. He suggested that his colleagues not approve this and send a strong letter to the Governor or whomever is in charge of this program to get rid of it, or if they really feel it is necessary to relocate it where it would not hurt anybody.

Councilman Rice concurred with Councilman Martinez but was concerned with the human factor involved. He opined they could not eliminate this program until they come up with an alternative. He would not want to move hastily. He would love to see this facility out of his community but he would suggest they adopt this resolution then sit collectively with the Essex County Delegation and State Officials to try to come up with something more concrete. He said not to pass this tonight may be detrimental. He is not totally in favor of giving up a half million dollars to continue to have folks hang on the corner in the West Ward and constantly creating crime problems. He will abolish it next time it comes around if they cannot come to something more concrete.

Councilman Branch wanted to know how this program was being monitored, how often they are receiving reports in terms of the progress of this program and also the number of people who are participating. He noted Newark has its own problems and they do not need Elizabeth's problems. If the program is a successful program then he would like to see it maintained but he cannot see investing any more money into a program that is not being monitored properly.

Councilman Payne said he would also like the program to disappear but they have to be realistic enough to know that the program is here and it is serving a need we wish did not exist. He agrees with his colleagues that there is no reason they should be forced to take the residents from Union County in particular the City of Elizabeth. It was because of a strong administrative position that whatever it takes to rid your community of it, Mayor Dunn did it. He said the real intent of a methadone maintenance program is that in order to reduce crime the concept was that if a substitute was made available then the addict would not perpetrate crime and there could be made available this substance that would maintain the problem they had. It was expected this would work toward removing people from the need for this particular substance. They have to reevaluate the initial intent. They have to see whether a reduction on the dependence on this substance is happening because the purpose is to get people off it. If they eliminate this program then you have six, seven or eight hundred substance abuse dependent people who are then thrust into getting money for a substance to maintain their problem.

Councilman Carrino stated it has always been his contention that anything government is involved in turns out to be a failure. The private rehabilitation houses such as Renaissance on Norfolk Street, and C.U.R.A. on Lincoln Park seem to be making a contribution to the community that they are involved in. The people in those agencies are the hardest core drug addicts that walked the streets in the past. The Multiphasic Methadone Centers are doing nothing but supposedly keeping people at a situation where they can maintain themselves. The same people have been on that program dependent now on methadone instead of heroin for years and years and years. His contention is there is more crime taking place in the areas of the Methadone Clinics. Anyone who knows what is going on, not only downtown but up on Roseville Avenue, knows they are the largest areas for dope sales. People are transferring the methadone they

are receiving to get other stuff by mouth and every other method. The areas around the Multiphasic Centers have deteriorated a great deal over the past several years in contrast to the areas surrounding the private rehabilitation centers. He said he thinks all they are doing by keeping this place going is letting government keep people on the methadone training program, not giving them any kind of incentive to come off this program and that they are doing a disservice to the people who live in those two communities. He said he has never voted for this program and he will not vote for it this evening. He said he agrees with Councilman Martinez that they put the State Agency on record that if Mr. Dunn from Elizabeth does not want them, the City of Newark does not want to be a dumping ground. The Multiphasic Program on Roseville Ave used to treat 2 or 3 hundred people and now it is up to 4 or 5 hundred people because other communities do not want it.

Councilman James said it is commendable that the City Council has instituted through the Law Department an injunction to see that 131 methadone patients in Elizabeth will not be relocated to our downtown area. He stated as one who is in support of that position it is clear that they say those who reside in Elizabeth should remain in Elizabeth in Union County. It stands to reason that Newark has to be responsible for those who are addicted in the City of Newark and even Essex County. The latest statistics indicate that 20,000 to 30,000 individuals are drug addicts in our community. He would agree the location becomes important, the supervision becomes critical and the evaluation of the program. However, it is a medical problem and it is something they must address. The important concerns for those who have been totally involved in the program is that methadone is not the solution to the problem, that methadone is a worse addiction than heroin. He would like to know what efforts are made after an individual goes on 21 days of detoxification to make those individuals go "cold turkey" because the most successful way to remove yourself from drug addiction after any program of detoxification is to go "cold turkey". He said if you place this in a residential neighborhood or the business community it creates more problems. He said they should meet with the Director of Health and Welfare, State and County Agencies to explore the existing programs that are operating in the City of Newark and also look at other programs to see how they can deal with these problems. He said the problem will not disappear overnight and they must have the courage to face the problem.

Councilman Branch said the drug addicts in the City of Newark are not going to go away and they do have a responsibility to have programs that will aid them. He said if there is no alternative to this program then they must maintain the one they have.

Councilman James said they should understand that this problem also exists with those in high society. It is not just a problem of those who are poor and disadvantaged. One of the significant problems they face with the increasing drug abuse would be drug related crimes in the community.

The motion to adopt the resolution was made by Councilman Rice, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Payne, Rice, Villani, President Grant.

No: Councilmen Carrino, Martinez.

Councilman James stated they had received in the mail that once again the City would be hosting an auction on January 23, 1984. He noted that City-owned properties have been rehabilitated and were not sold at the last City auction. He noted if these structures are not sold there is always the possibility of them being vandalized. He said he hoped the Office of Real Property has notified the public of this up-coming auctions because he said many of the residents have told him they are not aware of these auctions.

Councilman James said perhaps a letter could be drafted to the Office of Real Property and to Administration to explore the utilization of water bills as another method of disseminating information. He noted since water bills are mailed quarterly would it be possible to include information such as a forthcoming auction if it falls within that quarter or any other information whereby communication could be improved. He suggested the drafting of this letter could be done at the next meeting.

Councilman Carrino stated that Mr. Lembo of the Office of Real Property was being invited to the December 27, 1983 special conference and perhaps the Council could find out what the Office of Real Property is doing internally to notify the public of these auctions.

President Grant stated that Communications Connection Corporation, the City of Newark's Cable Company, which was authorized by this Body, is present this evening making good on a promise and the residents of the City of Newark as a result of this Body's authorization now have cable in this City. He said this is a first in a series of City Council meetings that will be brought into the living rooms of the residents this evening. He said the Council appreciates the citizens watching and suggested that in the future the residents consult this channel to find out what is going on Newark City Government.

Section Two, of the Revised Ordinances of the City
of Newark, New Jersey (1966), as amended, be further
amended as follows, with such amendment to be in
effect for the period from January 1, 1984 until
such time as it is further amended by the Municipal
Council:

inconsistent with this ordinance is hereby repealed.

Section 4. This ordinance shall take effect on January 1,
1984, after final passage and publication and in accordance with the
laws of the State of New Jersey.

President Grant called for those desiring to be heard on the ordinance to
approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on
second reading and final passage was made by Councilman Martinez, seconded by
Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Carrino, Martinez, Payne, Villani, President Grant.

President Grant: The yeses are five and the noes are none. This ordinance
having been read on two separate days and having achieved the vote required by the
statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor
for his approval or disapproval.

(Councilmen James, Tucker arrived 11:38 A.M.)

After Ordinance 6-Ph, S & F-b, Councilman Carrino noted that 6-Ph, S & F-a, raises
the water rates. The only thing that was going to be a benefit to anyone is that
6-Ph, S & F-b would lower the sewer rates for some people. If they are not going to
adopt 6-Ph, S & F-b, he would like to change his vote from the affirmative to the negative
on 6-Ph, S & F-a because there will be a raise and no decrease.

Councilman James asked if both of these measures represent a 15% total reduction for

December 29, 1983

the individual homeowner?

President Grant replied this is the information that was relayed to the Council both verbally and in writing by Assistant Business Administrator Banker.

Councilman Carrino said however, the 15% decrease depends on the enactment of both the ordinances. 6-Ph, S & F-a is an increase in water rates and 6-Ph, S & F-b is a larger decrease in the sewer rate which leads to the 15% decrease.

Councilman James said he shares the concerns of Councilman Carrino. His only reservation at this time is that he knows if it is not passed now, Pabst and others indicated they will speak at their next meeting. The end of the year meeting is somewhat unique and many individuals, as they can see are not in attendance. He questioned whether they would lose any benefits if adopted on January 4th, wherein persons would have an opportunity to be heard?

Councilman Martinez felt Councilman James brought up a good point. It would cause a benefit to the homeowner and indicated he will change his vote from not voting to the affirmative on 6-Ph, S & F-b.

Councilman Payne indicated he would like to change his vote from the affirmative to the negative on 6-Ph, S & F-a. He is going along with this modest increase because of the tremendous decrease in the sewer rates for the homeowners who have all been talking about how they have been hit by these great increases. Here is an opportunity for them to get the decrease and shift the burden temporarily.

Councilwoman Villani echoed the same sentiments as Councilman Payne.

Councilman Tucker said they have approved in the past water rates in March and the effective rates were retroactive to January. The action on the sewer and water rates was introduced at a special meeting. The public for the most part did not have an opportunity to participate. Now they are approving this on final at another special meeting. If they are amenable to change the rates, they can do it at a regular meeting in January, where people have an opportunity to participate.

Councilman Carrino said he would have no problem with removing his second to both of the ordinances.

A motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Martinez, seconded by Councilman Carrino and failed of adoption by the following votes:

Yes: Councilmen Martinez, Villani, President Grant.
No: Councilmen Carrino, Payne.

A motion to defer action on this ordinance and continue the public hearing, was made by Councilman Tucker, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Carrino, James, Martinez, Payne, Tucker, Villani, President Grant.

City Clerk D'Ascensio stated this ordinance will be on the Agenda of January 4, 1984 under Ordinances for Public Hearing, Second Reading and Final Passage.

6-Ph, S & F-b.

The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

Ordinance to amend Title Twenty-One, Chapter Five, Section Three, of the Revised Ordinances of the City of Newark, New Jersey (1966) as amended and supplemented (To adjust sewer user charges)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

Section 1. That Title Twenty-One, Chapter Five, Section Three of the Revised Ordinance of the City of Newark, New Jersey, 1966, be amended in its entirety to read as follows:

I. Large Scale Residential, Industrial, Commercial, Tax Abated and Tax Exempt Users

All large scale residential, industrial, commercial tax abated and tax exempt users of municipal wastewater facilities shall be billed for such use on two bases. For purposes of this ordinance, such users shall be defined as all users identified as such by the regional sewer authority pursuant to the regulations of the United States Environmental Protection Agency, 35.929-1(b)(4).

a) Twice a year, each such user shall be billed for its share of the operating and maintenance costs borne by the regional sewer authority in the treatment of wastewater. These billings shall be based on a method of calculation approved by the United States Environmental Protection Agency which shall at a minimum reflect the volume of waste and the strength of that waste as measured by the parameters of biochemical oxygen demand (BOD) and suspended solids (SS) per unit volume. Calculation of the amount to be billed shall be done by the regional sewer authority, who shall present the bills to the City of Newark for distribution and collection of payments.

Bills payable pursuant to this subsection shall be presented to the affected users on January 15th and July 15th of each year, or as soon as is practicable thereafter. Such bills shall be due and payable upon presentation.

b) In addition to such bills as payable pursuant to subsection I-a of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of wastewater.

1. As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed at a rate of \$5.10 per 1,000 cubic feet of water supplied by the City.

2. As an alternative to (1), any such property owner may install metering equipment on his premises to measure the actual flow of sewage into public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be \$5.10 per metered 1,000 cubic feet of sewage.

3. Property owners who are subject to the terms of this section and who obtain water, either in whole or in part from sources other than the City, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The local sewer user charge for these properties shall be \$5.10 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the City.

4. In the event that a property owner who is subject to the terms of this section shall prove to the satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by the Director of Engineering that it is not practicable to measure sewage emanating from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

5. In no event shall any property owner who is subject to the terms of this section utilizing municipally controlled sewers pay a local sewer user charge of less than \$10.20 per quarter.

1712

II. All Other Sewer System Users

All other users of municipal wastewater facilities, with the exclusion of publicly owned facilities utilized for the performance of the functions of either the municipal government of the City of Newark or of the Newark School District, shall be billed for their usage based on the following.

a) Users of municipal wastewater facilities shall be billed \$6.70 per 1,000 cubic feet of water supplied by the City.

b) As an alternative to (a), any property owner may install metering equipment on his premises to measure the actual flow of sewage into the public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The user charge for property owners who elect direct actual metering shall be \$6.70 per metered 1,000 cubic feet of sewage.

c) Property owners who obtain water, either in whole or in part from sources other than the City, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The user charge for these properties shall be \$6.70 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the City.

d) In the event that a property owner shall prove to be satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by the Director of Engineering that it is not practicable to measure sewage emanating from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

e) In no event shall any property owner utilizing municipally controlled sewers pay a user charge of less than \$13.40 per quarter.

Section 2. Any prior ordinance or part thereof which is inconsistent with this ordinance is hereby repealed.

Section 3. This ordinance shall take effect as of January 1, 1984, after final passage and publication in accordance with the laws of the State of New Jersey.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.
